SUBJECT INDEX

for The American Revenuer

September 1947—December 1965

Josef Schonfeld, ARA 354

This is the second edition of the Subject Index, brought up to date by inclusion of all articles to the end of 1965. A few minor changes of the earlier listing have been carried out, one of which was the insertion of a major subdivision, headed AMERICA, preceding those for the United States, and Canada.

The preface to the first edition is reprinted hereunder, albeit in a somewhat changed and condensed form.

This Index is, as can be seen from its title, a Subject Index. Whereas general indexes require that every article contained in a periodical be indexed under at least three headings, namely Author, Title and Subject, this Index relies mainly on a single Subject entry for each article. However, if it was found to be essential, occasional cross references have been inserted. As to the choice of material to be included, it has been necessary to eliminate some of the smaller articles and notes. The guiding principle was, to retain mainly such material which has a lasting reference value, whereas items which are ephemeral in nature have been excluded. Since a sharp line cannot always be drawn and a personal choice had to be made, I might be charged with inconsistency in this respect. However this may be, each and every index will be found to have shortcomings of one kind or another. It is therefore suggested, that every serious student in a particular field, should he find this Index insufficient for his requirements, go and consult a complete file of the "American Revenuer." Incidentally, a very detailed Index for the first four volumes can be found in the ARA Yearbook for 1952, commencing on page eight.

The arrangement of the entries is self evident; many headings and sub-headings have been employed to simplify the search for items of special interest. Quotations of titles were changed or omitted in many instances, if this procedure was found to achieve more precise results. Individual entries are either in chronological or in alphabetical order, or else they are arranged by subject or other considerations.

In the USA section, the headings are arranged almost identical to those appearing in Scott's Specialized Catalogue, followed by groups which are not listed in that catalogue.

Diverging from usual practice again, the quotations for the individual issues of the "American Revenuer" are not given by volume and by issue number, but simply by the month and the year. The page number follows the latter in parenthesis. The reason for this procedure is twofold: firstly, several issues of the "AR" were printed with erroneous numbers, sometimes repeating themselves in succeeding issues. This, therefore, would lead to mistakes again if only such serial numbers were quoted. Secondly, I believe that mentioning of the dates in the Index might help to determine for the reader, whether the article in question is of importance to him. In philatelic literature, dates play an important role in considerations of this kind.

Please note that the letters HT preceding the date reference indicate the periodical "Hollow Tree" which was the medium of our publications during 1954 when the "American Revenuer" was suspended as an independent periodical. The letters YB refer to "Year Book" (or Membership Roster).

The name of the author is mentioned in parenthesis immediately following the listed article. If no author's name is stated, such name was missing in the original. In many instances, the editor may have been the author.

Lastly I would like to point out, that no human effort is without fault. If

any genuine errors have crept into this work, I have to apologize. But at the same time I would appreciate to be informed of any mistakes, so that a correction can be effected at a later date.

A. R. A. LIBRARY LISTING

Prepared by Honer E. Webb

Rules of The Library

A member may borrow any item from the Library provided postage is paid each way and the item borrowed is returned within 30 days after it is loaned. If the material is not returned within a reasonable period of time, a notice will be sent to the member requesting its prompt return and the member will be responsible for this postage cost also. This is necessary to keep the Library operating expenses from being a burden on the budget of the Association. The reimbursement of postage will be made by means of postage stamps when the items are returned to the Librarian.

As certain items contained in the collection are extremely rare, or in condition that requires care in handling, the Librarian will use first class mail in transporting such items to the borrower. In instances where this class of mail is used, the identical service will be employed in returning items to the Library.

Members using the Library will not mutilate, deface, or take apart for purposes of reproduction any book, pamphlet, etc., that is the property of the American Revenue Association.

The Librarian wishes to encourage members to use the Library. There is no cost involved other than the postage costs referred to above. Members using the Library who are engaged in prolonged research should so advise the Librarian and furnish an estimated length of time the borrowed items will be required.
