

UNITED STATES NARCOTIC ORDER FORMS

By William A. Smiley, ARA

At one time in American history, the United States Supreme Court prohibited the Congress from directly regulating many areas of life that a more liberal reading of the Constitution now permits. In order to get around this roadblock to direct regulation, the Congress used its broad powers to levy taxes, and imposed regulations to enforce these taxes.

One of the best known of these regulatory taxes was that imposed by the Harrison Narcotic Act, which was approved on December 17, 1914, and which took effect on March 1, 1915.

As originally enacted, the Harrison Act required the registration of all manufacturers, distributors, retail dealers and dispensers of opium, coca leaves, and manufactures thereof. In addition, to pass muster with the Court, Congress imposed a \$1 per year occupational (special) tax on entities engaged in these occupations. The receipt for this tax was a stamp, which also served the function of assigning the taxed entity's Internal Revenue registration number.

As of February 25, 1919, the Harrison Act was amended to impose a further tax of 1c per ounce on most substances containing narcotics. The amended act also differentiated special taxpayers into five (later six) classes, and imposed taxes ranging from \$3 to \$24 per year. Certain of these special taxes were later reduced.

The heart of the regulatory scheme was the requirement that virtually all transfers of narcotic substances be made only pursuant to written order forms. These forms were printed by the Bureau of Engraving and Printing (at least until 1958, and perhaps later) and were sold by the Internal Revenue Service for 1c each. The forms could only be sold to, used by, and filled by persons who had paid their special taxes for that year.

At first these forms were issued in pairs, with each form of the pair having the same serial number. One form was designated as the original and was transmitted to the entity filling the order.

The second form of the pair was designated as the duplicate and was retained by the person placing the order. Both parties to each transaction had to retain their respective forms for a period of not less than two years.

Beginning in 1948, the forms were issued in three parts. The triplicate copies were transmitted by the person placing the order along with the original to the entity filling the order. This entity would then transmit the triplicates to the local office of the old Bureau of Narcotics at the end of each month.

THE EDITOR NOTES ...

...that due to the press of personnel business (re-modeling 42,300 sq ft of poultry buildings to swine confinement for a 640 sow herd) I have gotten behind my announced schedule for publishing TAR. I intend to follow at about 30 day intervals so that I will get back on schedule during the summer when we do not publish a July and August TAR. ...that word has been received from member Steve Rorer that in mid-April he will be publishing a book entitled the "Replating of the 50¢ Conveyance Civil War Stamp." It is unknown who ever orignally replated these stamps but Steve notes that the results of this work were never previously published. He purchased the material through an ARA auction. I have seen a Zerox copy of the draft and samples of the illustrations. Copies will be available rect from Steve (1150 Shakespeare, Beaumont TX 77706) for \$12. A full review of the book will appear when the finished work is seen by your Copies will be available dieditor. ... that the ARA regional meeting at FRESPEX is now over. It was judged to be very successful by those attending and participating. A full report will appear in a future issue. But, I pass this on as a word of advise. Letters to the Editor

The Editor, TAR:

I have been enjoying The Raclette columns of M. N. Thaler which I find to be interesting albeit not totally complete. I guess the space is limited. I had some impact lessened of an article I am preparing on the Neuchatel Import stamps Mr. Thaler mentioned in his Column No. 8. I have been researching these stamps and didn't know anyone had any. Would like to borrow them for an examination. I have some also. He is in error on his dates. The program was not stopped in 1975 but in 1976, and there were two printings in 1975 with the overprints in different colors. The 1976 stamps had a completely different color scheme.

Irv Silverman

The editor, TAR:

In answer to Mr. Abrams' QUERY on page 199 of November TAR: I feel strongly that it is perfectly proper to list "punch canceled - F-VF", if the particular mutilating cancellation is a legit cancelling method. "Punch canceled - Superb" would also be A-OK. This thought would also cover cut cancels.

The important point is that for such revenue issues, the method of cancellation was standard procedure in the use of the stamp. If such is not a reasonable conclusion, why would not pen cancelled copies also be judged faulty and only handstamped specimens be accepted as the standard.

As long as the method of cancellation is noted in a description, let the bidder judge by his own interests his acceptance/rejection of the cancel.

Literature in Review

Publishers, authors or distributors of books, catalogs, periodicals or other publications about revenues or cinderellas who wish their works reviewed should forward a copy to the Editor, Box 573, Rockford, IA 50468. Nothing can be reviewed without a copy to review. A second copy for the ARA library would be appreciated.

Liberia Revenue Stamps by Philip Cockrill, published by the author, 5% x 8% inches, 20 pp., card cover, offset, typewriter set, available from Philip Cockrill, Hampstead Norreys, Newbury, Berkshire RG16 OTT, England, £2.00 (\$4.00) + postage.

This booklet is No. 5 in a series of specialized Liberian philatelic subjects. Several others pertaining to postal subjects have already been produced or are scheduled for publication. Philip Cockrill is one of England's better known stamp dealers.

This specialized listing draws upon both previous works mostly in the field of postal philately, and upon the author's personal knowledge. The listing is priced in Sterling with the prices presumably based upon Mr. Cockrill's experiences as a dealer. Prices are given for mint, fiscally used and postally used copies.

Plate proofs in both trial colors and issued colors are listed, and unfortunately they are numbered into the same system of numbering as the rest of the stamps. There are few illustrations, but there all that are needed. Like many other revenue stamps, the designs of Liberia's revenues were not changed often with the first design being used for 22 years.

Also included in the booklet are postage stamps overprinted for fiscal use, private fiscal usage of postage stamps and revenue forerunners.

This booklet adds to our overall body of fiscall literature, fractured though it may be. Oh, if only the Forbin had been kept up to date all these years!

The 1898 Provisional Tax Labels

Used by John T. Milliken and Company of St. Louis, Mo.

Norman Rushefsky, ARA

Figure 1

John T. Milliken founded the company bearing his name in 1894 for the manufacture of pharmaceuticals. (1) At that time another St. Louis Company, Lambert Pharmacal Company, was successfully marketing an antiseptic called Listerine. Milliken reportedly held some antipathy toward some officers of Lambert and no doubt wished to cash in on the growing popularity of antiseptics. To these ends he hired chemists and production men at the facility located at 204 North Second St. to make an antiseptic called Pasteurine.

Pasteurine contained oils of cinnamon, eucalyptus, lemon and wintergreen dissolved in alcohol. (2) As a rival to Listerine the product fell far short of expectations and vanished. In time the company developed other products such as Amenotone, a "glandular preparation for female diseases"; Formotropin for urinary tract infections; Pava-Pepsin for indigestion; and an assortment of other fluid extracts. Annual revenues for the firm often ran as high as \$700,000.

On July 1, 1898 the Spanish-American War tax act came into effect and revived most of the excise levies imposed during the Civil War. Because of the short time period between passage and enactment of the act appropriate revenue stamps for use on proprietary medicines ("Battleship proprietaries") were not available in some parts of the country. In St. Louis and in Macon, Georgia medicine firms were permitted to apply to their preparations, in lieu of tax stamps, a label indicating that a denominated tax would be paid. (3) This permission apparently was provided until such time as an adequate supply of tax stamps was made available to the firms.

Heretofore in the philatelic literature, (4) it has been reported that the Milliken Company was known to have used a label that was denominated 5/8c (Figure 1). This would be the tax for articles retailing at 25c. The 5/8c label is printed in black on white paper 40 x 17 mm and is imperforate. In Figure 1 it may be noted that the label includes a handstamp in violet ink "J.T.M. & CO./JUL 16, 1898". Other reported handstamp dates are July 12, 18 and 19.

In TAR of May, 1956, which provides a cataloging of these labels, a 1/8c denominated label of this firm is also noted but details regarding color of ink, paper and size are omitted. A handstamp date of July 16, 1898, is reported for this label. Perhaps due to the lack of details regarding the 1/8c label its existence was in doubt and later listings of these provisional labels have not made mention of it.

Figure 2

It can now be reported that the 1/8c label exists and its discovery credited to Bert Kiener. In Figure 2 it may be noted that the label is identical to that of the 5/8c label but for the difference in denomination. The violet handstamp is also dated "JULY 16 1898" as noted in the above TAR listing. Although lightning is not supposed to strike twice, amazingly a second copy of this 1/8c label with similar handstamp date has crossed Bert's path. The 1/8c denomination was to be used for articles retailing at 5c.

After Milliken's death in 1919 management of the firm was assumed by three disinterested trustees and the business

Japanese Revenues for the Occupation of Kedah

The following article on the revenues of the Japanese occupation Kedah is a very sketchy article indeed, but it is all I have been able to learn in 33 years of collecting. Perhaps some readers can contribute corrections which will form the basis of a more definitive study. The problem is that the stamps are all very rare. I know of no more than a handful of copies of each one. At least I have all the colors right, which previous writers have sometimes not, and have not listed any stamps that are impossible in the sense of being overprints on basic stamps that never existed.

During the Japanese occupation of Kedah (one of the Malay States), a series of overprinted stamps were used for documentary revenues. The stamps were prepared by overprinting the 1921 and 1937 issues of Kedah postage stamps with a handstamp illustrated in the figure. The handstamp is in black, usually very faintly struck. I have been unable to prepare a figure that brings out the handstamp legibly against the somewhat crowded designs of the stamps, but the stamps are well described and illustrated in Scott and other standard catalogues and these can be referred to.

This paper attempts to list what stamps are known to exist and to guess at present market values. Since so few of these appear on the market there is a considerable element of doubt in setting such values, but these values are probably fair estimates based on a few sales and some educated extrapolation. All prices are for unused only, as used stamps seem to be extremely rare. All the stamps are quite scarce, and there may well be unlisted values and varieties. I urge any readers having an unlisted item to advise me; likewise any reader who seriously disagrees with my pricing is urged to write.

This list uses catalogue numbers from Furuya's 1964 "Standard Catalogue of Japanese Revenue Stamps", but omits one stamp which I am convinced does not exist and in-

The stamps where prices are listed as question marks are stamps that neither I nor any other collector I know has copies of, and whose existence must be regarded as questionable. MONACO: ESSAYS OF UNISSUED DIMENSIONSTAMPS

by Gen. M.H. Fradois, ARA (translated from the French by H. Janton)

In his last catalog of the revenues of France (1937), Mr. Forbin mentioned, under Monaco, without illustration, an essay of a "dimension" stamp: "1888 Coat of Arms (no denomination) brown red." It is obvious that with such tenuous data, little could be learned of this stamp.

Recently, I was informed by the active and kind curator of the Prince's (Rainier) collections, Mr. Chiavassa, of the discovery in the Princedom of essays that bring this issue to light.

Pair of the unissued essay with sheet margin on right.

The stamps (see Figure 1) differ in size (25x35 mm.) from the well known contemporary issues for bills of exchange (25x50 mm.). They bear the coat of arms of Monaco in a central medallion, while at the bottom corners the denomination is inscribed in a frame, and the words TIMBRE DE/DIMENSION appear between in block letters.

Figure 3 Essays of Bill of Exchange and Dimension on same piece.

Like the

bill of exchange stamps, they bear the names of E. MOUCHON at right and A. DESAIDE at left as imprints. These stamps were printed in sheets composed of two tete-beche panes of 25 stamps each. Sometimes in the bottom margin of the sheet a watermark VIDALLON—LES—ANNONAY is legible. Either the sheets remained fully imperforate, or they showed near the edges one or two vertical or horizontal lines of perforations (10½); such perforations did not affect the margins of the sheets, so that the marginal stamps are perforated on one side only, on the inner edge.

The following denominations have been unearthed:

35c gray green

50c bistre

50c green

70c purple

1F orange 1F brown

1F50 violet 2F50 violet

Raclette No. 10 The Gray Leagues

by M.N. Thaler

I met a man from Graubunden (Grigione, Grisons) and I was so anxious to learn whether he spoke Romansch (it turned out that he understood a bit) that I forgot to ask him what kind of cheese they make in that canton. I'm afraid that I'll have to give you that little item of information some other time. Other facts about this unusual corner of Switzerland came from Dr. Felix Ganz who has been the Editor-pro-tem of TELL, the official organ of the American Helvetia Philatelic Society.

The word "graubunden" in German means "gray leagues" but the French word "grisons" means "the graybeards" or "old fellows". There aren't too many revenue stamps from Graubunden and less municipals. The only cantonal stamps that carry the name are those of the so-called PASSMARKEN variety from about the mid-thirties. All of the others except one type which I'm going to describe are identified by a coat of arms that is dominated by a prancing animal with enormous horns. This beast is the fierce steinbock or mountain goat of the region that is considered dangerous by hunters, according to Dr. Ganz.

The word "grison" has a second meaning in French, and that is "donkey". I almost made the mistake of thinking that perhaps those were ears and not horns because the legs and feet of the animal as depicted on the stamps seemed so heavy, but Dr. Ganz assured me that suggesting to the Graubunders that their official mascot was a donkey might make things dangerous for me. The legs and feet of the steinbock, I am given to understand, are in fact quite robust.

The Graubunden coat of arms has three sections which represent the three old political entities that combined in about 1803 to form the united canton. One was the Gray League; the second was the Ten Villages League; the third was the God's House League. They apparently agreed to use the name of the Gray League.

I don't know which one or how many of the triumvirate used Romansch as a language and I learned from Dr. Ganz that it was not until about the time of World War II that Romansch became the fourth official language of Switzerland.

My principal illustration with this column is page 7 of a local passport which apparently had 16 pages, dated 1st March, 1928. Looking carefully you can find three languages on this document: French, German and Italian. The passport page was a license to enable its holder to travel to all of the countries of Europe for a period of two years commencing March 1, 1928.

But—look at the revenue stamp. It's completely blank but for the words "Taxe Fr. 4.-" Coming upon that stamp in a lot how would you know it was a Graubunden cantonal revenue stamp? Unless you had others identical to it that you had already identified, you would be lost without outside help. This one is printed on butterscotch color paper and is perf. 11 1/2. I would not be able to identify it either if it weren't tied to this document. It is not listed by Schufelberger; I have never seen another; and as a matter of interest, there is no 4 franc stamp among those which are listed.

The 12 franc No. 3 of the early Grauburiden stamps which I am illustrating is from a passport that issued ten years later, and as you will see from the piece (if it reproduces well) the passport itself is now 32 pages big according to the legend.

I have still a third piece from a passport page of the 32 page variety in which the fee is 6 francs but it was represented by a rubber stamped imprint and I have not illustrated it.

As for the Graubunden stamp with no identification other than its value, Dr. Ganz told me that there were probably several different other Swiss mountain animals and a hunter

or two illustrated along with the steinbock, but the steinbock was so fierce that he drove everyone off the stamp and was still chasing them when the stamp was issued; hence he missed being on the stamp himself. As for the reason that the tax rate remained on the stamp, it was so high that the steinbock coudn't reach it.

GREAT BRITAIN: TEA CLEARING HOUSE STAMPS

Chris Tennant, ARA

© 1979 Cinderella Stamp Club

(Ed. note: This paper is reprinted with permission from the January, 1979, edition of the Cinderella Philatelist. We welcome further data on the overprinted stamps...or, indeed, further data of any type...)

The Tea Clearing House was established in London during the 1890s, although stamps did not appear until 1924, when the stamp scheme was inaugurated.

The idea of the scheme was to provide brokers and dealers with a means of pre-payment for the small services rendered by tea warehouse keepers. These services would have included the providing of samples of tea and the labelling and addressing of tea chests.

Stamps were purchased from the Clearing House in various denominations for affixing to the order forms which were to be sent to the warehouses. Each month, the warehouses would submit the stamped forms to the Clearing House for reimbursement and, after checking the stamp values against the claims, payment was made and the stamps cancelled and returned to the warehouses.

The advantages of the scheme were many, the warehouses avoided the need to raise invoices, and the brokers and dealers were saved the trouble of checking the invoices and drawing cheques, etc.

To quote from a letter by Mr. J. Warmer:

"The scheme continued to operate until 1970 although, as charges increased and mechanical accounting extended, the use of stamps had declined considerably; in 1931-32 660,000 were issued but by 1968-69 this had fallen to 44,000. Moreover, the cost of printing stamps had risen considerably and the introduction of decimalisation would have involved considerable additional expense in having new plates made. It was therefore decided to discontinue the scheme in December 1970".

Regarding the stamps, official sources state that they were originally issued in denominations of ½d. to 1s. 0d. with subsequent additions of 2s, 6d. and 5s 0d. Some time later the range values was stated to be 1d. to 5s. 0d.

They were printed in unwatermarked sheets of 48 by Howard Jones Roberts & Leete Ltd., London S.E.1. Originally stamps were perf. 11, but later were issued perf. 10, perf. $11\frac{1}{2}$ or rouletted 7.

On later issues there is a faint background (all-over) design underneath the printed stamp, consisting of the words "Tea Clearing House" within a pattern of swastikas.

With at least three different colours of the 7d. value, anything is possible, but a probably listing follows (with the range of shades known to me):

4d. violet to purple
2d. grey to slate blue
1d. carmine to rose
1½d. violet to purple
2d. dark blue (shades)
3d. emerald to sage green

31/4d. bistre (shades)

4d. violet to purple

6d. orange to vermilion

7d. sage green (shades)

7d. bistre (shades)

7d. orange to vermilion

9d. black

1s. 0d. yellow (shades)

1s. 2d. red-brown (shades)

1s. 6d. (definitely exists but colour not known)

2s. 0d. turquoise

2s. 6d chocolate

5s. 0d. (definitely exists but colour not known).

Remainder stocks were destroyed by the Clearing House in 1970 under instructions from their auditors, and the printers are unable to remember anything specific about the stamps.

The most unusual cancellation is an oval rubber handstamp which reads "Tea Clearing House, 15, Philpot Lane, E.C.3" with "cancelled" and the date in the centre.

No satisfactory explanation has been found for the triangular and rhomboid overprints found on these stamps. The Clearing House suggests that they were cancellations, but this seems unlikely.

Other mysteries remain. There are many stamps with 1923 cancellations which apparently pre-date the introduction of the scheme, and it seems odd that almost all of the Tea stamps on the Cinderella market are cancelled during the 1920s. Acknowledgment

My thanks to Mr. J. Warmer A.C.I.S., Secretary of the Tea Clearing House, for his valued help in compiling this information.

ARA Ed note: There is another type of overprint known, which consists of a Zorro-type zigzag (and backward) slash similar to a Z. Purpose unknown, as with the others. This overprint is illustrated below. Anyone who can supply the data necessary to define/explain these overprints is welcome to write to your TAR Editor.

AUCTION RULES (Revised March 1976)

- 1. Only ARA members in good standing are eligible to participate in the auction.
- 2. The Auction Manager reserves the right to reject any bids which in his judgement are unrealistic.
- 3. All lots sold to the highest bidder at a slight advance over the next highest bid as follows: to \$3 no reduction; to \$10 by 50c; to \$25 by \$1; to \$50 by \$2; to \$75 by \$3; to 100 by \$4; over \$100 by \$5. Lots may be grouped upon award if bidding warrants.
- 4. If only one bid is received for any lot, the bid shall be reduced to the SB, MB, Est, or CV if higher, or will stand without reduction if lower. For an OPEN lot, the bid will stand without reduction unless rejected under rule No. 2), but may be reduced at the Auction Manager's discretion.
- 5. Buy Bids, or bids under \$1.00 will not be accepted. Merely submit your maximum bid.
- 6. Bids must be submitted on the bid sheet enclosed, or a reproduction thereof. If additional space is required, use the same size paper and leave space for the adjusted award price. Bids received after the bid closing date, will not be entered.
- 7. In case of tie bids, the earliest postmark will be considered the winner.
- 8. In the descriptions, a hyphen between two numbers (viz. R214-222) indicates that all numbers be-

tween and including the listed numbers are present; the use of two bars (viz. R214 222) that not all are present.

9. Lots marked AS IS have not been counted, sorted, or appraised by the Auction Manager, and are not returnable. Bid accordingly.

 Lots described as being damaged or having faults may not be returned because of faults or defects.

11. Where duplicate lots are listed, bid "Either Or". When two or more identical lots are offered by the same owner, all lots will be awarded at the same price, equal to the 2nd, 3rd, etc. highest price as the case may be (or at the MB).

12. Invoice will be sent to each winning bidder, and lots will be forwarded upon receipt of full payment. All bids, correspondence, and payments shall be forwarded to the Auction Manager at the address shown. Payments are due within 10 days of receipt of notice of award, except under mitigating circumstances.

13. Postage, Handling, and Insurance will be billed to buyer by flat charge: 50c under \$20; \$1.00 over \$20; at cost if over 1 lb. and for registered or foreign mailing. All lots will be covered by ARA, Commercial, or P.O. Insurance.

14. Make all checks and money orders payable to the American Revenue Assn.

15. If, after the lots are delivered, the winning bidder shall prove to the Auction Manager that the lot has been mis-described, or not as

listed, or damaged and not so stat. VF...Very Fine ed, the lot is returnable within 10 F..Fine days for refund. VG...Very Good

The placing of any bid constitutes acceptance of the foregoing rules. Realized prices will be published as soon after the sale as possible.

### Order Forms — Continued from front page

By 1970 Congress felt that it was no longer necessary to continue the facade of a tax in order to regulate narcotics. As a result, the Harrison Narcotic Act was replaced by the Comprehensive Drug Abuse Prevention and Control Act, which went into effect on May 1, 1971. This act repealed the taxes on narcotics, and transferred the responsibility of control of narcotics to the newly-formed Bureau of Narcotics and Dangerous Drugs (BNDD).

Although stamps were no longer used, the following listing also includes order forms issued by the BNDD in 1971. Information about order forms issued by its successor agency, the Drug Enforcement Agency (DEA), would be appreciated.

# U.S. CUSTOMS PASSENGERS' BAGGAGE STAMPS

By Louis S. Alfano

Copyright© Louis S. Alfano 1980

In the study of United States philately, there are many areas wherein questions remain unanswered. Even the most ambitious of students are often discouraged by the difficulty encountered in obtaining what appears to be the simplest of information, and when, after much diligent search, "authoritative" information is obtained, it often fails to conform to the known facts.

Recent attempts to obtain a clear picture of the history and status of the Customs Baggage Inspection Stamps are typical of the above-described situation, so this paper cannot be regarded as definitive, but as an attempt to put the information thus far obtained before those who are interested.

#### The Stamps

(A listing of these stamps appears elsewhere in this issue...ed.)

#### **Official Sources**

The first official mention of Baggage Stamps found to date is Treasury Decision #47523, dated February 14, 1935, which amended the Customs Regulations so as to require the use of the stamps. 2 The amendment reads:

"Upon completion of the examination of baggage and payment of the duties and taxes, if any, a passengers' baggage stamp, upon which shall be legibly written or stamped on the lines provided for that purpose the name or number of the inspector and the date, shall be attached to each piece of baggage in accordance with the instructions on the inside of the cover of the booklet, "Passengers' Baggage Stamps" (customs Form 6065). Each baggage stamp shall be canceled by stamping thereon with the use of black ink a smudge or other defacement at the time the baggage leaves the customs inclosure."

A clarification of this regulation appears in Treasury Decision #47639 of April 17, 1935, wherein it is stated that this procedure applies to baggage of passengers of vessels only. 3 The instructions contained on the inside cover of the Type 4A booklet require use at airports as well as at piers, so these items must have been so used at least from February of 1953. By June of that year, use of Baggage Stamps was made optional.

Step-by-step instructions outlining the procedure to be followed in the use of Baggage Stamps are contained in Section 6.10(e) of the Baggage Manual used at the Port of New York 5, reproduced below:

"Baggage Stamps -- (1) Upon completion of the examination of a passenger's baggage and upon payment of any duty and/or tax found due, inspectors shall affix a baggage stamp ("label") to each individual piece of released baggage in order to permit its passage through the customs barrier. No package shall be stamped for release until such duty or tax has been collected and all other customs formalities complied with. The booklets "Passengers' Baggage Stamps," customs Forms 6065, are issued to inspectors by staff officers prior to the actual commencement of a baggage operation. Each booklet originally contains 100 stamps imprinted with serial numbers and identifying letters; the complete series of numbers contained in the booklet is also shown on the outside front cover, as "072001Y to 072100Y". Books partially used are re-issued in the same manner as new books.

"(2) It is the responsibility of the deputy collector in charge of a baggage operation to designate a particular staff officer to be responsible for the custody of the stamp books, including their transportation from the Baggage

Figure 1. Booklet cover for type 10 Baggage Stamps.

Section headquarters to the pier, the issuance of such books to inspectors and their return, and the final return of the books to the Baggage Section. The designated staff officer shall personally issue the stamp books to the inspectors and shall require their signatures therefor on New York customs Form 1254, "List of Inspectors Receiving Stamps for Baggage Inspection". Care must be taken that sufficient stamps are issued to individual inspectors to preclude, so far as possible, any requests for additional stamps during the course of the baggage job. After the inspectors have been initially supplied with stamps, the valise containing the remaining books shall be locked and, where there is more than one class of passengers, shall be delivered by the staff officer into the custody of an inspector assigned to duty at the tourist desk. The staff officer responsible for the books shall then assume his regular duties in the immediate area so that he may conveniently issue additional stamp books when requested by inspectors, requiring signatures for the same. Upon completion of the baggage job, all partially used stamp books and empty covers shall be returned to the responsible staff officer, who shall check off such books on NYCF 1254, against the name of the inspector to whom issued, as a prerequisite to the inspector's being signed off by the deputy collector. Where an inspector is signed off prior to the completion of a baggage job, he shall surrender the stamp book(s) in his possesion to the deputy collector who signs him off, which officer shall check off such books or covers against Form 1254 before releasing the inspector. Under no circumstances shall an inspector casually deposit his books or covers at a staff desk; they must in all cases be surrendered to the proper staff officer or deputy collector. It is incumbent on all deputy collectors of the Baggage Section to enforce these

instructions and to institute periodic spot-checks by staff officers to insure compliance by inspectional personnel.

"(3) When an examining inspector secures his allotment of stamps he shall receipt therefor on NYCF 1254 and shall immediately check the number of stamps received against the figure shown in the "In Book" column on the form. If the number of stamps in the book is in agreement with Form 1254, the inspector shall then proceed to fill in the required date on the inside front cover of the booklet as follows:

Date	Vessel	First Number	Last Number	Total Pieces	Inspector
3-15-60 3-17-60	America Queen Mary	072001 075 093	074 092	74 18	#1943 #2109

In the column headed "Inspector," inspectors shall inscribe only their badge numbers; the practise of affixing signatures or initials is impracticable as illegibility in this respect creates confusion and delay where a rapid check must be made to ascertain which inspector used a particular book at any given time. The columns headed "Last Number" and "Total Pieces," and the final figure in the column headed "First Number," are to be filled in at the completion of the baggage operation, or whenever the last stamp in a booklet has been used. All empty stamp book covers and partially used books shall be retained by the inspector to whom assigned until he is finally signed off, at which time he shall again carefully examine the contents of the books before surrendering them to the responsible staff officer or deputy collector. Under no circumstances shall an inspector leave the premises with a stamp book in his possession.

"(4) Provision is made in the superscription of the baggage declaration...for passengers to declare the "Total pieces of baggage (trunks, suitcases, hand baggage, bales, boxes, bundles, etc.)" accompanying them. Examining inspectors must account for each piece of baggage so declared. Where packages are found in excess of the number declared, inspectors shall endorse the pertinent declaration "...pieces additional examined and passed" (or, in the case of a "spot-check" examination, "...pieces additional"), over their initials. If fewer pieces of baggage are found than were declared, inspectors shall query

passengers as to the reason for the discrepancy and shall make their endorsements accordingly, as "...pieces not found: passenger states.....", initialed as above.

"(5) Inspectors are cautioned to render an accurate account of the actual stamps used, in the space provided therefor at the bottom of the reverse side of the declaration. The quantity of stamp numbers reported in connection with a particular declaration must correspond exactly with the figure shown for the number of pieces of baggage examined. For example, where 7 pieces of baggage are cleared in connection with an individual declaration, 7 stamp numbers must necessarily be shown, as "No. Pcs. Baggage Examined 7; Stamp Numbers #072075/81". It is of the utmost importance that the total quantity of stamps used, including their serial numbers, be correctly endorsed on baggage declarations. Negligence in this matter might conceivably redound to the detriment of the inspectors by directing suspicion where no actual instance of malfeasance exists.

"(6) Each baggage stamp must be dated and inscribed with the inspector's initials and badge number before being affixed to a piece of baggage. In order to facilitate the work of enforcement officers in canceling the stamps at the barrier, and to prevent their being illegally removed and transferred to baggage which has not been cleared, or

(continued on next page)

accidentally torn off by contact with other baggage when assembled on a truck for removal from the baggage enclosure, all stamps must be affixed to the ends of packages and not to the tops or sides, nor to detachable tags or cards. Staff officers will furnish lists of the stamp numbers being used on a particular job, including their color, to the enforcement officers concerned."

Figure 3. Pane format of type 11 Baggage Stamps. Numbers indicate last digit of serial number.

A recent internal Customs Service Notice 6 announcing the issuance of a new Customs Forms Catalog lists the Baggage Stamps as abolished as of July 11, 1966. However, the 1971 edition of the Forms Catalog 7 shows a printing of Baggage Stamps in books of 100, serially numbered, in November of 1966; and the current edition of the Customs Baggage Declaration (customs Form 6059-B) has a space for "Stamp Nos." in the "Official Use Only" block. Informal discussions with Customs officials reveal that Baggage Stamps are no longer used, and have not been in use for several years. One of the reasons for discontinuing the use of Baggage Stamps was their failure to adhere to baggage when the weather was too hot, too cold, or too wet.

The various colors used in printing Baggage Stamps enabled Customs officers to select a color at random for a particular baggage operation, thus providing a deterrent to smuggling, since incoming passengers could not know in advance which of four or more colors might be used in clearing their baggage. 8

#### **Tentative Conclusions**

From the information gathered, several tentative conclusions can be drawn:

First, the Baggage Stamps are in the nature of Taxpaid fiscal stamps, as they were not to be affixed until any duties due had been collected.

Second, some Baggage Stamps may have been a local production at a major seaport (such as New York), the success of which inspired the implementation of the use of the "official" types by May of 1930, although not required by regulation until February 14, 1935.

Third, use of baggage stamps was made optional by June of 1953, and they fell into disuse sometime thereafter, quite possibly as late as 1972.

# PRICING ITALIAN REVENUE STAMPS

by Martin Erler, ARA

Italian revenue stamps are increasingly collected again, for they are nice in appearance, and many of them are not too rare. During the past months I was asked repeatedly how these stamps should be priced, for apparently some collectors feel that they were charged too much.

We have a very good catalogue by Leone de Magistris. The first part of this catalogue was issued in 1947. It is a very fine piece of work, with good descriptions and illustrations, and thoroughly priced. The second part, a supplementary volume, is dated 1961. It does not contain photos nor prices.

As far as the recent issues of Italy proper are concerned, the absence of prices is not too problematic, for many of these stamps are not rare and will be available from the files sometime. For colonial issues, separate solutions re pricing must be found (a catalogue on the revenue stamps during British occupation of Italian colonies is being prepared at present and may appear soon).

Since the Italian Lira has undergone heavy devaluation since 1947, most collectors are puzzled about adequate pricing of the stamps today. It must be said that the situation for most of the rarer items of the classic issues has changed greatly since 1.47. The market for these stamps in Italy is practically devoid of them. The old files in most cases do not exist anymore, so there is not much hope that some of the desired stamps may come from there. Collections that are sold now and then usually do not contain many of the rare stamps; there is only the more common material.

According to the present situation, I propose that the de Magistris notations should be used according to the fellowing key:

Stamps up to 20 de Magistris Lire: 1 Lira = \$.05 US Stamps from 21 to 50 de Magistris Lire: 1 Lira = \$.06 US Stamps from 51 to 199 de Magistris Lire: 1 Lira = \$.07 US Stamps from 200 de Magistris Lire upwards: 1 Lira = \$.08 US

This key might keep the common material at reasonable prices, and the better items which are in higher demand would be priced correctly at the present level.

# FISCAL STAMP COLLECTORS' SOCIETIES

by Josef Schonfeld, ARA

The following is a list of clubs, associations and other groups, past and present, which are fully or partly dedicated to the needs of fiscal stamp collectors.

The purpose of this list is mainly to bring together and to record for the first time the names and localities of these organizations, with the addition of dates, names of their founders, their publications, etc. where known to me. No attempt has been made to delve deeply into historical details, because this would encroach on a different subject, namely the history of fiscal stamp collecting.

The names in this listing are arranged in alphabetical order, they are stated in their original language, with English translations within parentheses attached. The letter "O" means "Organ", namely the title of the journal or publication issued or used by that society.

It is probable that there may have existed a few more fiscal societies in the past, and that there may be some others thriving at the present. I will be grateful to receive information on any of these, and also for additional details on those listed here.

Figure 4
French fiscal used and canceled in Monte Carlo, Monaco.

Figure 5 French Dimension issue of 1881 with Monaco cancel.

Monaco at the time of the essays? If so, can we assume that French stamps were used for that purpose, especially the lower denominations normally used as receipts from public accountants? Such assumptions appear to be proven by the discovery of documents of the not-too-distant past, showing the French revenue cancelled in Monaco (Figure 4.)

Another late discovery leads one to believe that the post offices in Monaco did indeed use French dimension stamps. I refer to a 50c and 2/10 value of the 1881 issue of France bearing two cancellations (Figure 5): MONACO—PRINCIPAUTE—2 (7) AOUT 1882 and ARTICLES D'ARGENT 30 AOUT (Money order). Unfortunately this stamp is off paper, but it is likely that it was used on a money order or on a receipt for registered mail. The hoped-for discovery of felli documents will provide further data on this usage, and we continue the search.

Several denominations were also printed in black on a maroon background, showing occasionally tete-beche pairs with differing denominations (Figure 2). Moreover, essays of the stamps for bills of exchange have been found on piece (trial printings?) together with the dimension essays, proving that they were contemporary (Figure 3)

Why did the stamps remain unissued? In fact, the first dimension stamps appeared in Monaco on the eve of World War II (1938) and they differ from the essays, which were prepared at the end of the 19th century. Were duties based on dimensions established in

#### **Bi-Annual Elections**

The ARA membership is reminded that our 1980 election of officers is upcoming with the ballot scheduled to appear in the June issue of TAR.

The positions to be filled are the President, Vice-President, Secretary, Treasurer, and three representatives (one Eastern, one Central and one Western).

Anyone wishing to run for any of these positions must obtain a nominating petition form from Secretary Bruce Miller, must have them signed by a minimum of 10 members in good standing and must have the petition back to Mr. Miller no later than May

Members are urged to run for any office for which they feel qualified. Space will be allowed in TAR for brief statements by any candidate who may wish to do so. The results will be published in TAR with the term of office for those elected to begin on Oct. 1, 1980
