THE RETURN OF JOCK & WILDNER

By Bruce Miller, ARA #732

That philatelic UFO, the Jock & Wildner "match stamp," has again shown up on the radarscope. In regard to this latest sighting, the writer has received the following letter from Mr. Elliott Perry (ARA HLM #6), whose researches in the field of M&M's span half a century. Mr. Perry writes:

"Your Jock & Wildner story (AR. April, 1968, pp. 25-28) is very interesting. Bob Siegel or somebody in his office should have read it before the recent sale in which a copy was illustrated and described as a great and uncatalogued unique rarity-or words to that effect.

"I happen to know where there are two copies, borrowed them and compared them with the 'uni ue' copy in the Siegel sale. All three are identical in design.

"Several years ago I spent a few days in Peoria doing philatelic research etc. Found nothing on J & W and believe a friend there wrote me that he also had tried and failed.

"My guess would be that Doc Petric rather than 'just as good' Taylor was the perpetrator.

'I never had more than one copy and am not sure I had even one. I do not know the source of either of

the two I know about but suppose one of them was the copy in the Harmer sale of Nov. 1965."

The copy of this stamp to which Mr. Perry refers in his first paragraph was offered by Robert A. Siegel Auctions of New York in their sale of the Josiah K. Lilly Collection. Part IX, September 26, 1968, as lot #539. In their catalogue it is described (p. 52) thus: "Jock & Wildner, 1c red. Neatly Sealed tears, Very Fine Appearance, Unique, Unlisted in Scott, Extremely Rare & Handsome Stamp . . . " An illustration of the stamp appears on the facing page. Comparison with the illustration of the copy included in the H. R. Harmer sale (November 2-5, 1965, plate XXV) reveals that the two are different copies. So, as Mr. Perry ob-

serves, not only is the Jock & Wildner not "unique," but apparently at least three copies exist, instead of only two as stated in the writer's previous article (ibid., p. 25).

Mr. Perry's statement that the 3 copies are "identical" is of considerable significance. Studies of the John J. Macklin stamp (from which the Jock & Wildner design is copied) have shown that, insofar as can be determined, no two stamps in the sheet were identical (cf. Boston Revenue Book, Gossip reprint, p. 200). This is commonly found with type-set designs and were the Jock & Wildner printed in SHEETS one would expect the same situation. It would be stretching coincidence rather far to assume that all three of the surviving specimens came from exactly the same sheet position. Instead, it seems virtually certain that they were INDIVIDUALLY

printed from a single die. A VERY unlikely procedure to have been used with a legitimate stamp of this nature, but exactly what one would expect with a bogus production.

In any case, the Josiah K. Lilly copy fetched \$320, up by \$60 from the price brought by the Watson copy in the 1965 Harmer sale. Were the Jock & Wildner's creator still alive today at an advanced age, it seems likely that this would finally do him in. Cause of death: "died laughing!"

FORMER ARA MEMBER, W. ARTHUR McKINNEY, DIES

W. Arthur McKinney (former ARA #245) longtime editor of the Stamp and Coin column of "Boys' Life," died 28 October 1968 after a short illness. He was 79.

A lifelong stamp collector, Mr. Mc-Kinney was named as Stamp editor in 1951 and continued in that post until June 1968. He was co-author with Harry D. Thorsen, Jr., of the book, "Scouts on Stamps of the World," and was the founder and first president of SOSSI—Scouts on Stamps Society International.

NEW HAMPSHIRE TOBACCO STAMPS AVAILABLE

Thanks to the efforts of a member of the State Revenue Society, Terry Hines, New Hampshire tobacco stamps are now available to collectors. Mr. Hines took the case all the way to the governor's office. Perhaps more collectors should do this. (Of course, it helps if one is a resident of the state, and it might prove especially effective during an election year!)

The only restriction on the purchase of the stamps is that the small size stamps must be purchased in multiples of ten and the large sized and higher denominations, in multiples of five.

Available (in multiples of 10) are: ½c, 1½, 2, 2½, 3, 3½, 4, 4½, 5, 5½, 6, 6½, 7, 7½, 8, 8½, 9, 10, 10½, 11, 12, 13, 15, 15½, 18½, 20, 22½, and 25c.

Available (in multiples of 5) are: 29c, 75c, \$1.12½, 1.20, 1.50, 2.02½, and \$2.25.

The heat transfer stamp (in rolls of 30,000) and the meter imprints are not available to collectors. However, there is little advantage in having mint copies of most heat transfer stamps, as they must be transferred before one can see the design!

ASSISTANT'S ASIDES

Two revenue exhibits received awards at the 82nd Anniversary Exhibition of the Chicago Philatelic Society back in November: William M. Fitch's "Proprietary Stamps of the Civil War Period"—a gold medal; and Richard B. Stevens, a gold medal in the Literature Class for "Revenue Stamps of Mexico". As far as I can tell, neither of these gentlemen are members of the American Revenue Association. How come?

The December issue of The American Philatelist has the concluding installment of a most interesting series by George G. Hafer, Jr., on advertising on postage stamps and postal stationery. Appendix C gives an alphabetical listing of U. S. companies which issued private die stamps—match, medicine, perfumery, playing cards and canned fruit.

A member needs help. Samuel S. Smith (ARA 1081) is trying to complete some research in the area of U. S. Revenue stamped paper—which he plans to send to us for publication upon completion. He is interested in information, specimens—anything you can do to help him. Why not write him and offer assistance? His address is 407 Lincoln Road, Miami Beach, FL 33139.

An ARA member, Arnold H. Warren (ARA 1018) received one of the Luff Awards at the fall APS Convention. He was given the award for Distinguished Philatelic Research for his outstanding work, "Fiscal Stamps of the Philippines: A Handbook-Catalogue, 1856-1968." Among previous winners who signed the Roll of Distinguished Recipients of the John N. Luff Award were two ARA members: Herman Herst, Jr., (ARA 265) and Earl P. L. Apfelbaum (ARA 349).

The Secretary has turned over to

me the answers he recived to the questionnaire in the January 1968 American Revenuer. (See the May AR, page 45, for a tabulation of these replies and some comment by the Secretary, Bruce Miller.) After reading them all, not once, but thrice, I'm still not sure what we have in these 28 replies. One thing is certain: they are all interesting! They range from pats on the back to indignation (and that word may be too mild!)

Twenty-eight replies were finally received—but out of almost 400 possible, this is not much to base an opinion on. The two replies that came in late do not change the results of the survey appreciably.

I will not plow again the ground that the Secretary plowed in his comments, but I would like to add some of my own.

The majority of answerers seem to vote for a "bigger and better" monthly journal, the publication of revenue catalogues and handbooks and sales circuits.

Since the publication of the questionnaire, we have seen an increase in the size of The American Revenuer. Pages, by months, from January 1968 8, 4, 12, 12, 16, 16, 16, 16, 16—a total of 128 pages (plus the yearbook in February). This is more than 1965. 1966 or 1967—the only years I have complete sets for. We will continue to have 12 or more pages for as long as we have enough material. But no editor can dream up all of the material himself. He needs help—Yours!

In the works for The American Revenuer in the near future: a four part article on the collecting of state revenue stamps; a series to be entitled "The Questioning Fiscalist" - questions about revenues that have bothcred collectors for years; biographies of the "Great Revenuers of Yesteryear." Projected also is either a short series of articles on Finnish revenues or the publication of a priced catalogue; a "handbook" on United States narcotic stamps; an article on the labels which replaced the Tax Paid stamps on cigarettes. All of this sounds impressive—and it is—but all of this material will not give us full issues for more than a couple of months. We will need more.

The suggestions made about publishing revenue catalogues and handhooks are great—providing there are some members who are willing to put in the time updating, pricing and Hustrating some of the older handbooks and/or compiling new ones. This is a field we would like to hear from more members about. I think it is a great idea, for we are all aware of the lack of up-to-date catalogue information in English on many nation's revenue stamps. We do have the money and I am willing to help in the editing. Do you have the information and the time and the inclination?

To make the ARA a better society all that it will take is some work by the members. If we were the size of the APS or SPA, then 95% of the members could sit back and enjoy what the 5% did, for that 5% would be many more than our total menibership. But when you let 5% of the ARA members do all of the work, you're talking about a very small number, and so few can not possibly come up with all of the material to fill a larger American Revenuer. (But to pat ourselves on the back. would you believe that our November journal has about 1/6th as many column inches of non-advertising material as the largest monthly journal of a national society-and that society has not 6 times as many members as we do, but almost 50 times as many. On that basis we should be publishing only two pages or they should be publishing 800 pages each month!)

It all boils down to the fact that we ain't so good, but we ain't so bad, either, and we sure could be better if more of you helped out.

> -John C. Ruback Assistant Editor

STATE REVENUE CATALOG ADDENDA

The State Revenue Society, 3739 Benton, Santa Clara, Calif., 95051, has issued many pages of addenda to the "Hubbard Catalog of U. S. State Revenue Stamps." The following pages are available for an addressed return envelope and 10 cents each to cover mailing and handling: California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Georgia Local Revenues, Idaho, Indiana, Illinois, Iowa, Kentucky. Maine, Maryland, Michigan, Minnesota, and Mississippi. An extensive Ohio adenda is available at 50 cents.

A few stamps from the home State of interested collectors will be accepted in place of the 10c cents charge. A self-addressed return envelope is necessary in either case. Other States adenda pages will be issued during the balance of this year and will be mailed to all paid up members of the Society.

Membership in the State Revenue Society is \$3 per year for regular membership and \$5 per year for contributing membership.

ATTENTION! HAVE YOU PAID YOUR DUES FOR 1969?

Below are listed all members with 1969 dues unpaid as of December 31, 1968. If your name is here, and you have not already remitted, please do so if possible prior to March 1, 1969. Members delinquent as of that date will be regretfuly listed as dropped for non-payment in the April Revenuer. (In the opinion of the Secretary, the pre ent method of collecting annual dues leaves much to be desired in the way of efficiency, expedition and economy. It is his intention to introduce some improved procedures with the 1970 fiscal year.)

YOUR A. R. A. OFFICERS

(To introduce the ARA officers to those who elected them)

Board of Directors, Eastern Rep. Dr. Hugh P. Shellabear (ARA 8)

The Board of Directors of the American Revenue Association consists of the three elected officers and six others, two each from the east, central and western sections of the United States. One of the earliest memers of the ARA is Dr. High P. Shellabear (ARA 8), who is serving his second four year term as a director.

Dr. Shellabear wrote the following biography:

"Stamp collecting began for me in Singapore in 1899, on my eighth birthday, when my father gave me a full set of the then current issue of the stamps of French Indochina. It became a general collection of the used stamps of the world mounted in an Imperial album, enlarged chiefly by trading. I was never an avid collector and gradually lost interest in high school and college.

"The urge returned for some reason in my first year in Johns Hopkins Medical School, but in the form of a subscription to a new issue service that furnished plate blocks of four of the commemorative issues of the U. S. at 25% over face for selected centering. Meanwhile I filled in gradually the back issues to 1900. This phase came to an end with the advent of the first world war in 1917, but I was fortunate to have obtained the Panama-Pacific set perforated 10, before that time.

"When collecting began again in 1922, the effort was directed to the booklet panes, coil stamps, commemoratives and even included a fair collection of bureau precancels and Civil War revenue stamps. All these had to be sold during the depression to keep the mortgage holder at bay. For some reason I picked out from the revenue collection those stamps handstamped cancelled by railroad and express companies. They amounted to 17 stamps.

"These became the nucleus of my present day interests. I had become greatly interested in the rapid development of the U. S. in the period from 1850 to 1875, and the effect that the Civil War had on this expansion. So the study of the stamp tax laws gave me a good background for the collections of cancellations of railroad, ship, express, telegraph, mining and petroleum companies. From 1939 on, then, I have accumulated as many stamp cancels and documents pertaining to these companies as possible.

"Some of these collections now rest in the hands of other collectors, as I have found that when it reaches a point that new cancels are too hard to find, I lose interest. Perhaps that is another sign of advancing years, but my basic interest in the cancels will never fade, since they give such an insight into the lives and activities of the people who lived in that exciting period of expansion of our country."

URGENTLY WANTED!

Pardon the desperate appeal, but what does one have to do to induce readers of this publication to write for one of our auction catalogs?

Quite a number of members of this group already bid in our sales, but there must be others who for reasons best known to themselves prefer to add to their collections the hard way.

It's like the guy in Times Square trying to sell dollar bills for 85c. He knew he had a good deal going for those who ignored his spiel, but they wouldn't listen.

If the country's top dealers who handle revenues find auction the best means for buying, isn't it common sense that you would too? Or are we wrong?

HERMAN HERST, JR. 22 Shrub Oak. New York 10588

PLATE REPAIRS ON U. S. CIGAR STAMP

I have found a plate repair on the 25 Cigars, Class E, Series 122 stamp.

The repaired area is on Clay's left forehead (to the oserver's right) and is a dark area about the size of his chin.

The dashes forming the lines across his forehead are crowded and not always in line on this repaired stamp. The fourth line below the hair on the forehead normally has two dashes omitted to highlight the forehead. These seem to have been filled in on the repaired area.

Since the basic stamp could be used for other values or series, it is possible that this repair may show up on other values, classes and/or series. Please report to the editor or to the undersigned any other stamps you find with this interesting repair.

-Chas. H. Hermann (ARA 5) 10124 Samoa Avenue Tujunga, CA 91042

FLORIDA DOCUMENTARY STAMPS

By Terry Hines

Since the Florida Document Stamp tax was initiated in 1931, there have been five comptrollers. Their terms of office are as follows::

Ernest Amos	1917-932
J. M. Lee	1933-1945
C. M. Gay	1946-1954
Ray Green	1955-1964
F. Dickinson	1965-

The original design had Amos' signature and the first issue of the current design was signed Lee. Thereafter, when a new comptroller took office, stamps with his signature were not issued until those with his predecessor's signature were used up. According to the State, the following values were in use during 1953: 10c, 30c, 50c, \$1, 3, 5, 10, 25, \$100; which is far enough into Mr. Gay's term that we can assume they all bore his name.

During Mr. Green's tenure, on 7-1-63, these values were in use: 10c, 20c, 30c, \$1, 3, 5, 10, 25, \$100. On June 30, 1964, at the very end of Green's term, the current values were: 5c, 15, 30, 75c, \$1.50, 3, 5, 10, 25, and \$100. Those 75c and \$1.50 values were new!

Mr. Dickinson's signature has now appeared on these values: 5c, 15, 30, 50, 75c, \$4, 5, 10, 25, \$100. Some of the colors are changed from the past issues.

Two kinds of stamps are now required: The regular documentary stamps discussed above (at the rate of 30c per \$100 or fraction) and a new Surtax stamp (at 55c per \$500 or fraction). There is a 55c black on white, perforated 12½ Surtax stamp, and also denominations of \$1.10, 5.50, 11.00, and \$110.00.

In addition, meters on safety tane are used for both taxes: the docamentary meter is black, and the Surtax is in red. The Documentary meters are used in 32 counties as foliows: Alachua, Bay, Bevard, Beward, Collier, Columbia, Dade, Duval, Escambia, Charlotte, Highlands, Indian River, Lake, Lee, Leon, Nanatee, Marion, Okaloosa, Osceola, Orange, Pasco, Pinellas, Polk, Putnam, Palm eBach, Hillsborough, St. Johns, St. Lucie, Sarasota, Seminole, Taylor and Volusia. Ten Counties use the Surtax meters: Brevard, Breward, Collier, Dade, Duval, Escambia, Hillsborough, Orange, Pinellas, and Polk.

Readers who can help with the cataloging of these stamps are urged to contact State Revenue Society President Mr. Elbert S. A. Hubbard, 3739 Benton Street, Santa Clara, Cal. 95051.

Consular Service and Foreign Service Fee Stamps of the U. S. (Scotts RK Series)

Edwin H. Meyer, ARA #491

(continued from last issue)

The latest provision of the law requiring the use of fee stamps by the Foreign Service was contained in Section 1196 of Title 22 of the U. S. Code. This law was repealed by Public Law 101, 84th Congress, approved June 28, 1953, and the use of Fee Stamps was hereby eliminated.

The Department's Foreign Service Circular #146 dated September 7, 1955 instructed the Foreign Service Posts to discontinue the use of Fee Stamps at the close of business September 30, 1955. This instruction also established a procedure for the audit of the Fee Stamp Account and the supply of Fee Stamps on hand that date and ARRANGED FOR THE DESTRUCTION OF THE BALANCE OF FEE STAMPS ON HAND.

Scott's United States Specialized Stamp Catalogue listed the forty major varieties of the Consular Service Stamps and the Foreign Service stamps under the Scott Catalogue designation RK1 through RK40.

These stamps were printed 100 (10 wide x 20 high) to a sheet, with two guide lines extending through the center of the sheet, one horizontal and one vertical, and the arrow is part of the guide lines.

The horizontal guide lines and the top, bottom and right margins were imperforate and only the margin outside the left vertical row of 20 stamps was perforated. As these stamps were delivered by the Bureau of Engraving & Printing in books of 500 stamps, 100 stamps to a sheet and were stapled on the left side, it was necessary to perforate the left margin so individual stamps could be removed without tearing the stamps.

Each Bureau sheet of 200 was cut on the horizontal imperforate guide line to form the booklet sheet of 100. Therefore, a booklet sheet was always composed of either the upper right and upper left pane or the lower right and lower left pane.

This accounts for the fact that all left margin imprints and plate numbers being perforated while all right margin markings are imperforated. (See figure 6.)

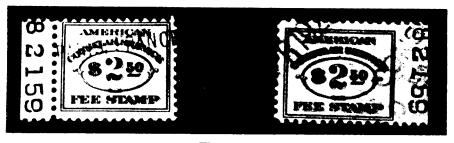

Figure 6

RK18, showing perforations at left, none on right. Stamps also show deformed plate numbers. Left: 8—bottom deformed; 2—color gap; lines from lower part of 8 to top of 2; 9—tail split. Right: 2—doubled; 1, 5 and 9—askew; 9—tail split.

The location of the plate numbers on each sheet of 200 stamps of American Consular Service Fees is as follows:

1-opposite 8th stamp down from upper left corner.

February 1969 Page - 27

1—opposite 3rd stamp up from lower left corner.

1-opposite 8th stamp down from upper right corner.

1-opposite 3rd stamp up from lower right corner.

The plate number is parallel with the vertical rows of stamps. The wording "Bureau of Printing and Engraving" appears twice in the left margin, centered parallel with the 5th and 6th stamp from the upper left and lower right corners of the first vertical row of stamps, and also twice in the right margin in the same location except for #71589 for the \$9.00 value.

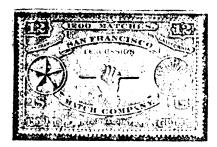

The location of the Plate Numbers on each sheet of 200 Foreign Service Fees is above the 5th stamp from the upper right hand corner in a parallel position with the first horizontal row of stamps on all plates except #163124 for the \$20.00 value. On plate #163124 the number is above the 3rd stamp from the upper right hand corner.

These stamps were printed by the intaglio process from flat engraved plates on flatbed printing presses.

The Foreign Service plates originated from a master die. The master die was produced by means of a geometric lathe and the lettering was engraved by Mr. Frank Lamasure. From this master die a master roll was taken up. This roll was used to make the individual dies for each denomination, after which the Bureau artists engraved the numerals, as well as the background.

(to be continued)

MATCH COMPANIES By Bruce Miller

Stamps identified by the initials "N. & C. / S. F." (RD140) were used by Newbauer & Company, owners of the Metropolitan Match Factory. This concern was established in 1866 by Herman W. Newbauer, a coal dealer. The 4c private die was not ordered until 1871, and the 2c First Issue Proprietary is to be found cancelled with "Newbauer & Co." and date, reading up. By 1875 Newbauer had abandoned the coal business and was devoting himself exclusively to the match factory. In 1887 the business was incorporated as the Metropolitan Match & Commercial Company, with Herman W. Newbauer as president and S.

Newbauer as secretary.

The SAN FRANCISCO PERCUSSION MATCH COMPANY was established in 1868 by J. F. Atwill and Charles K. Clark. Four years elapsed before a private die was ordered, ar impressive blue 12c value (RO105) The central motif is a clenched fist holding what is either a candle burning at both ends or two lighted sticks of dynamite end to end. Whether this rignified that the owners were real awingers, or just hoped to make a big bang in the match business, we can alas, never know.

The senior partner, Joseph Fairfield Atwill (1813-1893), was prominent in the early business life of San Francisco. A native of Boston, he arrived in California in October, 1849. His chief interest was Atwill & Company, a music-publishing firm, and doubtless the venture into the match business was strictly a sideline. By 1875 he was no longer associated with the company. Clark having become the sole proprietor. In 1876 the business was at a new location, under the ownership of Henry Watson, and soon thereafter it disappeared entirely. The stamps were evidently all used by Atwill and Clark, since none were issued after December, 1874.

Fiscal Stamps of Serbia

UNDER GERMAN OCCUPATION: 1941-1945

By William Ittel, ARA 519

Part IV

This is the fourth part of a multipart article cataloguing the national and provincial revenue stamps of Serbia under German occupation during World War II. For the stamps listed as "Definitive Issue" please refer to the illustration of that type which appeared in Part III. Collectors are reminded that much of the research on which this series is based was done by Dimitri Spajic of Belgrade.

B-BAG

(In this column we hope to present cogent comments from our readersfavorable or adverse. We make no promises to print all mail received, but signed letters which contain workable suggestions will be given the most favorable consideration. We reserve the right to edit letters because of space limitations. Names will be omitted from publication upon reauest.)

(We begin this month with a reply received to the questionnaire of last January. We think this is a "workable suggestion"—do you?)...

"As briefly as possible, I'd like to see the few mainstay members contribute \$5.00 each per year to buy (annually) a silver plated plate or platter as an award for the best Revenue exhibit in a show. And, that the award "travel" from one good regional show to another around the country.

"An example might be COMPEX here in Chicagoland one year, New York area the next, west coast the third, and so on.

"If we could raise, say, \$35.00 annually, a nice plate or platter could be purchased and (hopefully) the Exhibit Committee could arrange for the cost of the engraving for the winner.

"The objects of this proposal are: to attract attention to revenues at as many shows as possible; to offer a collector a cance to get a special award (many of us are mug-hunters, after all); to educate some of our fellow collectors to our pets and their delights; to promote the IDEA of Revenues (or all types) as a worthwhile collection.

"If the proposal is considered meritorious. I'd like to back the idea to the extent that the first invoice for \$5.00 be sent to me. I'll remit promptlv."

(We invite your thoughts on this, good readers-and on other revenue subjects also.)

FREE ILLINOIS STATE REVENUE CATALOG

Readers who are interested in unusual "Americana" items may obtain a free catalog of Illinois stamps by sending a stamped reply envelope to "El" Hubbard (ARA #1) 3739 Benton, Santa Clara, California 95051. This listing is from the authoritative 1960 U. S. State Revenue catalog by Mr. Hubbard.

The State Revenue Society is in the process of up-dating other sections of the looseleaf catalog and would appreciate any examples of reand current State Revenue stamps, or data on them. Especially sought is information on the State Document stamps that came into use when the Federal Government relinquished document to local governments on January 1, 1968.
