NEW YORK CHAPTER TO REPRESENT THE A. R. A. AT THE A. S. D. A. SHOW THIS YEAR

Through the diligent efforts of Brian Bleckwenn, the New York Chapter will be a full participant in the A. S. D. A. Show to be held at Madison Square Garden in New York City on November 16, 17, and 18. The A. R. A. is underwriting the cost of a lounge, and members are committing themselves to an exhibit of approximately twelve frames of fiscal material.

If you were planning to come to New York for the show, you now have an added incentive; and if you weren't making plans to come, we hope you'll start planning NOW.

At least one Chapter member will be manning the lounge at all times, and we expect that it will be a meeting place for all fiscalists, members and non-members alike. Of course we hope to sign up as many non-members as possible.

The New York bunch wants to meet all of you, so stop by the A. R. A. lounge, and bring your friends!

tion of his collections a very choice group of RN-Facs.

It was from Dr. Jordan's group that we learned that almost all of the printers who put up FAC bank checks issued samples of their work. Among the ones known previously (and illustrated in earlier Reports) are:

Gast-Alton Nat'l Bank-ILLINOIS

Gast-Planter's & Mechanics Bank-VIRGINIA

but the check itself was as shown in Fig. 5, Oct. '72 Revenuer.

Cornwell—"empire Tint" sample distinguished by a rectangular box at lower LEFT Center with the legend as follows: SPECIMEN (in an arc) from C. M. Cornwell (printed in reverse on a dark blue band) 247 Pearl St. N. Y. (in an arc matching the arc of Specimen above). Very attractive!

Also in the Jordan group are additional Johnson's-one of each type previously reported and illustrated and a Hanover Nat'l Bank, unused in all cases.

What is new (see illustration) is the FAC of William Mann, different from the known "Seilersville" FAC. This "BEEHIVE" design has these details:

LOUIE'S LAST LINES or THE TORCH IS PASSED

Beginning with next month's issue, yours truly will no longer be at the editor's desk. As much as I enjoyed my tenure as editor, I have found over the past several months that I have not been able to give our journal all of the time and attention it deserves.

The A.R.A. is indeed fortunate in having several members who are willing to pitch in and make this organization work. One of these members, DREW NICHOLSON, has volunteered to take over the blue pencil of editorship. All future articles, etc., should be sent to him at 18 Valley Drive, Pawling, New York 12564. Please give him all the cooperation you have given me, as it is no easy task to get this journal into your hands ten times a year.

My final words as chief honcho of the Revenuer must be words of thanks. Thanks to our printer, Miller Print Shop, who has had to put up with late copy on more than one occasion. Thanks to our writers, who have managed to fill this journal for us. And thanks to our officers, who have held our organization together for 26 years of growth.

BEER STAMP SURVEY PROGRESS REPORT

By Louis S. Alfano

A.R.A. members are a great bunch of people. My plea in the June issue of the Revenuer regarding U. S. Beer Stamps whose existence could not be confirmed by members of the New York Chapter met with a fine response. Since some of those reporting desired to remain anonymous, I'll simply say "Thank y'all" and let it go at that. Reports ranged from one or two items to several dozen, with little duplication, and included the discovery of five previously unlisted items.

Still Missing

The following 25 items still have not been reported, if you have any one of them, please let me know as soon as possible so that I can begin preparing a listing for consideration by Scott's in time for the 1975 edition of the Specialized Catalogue. The numbers, of course, are Vanderhoof's:

11a, 17A, 17B, 44A, 76D, 110, 112, 121A, 129A, 137D, 138B, 138Ca, 141A, 141½A, 141½aC, 147, 155A, 164A, 164B, 167B, 173C, 174A, 175D, 177A, and 181A.

Discoveries

These five items were previously unknown, but reported by our members: 38A, 42A, and 43A, all on experimental silk paper, and 54B and 161D.

Previous membership total __ 592 New members _____ 8 Current membership total __ 600

This month's membership total of

600 represents an all-time high, and reflects a rate of growth that has remained steady over the past several years. (E.g., total membership for October, 1972 was 550, for October, **1971 494, for October, 1970 455, etc.)** Much of the credit for this belongs to a handful of active and enthusiastic revenuers who have consistently and regularly sought out and proposed new members. However, thanks are also due to the postal administrations of the world (including our own redoubtable USPS), whose copious outpourings of gimmicky new issues have driven more and more thoughtful co!lectors out of the mainstream and into the back-of-the-book. We now have 3D stamps (from a nation whose total literate population could be fitted into the back seat of a Volkswagen), stamps that smell (not, fortunately, from predominantly agricultural countries), stamps that talk (what's "Hello, sucker," in Bhutan-ese?), stamps that self-destruct (as certain tagged issues are alleged to do), stamps that come in sections like jig-saw puzzles, stamps printed on both sides (double the money, double the fun), stamps that do just about everything except mate and reproduce within the album, or prepay postage on letters. Rowland Hill, you blew it!

We even have non-stamps and unstamps, so-called "philatelic souvenirs," eagerly traded at three-figure prices. These are presumably for stamp collectors who don't really like stamps at all.

On this philatelic funny farm, the ARA is an easis of sanity. Let's try for 700.

IIAU, AHU, UAH, —

It would seem worth recording the identity of the owner of a revenue cancel as pretty as the monogram cancel illustrating this short note, particularly when an identification can be made with little question of doubt. The monogram, 13x12 mm., looks sharp enough to be printed, though it appears in a somewhat canted position on the stamp, and thus it may be a handstamp. My copy in penetrating red-violet ink is on a very fine copy of RB18b. I had despaired of an identification—was it

HAU, AHU, UAH, AUH-, but along came Bill and Betty Walton's monograph 19th Century Medicine in Glass. 1971. There on page 93 was a photograph of what is described as a rare. pale aqua bitters bottle circa "1862 with a sticky pontil," monogramed HUA, the "initials of Hubert Underberg-Albrecht." According to the Wilsons, the bottle shown "contained a concentrate of Maag-Bitters (which) was distributed in a small way during the 1860's and 1870's-. In 1875 Hubert Underberg-Albrecht distribution of the Boonekampe of Maag-Bitters in a tonic form to many parts of the United States." As the bitters cost \$1.50 a bottle, this called for a six cent tax stamp accounting for the cancel on RB18. Since the firm was selling a concentrate of Maag-Bitters in the 1860's, a similar monogram may exist on first issue proprietaries.

New Varieties of 1915 Oleomargarine Taxpaids

By Carter Litchfield, ARA 880

Type I — Rouletted 3½

The 1915 series of taxpaids for uncolored oleomargarine is familiar to most taxpaid collectors. The stamps measure 104x70 mm, are rouletted 3½, and are engraved in black with a red control number. They were in use from 1915 to 1926, and 10, 20, 30, 40, and 60 lbs. denominations have been reported by collectors. While sorting through an accumulation of several hundred of these stamps, I recently came across two previously unreported varieties.

Type I — Rouletted 7

The first variety is a 30 lbs. stamp rouletted 7 instead of the usual 3½. It has a perforated January 4, 1922 cancellation. While obviously unusual, this different roulette is not altogether unexpected. Many taxpaids issued from the 1910-1935 era are known rouletted both 3½ and 7 when both sizes of rouletting were used simultaneously at the Bureau of Engraving and Printing. Although specifications for the 1915 uncolored oleo stamps must have called for the size 3½ roulette, at least one printing of the 30 lbs. value received an abnormal roulette 7 separation.

Page 126 October 1973

Type II — Rouletted 31/2

The second new variety is a different positioning of the serial number. While normal stamps have the red control number located below "Issue ____" (Type I), 10 and 30 lbs. stamps have been found with the control number printed considerably above "Issued_____" (Type II). Both stamps are rouletted 3½ and bear perforated cancellations for January 1918 from the first tax district of Illinois. Both upper and lower control number positions were used on the 1916 process butter taxpaids which have a similar size and design, but this is the first time that the upper position has been reported on the 1915 oleo series. The rarity of this new oleo variety would seem to indicate that it was a printer's error. Since the variation exists on more than one value, however, it is likely that a fair number of stamps must have been printed with the control number above "Issued____".

It is obviously possible that a 1915 uncolored oleo stamp rouletted 7 and with the red serial number above "Issued____" may turn up, but none have been seen so far. However, the four year difference in cancellation dates between the two new varieties described above makes this combination seem unlikely.

CHAPPELL REVISITED— THE OSGOOD CANCELLATIONS on

U. S. PROPRIETARY REVENUES

By Richard F. Riley

Some time ago in response to an enquiry regarding Osgood's cancels, Harold Field loaned me some correspondence on the subject that he had with C. H. Chappell. Chappell (ARA 33, HLM 4) of course is the philatelist to whom we are indebted for the chronicle of the precancelled varieties of the proprietary revenues of 1898 which ran serially in Weekly Philatelic Gossip some years ago.

The relevant part of Chappell's letter to Field, dated June 19, 1957, follows:

"Enclosed a list of all Osgoods I know of. Won't attempt to type up my finished check list of these until I have seen the 6c first issue and properly written up the oval type description. It will be "YPE 1 in my list of earlies, which have now gone into two completed typewritten volumes.

"My ticker started acting up on me and at the suggestion of my doctor I retired the first of the year— I would have been automatically out July 1st, at the age of seventy (June 27, 1957). So left six months ahead of time."

Chappell died eight months later on February 6, 1958, probably not having come by a copy of the 6c first issued with an oval Osgood cancel.

The enclosed list of "all Osgoods I know of" to which he referred was on a separate page in Chappell's handwriting and it listed 21 varieties. As a memorial to Chappell and as an epilogue to Bert Kiener's story on the Osgoods of Norwich, Conn., in The American Philatelist, 87, 597-8 658 (1973), it seems appropriate to place on record a description of Chappell's Type 1 and to insert known varieties into Chappell's list of the Osgood cancels.

TYPE 1. Blue handstamped double oval cancel. The outer oval measures 2.2x2.8 cm. and the inner oval 1.3x1.9 cm. Charles Osgood is printed in

plain capital letters at the top and New York at the bottom between the ovals. Month, day and year are printed in 3 lines in the center, without punctuation.

R31c MAY 18 1871 JUL 6 1871

TYPE 2. Black single line circular cancel. The circle measures 2.1 cm. in diameter. Charles Osgood is printed inside around the circle at top and the year at the bottom. The month and day is printed in two lines in the center, without punctuation.

Varieties in the original Chappell list.

In general the cancels are reasonably well "socked on the nose," although probably printed by hand. Chappell noted that several in his list had somewhat canted strikes, a distinction which has been omitted from the list above.

I have been aided and abetted not only by Harold Field and Bert Kiener in this compilation, but also by Abe Hochman and Frank Newton, Jr. We are indebted to Frank Newton for the photo of the scarce R31 with Osgood cancel. From the ease with which Field, Hochman, Kiener, Newton and I added new dates to Chappell's list, we can be certain a large number of still unlisted dates exist.

CIRCUIT NOTES

The column this month is intentionally brief, as elsewhere appears auction 8. Peruse carefully, study the rules, and bid early.

One comment before closing . . . Queries have been received as to why the ARA auctions are not set up in format similar to that used by the commercial auction houses; i.e., listing US material first in catalog sequence, and then the foreign alphabetically and in some sort of catalog order. The answer is simple: The lots are listed as received.

Were we to try it the other way, since material arrives in mid-auction, for the next one, and continues to arrive up to and including the deadline date for mailing the listing, to attempt to list 500-1000 lots at the last minute in orderly manner would be impossible, and the press deadline would never be met. Further, the auction houses (for the most part), carry a trained staff of several people to make these lists, and it is much easier for them to carry out the arduous task, months in advance of the appearance of the sale, and very well coordinated. The ARA staff for the auctions numbers 1, and in that effort we do the best we can. Questions?

Luck with your bids.

Auction #8

- Only A.R.A. members in good standing are eligible to participate in the Auction.
- 2. All lots are sold to the highest bidder at a slight advance over the second highest bid in accordance with the following tabulation: to \$2 by 10c, to \$5 by 25c, to \$10 by 50c, to \$20 by 75c, to \$50 by \$1, over \$50 by \$2. Bids in pennies or nickels are automatically reduced to the nearest level. The right is reserved to withdraw any lot prior to the sale, or to group two or more lots. If only one bid is received for any lot, the bid shall be reduced to the SB, MB, or CV where applicable. If the bid is less than the SB or CV, or for an OPEN lot, the bid shall stand without reduction, except where rule 6 is invoked for bid rejection.
- 3. Bids may be submitted on any paper and in any format, but should list Lot No. and bidder's maximum bid. (Winning bids will be adjusted as applicable per Rule No. 2.)
- 4. Mailing charges are payable by the purchaser, the minimum charge being 50c, higher sums will be charged only if actual charges are higher. Insurance, certification, or registration extra at bidder's expense; if desired, advise with bid. The A.R.A. assumes no responsibility for any parcels lost in the mails for lack of use of the above methods of mailing.
- 5. Invoice will be sent in advance to successful bidders, and lots forwarded upon receipt of full payment. Mail all bids and payments to the Sales Manager in Claremont, California, making all checks payable to the American Revenue Association (except Postal Money Orders, which should be made out to the Sales Manager by name in order to facilitate cashing).
- 6. Title shall remain with the A.R.A. Sales Department, acting on behalf of owners, until payment is received. The Sales Manager shall regulate the bidding, and reserves the right to refuse any bid believed by him not to be in good faith, or to act on behalf of the seller.
- 7. In case of tie bids, earliest postmark will be considered the winner.
- 8. Care has been taken to describe lots correctly. If, after the lots are delivered, the winning bidder for a lot shall prove that it has been wrongfully described, or damaged and not so noted, the bidder shall be at liberty to reject the lot within ten days of receipt, after agreement has been made with the Sales Manager. This Rule does not apply to lots marked "AS IS" for which see Rule No. 12.
- 9. No charge is made for executing bids, and the Sales Manager will act in the best interests of the bidder. However, he cannot accept responsibility for errors, omissions, or differences in judgment. Unlimited "buy" bids are not accepted. Bids with a plus sign (+) will be executed at one advance over a tie bid; while bids with two plus signs (++) will signify willingness to go somewhat higher.
- 10. Suggested Bid (SB) is owner's estimated value. Bid on these lots as you wish; same applies to "Open" and "CV." Minimum bid (MB) is owner's minimum acceptable bid, and no bids below the minimum will be entered for such lots.
- 11. SE means straight-edge, CV means catalog value (Scott Catalog numbers and values used unless otherwise specified). A hyphen between two numbers (viz. #R45-55) indicates that all of the stamps between the given numbers are included: diagonal bars (viz. #R45//55), indicate that all of the intermediate stamps are not necessarily present, and that no more than the number of stamps expressly stated should be expected. Where catalog numbers are given for State Revenues, the Hubbard-S.R.S. catalog is used.
- 12. Lots marked "AS IS" have not been counted, sorted, or appraised by the Sales Manager, and are not returnable in whole or part for any reason. The descriptions and estimated values of such lots are the owner's. "AS Page 130

- IS" lots may include quantities of cheaper stamps, extensive duplication, and/or stamps in less than fine condition. Bid accordingly.
- 13. Stamps described as having defects may not be returned because of defects; original gum (OG) is not to be expected unless specifically mentioned.
- 14. For duplicated lots, bid "either-or."
- 15. The placing of a bid constitutes full acceptance of the foregoing Rules.
