Judging Revenues	26
Auction #25	35

Unlisted by Scott, this rather striking double transfer (at the top) of R71c is discussed in the column Plate Varities, on page 28, inside.

◆ THE JOURNAL OF THE AMERICAN REVENUE ASSOCIATION

FEBRUARY, 1983

Volume 37, Number 2 Whole Number 352

THE AMERICAN REVENUER

The Journal of International Fiscal Philately

Official Organ of the AMERICAN REVENUE ASSOCIATION

THE AMERICAN REVENUER (ISSN 0163-1608) is published ten times per year (monthly except combined July-August and November-December issues) for the members of The American Revenue Association. Subscription only by membership, dues \$8 per year. Bruce Miller, Secretary, 30 South First Ave, Suite 332, Arcadia, CA 91006. Second class postage paid at Madrid, Iowa 50156.

POSTMASTER: Send 3579 to The American Revenuer, Box 56, Rockford, IA 50468.

This publication has been awarded the following in philatelic literature competition: Large Silver — CAPEX 78, Silver Bronze — INDIA 80, Silver Bronze — NORWEX '80, Vermeil — London 1980, Silver — PRENFIL '80, Bronze — ESPAMER '80, Silver-Bronze — WIPA 1981, Bronze ROCPEX TAIPEI '81, Silver — PHILATOKYO '81, Best of Literature (Periodicals) — SESCAL '81. Silver — PHILEXFRANCE '82.

The ARA will not knowingly accept advertisements from anyone whose business dealings are not beyond reproach, and can assume no responsibility between members and advertisers, but will attempt to assist in resolving any differences arising therefrom. The opinions expressed in the various articles in this journal are those of the writers and are not necessarily endorsed by the Association and / or this journal.

Cover: Sheaff Design, Chestnut Hill, MA Backissues: \$1.50 each from the Editor.

The Editor Notes . . .

...that we are again publishing a list of those members being dropped from the rolls for non-payment of dues. If you are on this list there is an announcement below that applies to you.

...that the ARA Board of Directors has reached a decision on a replacement for the Reader's Ads to be announced in the next issue.

...that the state of South Carolina has announced that on April 1st they will destroy all remainders of the 1982-83 SC Migratory Waterfowl and Hunting stamps. Until then they are available at face value (\$5.50) in singles, blocks and full sheets of 30 from SC Wildlife & Marine Resources, Box 11710, Columbia, CS 29211.

...that reprints of early (1904) Danish Christmas
Seals are available from the Secretary, Danish Seals
Committee, 16 Frederick Sholms Kanal, 1220,
Copenhagen, Denmark. Enclose an international
reply coupon. Some later reprints are also
available. All are printed REPRINT on the back.
...that a number of our Dealer Members have price
lists available featuring revenue stamps. These
include the following: (in some instances there
may be charges for the list not mentioned.)
--William T McDonald (Box 121, Greenbank WA 98253)
featuring Great Britian & Ireland
--E.S.J. van Dam (Box 300, Bridgenorth, Ontario
KOL 1HO Canada) featuring Canada and provinces
net prices and auction.

ARA Grants Two HLMs

The ARA Board of Directors, in accordance with the By-laws, is pleased to announce that Honorary Life Memberships have been granted to Mr. Sherwood Springer of California and Mr. Martin Erler of Germany. This has been accomplished in view of their many contributions to the ARA and fiscal philately.

Mr. Springer, HLM No. 16, is best known as editor and published of Springer's Handbook of North American Cinderella Stamps Including Taxpaid Revenues which last appeared in its ninth edition in 1980. He has also contributed many articles to The American Revenuer and had also served as a member of the Board of Directors of the ARA for 22 years.

Mr. Erler, HLM No. 17, is best known for his work on numerous revenue catalogs. Among these are **The Adhesive Revenue Stamps of Germany** (now in nine parts), **The Adhesive Revenue Stamps of Austria** (in two parts), **CSR** — **Revenue and Railway Stamps** (augmented and edited by Mr. Erler) as well as smaller works and many articles many of which have appeared in **The American Revenuer**.

The Board of Directors on behalf of the entire membership of the ARA extends congratulations to both of these outstanding fiscalists. \square

--Martin Paley (Newton Trading Co, Box 395, Plaistow, NH) featuring U.S. Scott listed net prices.

--Philip T Bansner (Box 2529, West Lawn, PA 19609) U.S. net price including some attractive Scott listed.

...that other Dealer Members are invited to send copies of their offerings to the Editor for mention in this column.

TAR BACK ISSUES

Copies of most issues of TAR since Feb., 1977, are available for \$1.50 ea. postpaid anywhere. Some issues are in short supply, supplies of a few have been exhausted.

Editor, The American Revenuer

Rockford, Iowa 50468-0056 USA

IMPORTANT NOTICE TO THE MEMBERSHIP

Please look at the list of those being dropped from the membership rolls as the result of non payment of dues (the list is on page 43 of this issue). If your name is on this list, this is the last issue of TAR you will receive (unless you have paid since the first of February). If your name is on this list please remit your dues to Secretary Miller immediately; if the name of a friend is on this list urge them to remit their dues immediately—BECAUSE:

Within the next several months we will be publishing a free supplement to TAR. This supplement will be titled *The Shift Hunter Letters, U.S. Revenue Varieties.* This will be a 36-40 page booklet consisting of short notes about plate varieties discovered principally by C. W. Bedford and compiled by George Black. These illustrated notes appeared originally in *Weekly Philatelic Gossip* in 1938-1941. It encompasses U.S. revenue material from the first issue through the proprietary stamps of 1898. Associate Editor Richard Riley had edited all of these articles which number over 100 columns extracting the information about revenues.

The publication of this supplement is being funded by the ARA Publication Fund which was established for the express purpose of allowing the ARA to publish issues of TAR in excess of normal budgeting. Donations to this fund are always welcome and should be sent to the Treasurer.

This supplement will be distributed free of charge to those on our membership list as of the date of publication. Non-members or those whose membership has lapsed will be charged for copies of this supplement if obtained at a later date. The supplement will not be sent to those ordering back issues. SO, pay your dues now if in arrears and insure that you will obtain a copy of this most interesting work.

Mexico Documentary Mysteries

by Victor Kreloff, ARA

To the 1874-75 issue Fred Geo. C. Lundy (1891) assigns three separate issues. 1. Wove paper, yellow gum, rough perf. 12, "locally engraved". 2. Wove paper, white gum, clean machine perfed 12, "Engraved by the American Bank Note Co." 3. Horiz. laid paper, wmk. "Renta Del Timbre" nine time across the sheet, yellow gum, rough perf. 12. Lundy says: "I assume the above is likewise a local impression, the gum being yellow and the perforation the same as the first issue, but whether those engraved by the American Bank Note Co. is issue one or two I have not been able to ascertain." Stevens doesn't mention these gum and perf. dif-

Lundy says that the 1876, 1877, and 1878 issues were printed by the American Bank Co., and Stevens (1968) assigns the whole 1874-75 to 1878 period to that source.

Here are some contrasts in shades between Lundy's issue No. 2 and the others:

I. — Lundy's issue 2.

Thin, hard white wove paper, white gum, clean perf. 12.

1 cvo. Clear bistre-brown. 3 cvos. Clear slate-violet.

5 cvos. Clear red. 25 cvos. Deep pumpkin orange.

A 1 cvo. bistre is known from a bruised plate.

My guess is that Lundy's issue 2 may have been printed in the U.S., and then the stamps and dies were both sent to Mexico, and there the other two types were printed.

Considering the style of the simply designed 1876 documentary issue, I don't believe these were made by ABN-Co. I think they were engraved and printed in Mexico.

The 1877 documentaries have an innovation, the numerals 1, 5, and 50 in the centavo values are reversed, to balance the design — this is too delicately drawn, and there is no framework. These don't "feel" like ABNCo.

The TLALPAM pair both sharing the common cancel dated April 3, 1877. On the left is a 1c light vermillion and on the right is a 1c clear bluish grey.

II. Lundy's issues 1 & 3

Thick hard white wove or horiz, laid paper, yellow gum, rough perf. 12. Also bearing A.B.N.G.N.Y's imprint. Bistre shades, ochre. Lilac to lilac-grey. Slate. Murky colors.

Murky orange-rose shades. Medium orange

The compactly designed 1878 issue is signed "DE LA PENA" in tiny letters in the hollow below the "1878". This issue ties in with the 1877's by the reversed 25 numerals in the 25 cvos, and the thick oval of lathework.

Perhaps the 1877 stamps might have been printed in a different location than the 1876. First there are the varied 1877 overprints on 1876 stamps, the 1877 being: "Some districts received the regular 1877 issues two months late" as Stevens says. It appears also that it was planned to keep the same colors for the same values of the 1877. But the shades of the 1877's are quite different! However there were shade changes throughout:

1876

1876 retouched

1877 Jan.

1877 about March

1877 April Color change. Late 1877

1c Bluish grey.

Milky bluish grey Milky greyish blue. 3c Orange-carmine, old rose, Mauve-rose, Orange-rose, old

Olive-brown

Clear bluish grey. Brown-rose

Light vermillion. Scarlet

Clear ultra, grey-ultra, pale grey-ultra,

on white wove, (may be washed.) rose (washed?) grey (faded?) (I haven't enough dated copies of this and the next to determine shade sequences within issues.)

1876

5c Olive-slate, olive grey (washed?), olive-bistre. 10c Orange.

25c Yellow-green.

50c Blue

1 Peso. Deep green.

5 P. Brown. (Lundy-"Ochre". 10 P Red. (Brownish-red)

1877 Jan.

Orange. Carmine shades. Yellow-green with olive tint.

Blue.

Deep green.

Brown (Brownish Carmine) Shouldn't this exist in red? 1877 April. Color change.

Red-lilac, shades, many faded.

Bistre (shades?) Lilac-mauve. Shades. Bistre-buff.

(?) Bistre-buff on yellow surfaced paper.

Late 1877

Violet. Shades. Pale yellow-green Carmine, black centre.

Literature in Review

Publishers, authors or distributors of books, catalogs, periodicals or other publications about revenues or cinderellas who wish their works reviewed should forward a copy to the Editor, Box 56, Rockford, IA 50468. A second copy for the ARA library would be appreciated.

United States Internal Revenue Stamps, Hydrometers, Lock Seals by J. Delano Bartlett and Walter W. Norton (The Springfield List), reprinted by J. L. McGuire, Box 297, Dennis, MA 02638, 8½x11, 44+16 pages, punched for three ring binder, \$100 + 1.50 postage.

This is an offset reproduction made from newly typewritten text rather than reproduced from the original which was printed on lined ledger paper. Additionally McGuire has added 14 page of illustrations showing at least all the classes of stamps and seals and most of the designs. This is a great improvement over the original which was unillustrated. The typing was done on a modern electric typewriter and is almost as good as typeset.

The listing is of course, not up to date. The listing of lock seals in particular is rather bare bones, but the list does have redeeming social value — it seems to be about the only list about for much of this material. It also provides a low cost and readily available source of background material for the researcher.

Kenneth Trettin

Mexico

The January, 1877, issue doesn't seem to have been demonetized, my latest 1 cvo. Clear bluish grey has an October, 1877, date. Also I date the April issue by a pair from Tlalpam tied by the cancel dated April 3rd; a 1 cvo. light vermillion used with a 1 cvo. clear bluish grey. May and June cancels abound on the changed color 1877 issue. Much more work on dated cancels needs to be done on these throughout.

Why were these colors changed in April? Stevens mentions a robbery for the Ink Controls. But I think a robbery, if there was one, fits better the change of colors. The Ink Controls ran from 1876 through 1882. One answer for the Ink Controls could lie in an Octroi system. Until about 1895, gates called *Garitas* existed on the roads to Mexico City. These were stopping points where people were searched, and an internal duty called the *Alcabala* was levied. (Calderon).

The most logical answer, of course, for the color change is a simple Administrative Decision. I have presented a series of guesses, supported as well as I can by stamps I have seen. My guesses are open to support, modification, or challenge from anyone. What I greatly need is contact with Mexican historians, and introductions to various archives.

Many thanks to Dr. Wm. G. Kremper and Mr. Jim Caldwell for their help with this article.

Richard B. Stevens, *The Revenue Stamps of Mexico*. 1968. Elmhurst Phil. So., Elmhurst, Ill.

Fanny Calderon de la Barca. *Life in Mexico*. 1842. Edited with notes by Howard T. Fisher & Marion Hall Fisher, Doubleday & Co. 1966. Pg. 677, note No. 1 to Chap. 5, and elsewhere. (A marvelous book.)

The Private Post 1983 (An Annual Publication of the Cinderella Stamp Club for the British Private Post Study Group of the Club), edited by Peter Thornton and L. N. Williams, 5½ x 8½, 40 pp. card covers. Available from the Cinderella Stamp Club, G. M. Dorman, 35 Smith Street, London SW3 4EP England for £3.00 post free by surface mail. (Make checks [cheques] payable to "Cinderella Stamp Club.")

This is the sixth annual handbook produced by the group (1977 is out of print but 1978, 1979, 1980-81 and 1982 are still available through Mr. Dorman). The purpose of this study group is to research all types of private postal service in the U.K. and Ireland — both those still in operation and those now defunct.

The booklet contains 9 articles covering such subjects as railway parcel stamps, strike posts, tramway stamps, London circular delivery companies, omnibus parcel stamps and book reviews. Additionally there is a bibliography for 1981 of British Private Posts articles that appeared in a philatelic press.

As has been the case in the past, the material in this booklet are presented in a most scholarly manner — I need say virtually all of the book is meat. As a result this booklet again deserves the attention of the philatelist.

Kenneth Trettin

A Catalogue of the Revenue Stamps of the U.K., Isle of Man, Channel Islands and Eire (2nd Edition) Volume 1 by Roger Booth 68 + xxiv pp, 8½ x 11½ inches, card cover, available from the author (5 Park Crescent, Brighton, Sussez BN2 3HA U.K.) US \$15 (surface mial) or \$18 airmail.

This is the long awaited second edition of the 1976 edition of almost the same name (it should be noted that "adhesive" has been dropped from the title). As you might guess, this volume includes the embossed stamps as well all incorporated into one consolidated listing.

This new edition is more than just a catalog. There are pages of extensive background and a detailed explanation for each class of stamp. The catalog is priced in Sterling and reflects the higher European market.

This volume contains an introductory section with tables and a master index and stamp listings for the specified duty stamps for use in England, Wales and Great Britian. Volume 2 is to be expected in March and volumes 3 and 5 by the end of the year. Volume 4 will be a much larger section and still has much work remaining before it is ready for publication.

These volumes will undoubtedly bring the U.K. into the fold of those few other nations that have their revenue stamps extensively catalogued — well slowly our revenue material is gaining catalog status.

Kenneth Trettin

Scott Specialized Catalogue of United States Stamps 1983, published by Scott Publishing Co, New York City, NY 6 x 9 in, 822 + pp, available from most stamp dealers, list \$18.

This is the primary reference for the collector of U.S. revenues. Many of the changes in this issue are not so dramatic, but they are there and are contributing to a much improved listing.

Among the new listings are a Pennsylvania Supervisor's seal (RM556), a complete revision of RN-A10, listing of the RN-Bs with state stamps listed as sub-varieties, and the addi-

(Literature-continued on page 30)

RN-B13

Shown here, courtesy of John S. Bobo, ARA, is a most attractive B-13 cut square. It has a distinctive feature — the name of the user is in the same color of ink as the RN imprint. Naturally, it is assumed that the imprint and Company logo were pulled simulateously by American Phototype Co. After all, American Phototype was the firm that devised the B type (among many others) and is the only reported user of B13.

But, we still face a question — is the cut square from a check, draft or receipt? We show it in full size; about 3 1/8" tall x 13/4", it could be the left end of a business-size check. It is much less likely to have been on a draft. The other possibility is that it was on a receipt form, either horizontal or vertical format.

Well, what is really needed is to have someone come up with an entire instrument used (or printed for) by the Brooklyn City RR Co. Has any reader got one? Please look.

Voucher Checks

There is proof that this series of articles has readers. William J. Johnson of Pontiac, MI, has written about voucher-checks used by the New York Central Railroad in the period 1865-9. His photocopy showed a cancellation in '65 and his letter mentioned the others. Many thanks to him for letting us know this. Seems that voucher-checks were used by railroads and only railroads. Who can show a different type of user? Again, please look.

Yet Another RN Newcomer

Collectors of RN material and, as Ernest Wilkens has observed, collectors of Tax-Paid stamps, will long remember the year 1982. Finds in both fields have been publicized — early dates, previously unknown varieties, quantities unsuspected and so on — in profusion, to put it mildly. And now another one not seen before! As far as I can tell from my reference material, this hasn't been described in print, either.

The Savings Bank Check with RN D1 imprint (shown here) is/is not really a check. In modern usage, it could be called scrip, maybe; an interest-bearing certificate; negotiable bearer bond or some similar title but not a check or draft.

But it is called a check and thus raises the possibility that it was termed a check in order to get away with the 2 cents tax rate as compared with the 5 cents certificate rate. According to the fine print on the reverse, the issue was of \$100,000. in checks of 5, 10, 20, 50 and 100 dollar values. This means that more

ARA 1983 CONVENTION

Ed. note: The following appeared in, and is reprinted from, the Dec., 1982, edition of the VIRGINIA PHILATELIC FORUM, newsletter of The Virginia Philatelic Federation. We certainly wish to thank the gentlemen responsible for the advance notice to its member clubs. While we do not have, as yet, a prospectus to publish for the Nov. expo, it you need any advance information for planning purposes please write directly to the VPF President, Mr. Wm. A. Mottram, 3558 Shore Drive, Unit 1001, Virginia Beach, VA 23455.

Stamping Around Virginia

by Rappahannock James

The REVENOOERS are a comin'! Don't hid your still! It's not the Infernal Revenooers, but the members of the American Revenue Association (ARA). ARA will be one of the two national societies at VAPEX '83.

Most of you at one time or another have seen the U.S. revenue listings in the back of the Scott catalog, and some of you may even collect them. The Scott listing only scratches the surface of fiscal philately. Nearly every country in the world has used and/or still uses revenue stamps.

The Scott catalog does not even list all the U.S. revenues, for none of the taxpaids are included. An example of a taxpaid

we are all familiar with but is not Scott listed is the stamp once found on every package of cigarettes. Why, when they were done away with, cigarette companies came up with pieces of paper the same size, because they held the packages together and customers considered these rectangles integral parts of the package! Other taxpaids include Beer stamps, narcotic stamps, oleomargarine, potato tax — the list is too long for this article. All of these were produced for revenue purposes, and most were printed by the same printer as postage stamps — the Bureau of Engraving and Printing.

In addition to federal revenues there are state revenues. Documentaries are used in New York and other states with stock exchanges, and even nearly minute stamps appear on cigarette packs. Foreign revenues offer just as many, if not more, areas of revenue collecting, depending on the country selected.

What has the ARA to do with all of this? It is the international society of collectors of fiscal philately. It offers many benefits to members — award-winning journal, sales circuit, probably the largest library on revenues in existence, conducts auctions several times a year, and provides a world-wide literature service on revenue philately for members. If you are a revenue collector, or thinking about becoming one, then don't limit yourself to the very few listed in Scott's U.S. catalog. For a No. 10 SASE, find out about the entire world of fiscal philately. Send it to: Gerald Abrams, 3840 Lealma Ave., Claremont, CA 91711. You too can be a REVENOOER!

- RN Update

than a couple of thousand of these were printed. Saving 3 cents per item equals \$30/1000 and, in 1873 terms, would come to enough money, perhaps, to pay the printer's bill.

This year this item will be 110 years old. It is believ-

ed that assembling a full set of the five values would be a very difficult task. Personally speaking, it'd be a real pleasure to acquire a single example. At least, I've got the negative. \Box

JUDGING REVENUES

by Elliot Chabot, ARA

Introduction by G. M. Abrams, Pres. ARA:

We on the Board have been tossing back and forth some ideas on how to accomplish a break-through, particularly in the area of accredited APS judges, to get through to them that fiscals, and related literature, deserve the same attention when on exhibit as any philatelic material. Certainly we are aware that some of the exhibits presented have taken prizes. up to and including Grand Awards at sporadic shows, but in direct contact with the judtes at several expos we learned that (a) most of the accredited judges have little knowledge of the material, and hence ignore it, and that (b) the APS judge accreditation committee has no intention of renovating its rules for this philatelic byway unless there is a major push from the ARA. We were offered a placebo by the current man-incharge that "time will take care of it". Frankly, the methods and rules need changing, and we don't want to wait for time to heal the wound.

Opinions on how to best approach this subject were submitted by members of the Board, to me, and it is my feeling that the text which follows from Mr. Chabot serves to sum up all of the inputs and then some. These comments apply equally to FIP judging, in general, wherever it may occur. Please read the following carefully. There will be a short quiz immediately after.

I received the APS Manual of Philatelic Judging upon request, and, after going over it, I believe that we should present to the APS a set of rules for fiscal exhibits because (1) the rules for the classifications that the APS currently sanctions (traditional philately, postal history, topicals/thematics, and philatelic literature) have conflicts between them, particularly on the appropriateness of collateral material, and (2) it would be useful to judges if certain of the rules that are supposed to apply to all philatelic exhibits, but which are particularly important to fiscally-related exhibits, were highlighted in a section of the Manual specifcally aimed at us.

This is a rough sketch of the things I would like to see in a section of the Manual on fiscal judging. Everything that I'm about to set forth is either taken directly from the current Manual or is a method of implementing what the Manual says should take place but doesn't give significant guidance on how it should be done. The order of things here is basically the same order in which these appear in the Manual now. As I said, this is a rough sketch; lots of polishing etc. will be needed before a final product is ready for submittal. It is, however, a start.

1. Exhibits of non-mainstream material are not to be down-graded as a result of their not being mainstream (see pages 5 and 11-12 of the Manual). Page 5, in fact, cites Christmas seals as being approrpriate for a philatelic exhibit and that is to be judged according to all of the regular criteria.

2. Where an exhibit is beyond the expertise of a judge, he is OBLIGATED (see page 5) to consult with a disinterested expert. Page 34 (giving the special rules for postal history exhibits) goes so far as to suggest that there be a special jury to advise the regular judges. This seems like our opportunity to start educating the APS judges on the scene. It appears to be an avenue for overcoming the lack of knowledge of fiscally

related material of most of the judges — if we make it usable. We can do that by providing show committees with lists of qualified "experts" who will be attending their particular show. Of course, to get this information will require a good deal of work and coordination. You have indicated on several occasions that exhibiting (and giving the revenue exhibitors a fair shake in the judging department) is vital for the continued growth of fiscal philately. That would seem to indicate that the effort might be worth it. Some sort of mechanics for doing this would have to be worked out.

- 3. The condition of the material exhibited should be the best available, keeping in mind that even the best available fiscal mateiral may be in fairly banged well up shape. (See pages 7 and 20)
- 4. Non-standard size pages can be used in an exhibit when it is necessary in order to display oversized material (such as large revenue stamped paper and the US Special Tax Stamps . . . GMA). (See page 16)
- 5. Collateral. As mentioned above, the rules on collateral material vary greatly from area to area. Page 22 bans all "nonphilatelic items" (I realize that the use of the term begs the question) which it defines as including picture post cards, souvenirs and newspaper clippings. It does make the concession that non-detailed sketched maps are acceptable in postal history exhibits to show "postal routes, locations of towns, international boundaries, etc." On page 27, "maps of mail routes, postal decrees, fee and time schedules and the like . . . if pertinent to the subject of the exhibit, are considered primary postal history material." Reproductions, however, are given a lesser standing than the originals. On page 29, advertising cards and covers are deemed not appropriate for a postal history exhibit. On page 41, photographs, newspaper clippings, letters, press releases, etc." are not acceptable for a topical/thematic exhibit. Picture postcards can be used if they went through the mail. It seems to me that after starting with the general rule of no collateral, each group has carved out is special (sometimes conflicting) group of exceptions. In carving out the current exceptions, little if any thought has been given to the special needs of revenue stamp exhibitors. Let me give two examples and I'm sure that others will come to mind. (1) It is not possible to exhibit a Taiwanese small light bulb stamp "on cover" since the stamps were attached to the light bulbs themselves. The only way to show the usage is by photograph (or by setting up an exhibit of light bulbs . . . GMA). But photographs are prohibited under the current rules. (2) An exhibitor showing the history of the Match & Medicine companies would normally want to show, in addition to the stamps, the trade cards given out during the same period and facsimile labels issued after repeal of the Revenue Act. Under the current rules, the first, and probably the second, would be prohibited.
- 6. Do not merely repeat information found in the standard catalogs (Scott, Gibbons, Minkus, Michel, et al . . . see pages 23 and 43-44).
- 7. Though "unique", "rare" or "scarce" should not be used, it is permissible to say "There are only two covers recorded." Page 23. (Thus "unique" in our hobby would be served by "There is only one copy known" which recalls an

old joke concerning an item seen offered at auction, and described thusly: Lot XXX . . . description . . . followed by the word ''unique''. And below it . . . Lot YYY, identical lot . . . GMA).

- 8. How depth of philatelic research is to be recognized is an area where the special rules differ. As noted on page 28, in traditional philately, outstanding research is to be recognized only by the award of "felicitations of the jury" along with the award that the exhibit won independent of research. In postal history, however, the judges are encourged to consider the level of research in awarding the initial prize and to upgrade an exhibit which demonstrates superior research. Interestingly, as an aside, the Manual indicates on page 28 that research leading to the unveiling of heretofor unknown information is the highest level of research and on page 34 indicates that new information should be published in philatelic literature before it is exhibited. (And, regretfully, I am unaware of how to make the judges READ THAT LITERATURE whether or not it resides in the APRL, which most fiscal publications of which we know DO . . . GMA)
- Rarity should not be confused with price. (Pages 32 and 42)
- 10. It is appropriate to indicate UNOBTRUSIVELY those subjects where the exhibitor has contributed new research. On page 33, the Manual suggests marking such information with an asterisk and explaining the symbol on the title page. (And how many asterisks are permitted . . . *, ***, ****, ****, . . . ? GMA)
- 11. When properly identified as essays, proofs, or specimens, it is appropriate to use meters showing a "0.00" denomination. Likewise, when properly identified, it is appropriate to display "0.00" denomination revenue meters that were issued to show that an item was tax free. This is completely contrary to what the Manual says (and this is the only time that I've recommended that we ignore what's in the Manual.) On page 40 (in section on topicals/thematics). the Manual prohibits the use of meters showing "0.00" or low denominations. I think that meter collectors (I have some revenue meters from the Canal Zone reading "0.00" . . . GMA), even the postal meter collectors, would be outraged if they saw that. In any event, it appears to me to be an out-and-out bad rule and should be reversed at the very

- 12. One area that is not specifically mentioned (except perhaps impliedly with collateral) is the question of the display of booklet pane covers. Dick Larkin, the Chairman of the Booklet Panes Committee of the Bureau Issues Association (and I might add a fellow who has taken panes (sorry about that) to include fiscal material in his columns) has requested that we specifically state in our rules that revenue booklet pane covers are appropriate material to include in a philatelic exhibit. It seems like an eminently reasonable suggestion to me as well as a good opportunity for us to work cooperatively with another philatelic organization.
- 13. In the postal history column in the October, 1982, American Philatelist, there was a good discussion on the matter of the appropriateness of putting literature references in exhibits. There apparently is much discussion on this matter going on presently among the powers that be in the postal history field. This seems like an area that we too should look at in formulating our rules, particularly since judges often seem to be unknowledgeable about the ins and outs of fiscal philately this may be a way of pointing them to some of the wealth of literature in the field. (And to the APRL . . . GMA).

I have previously recommended that volunteers be solicited from the general membership to serve on a committee to review the question of exhibition standards for revenues, and you agreed that it was a reasonable idea. I think that the question of exhibition standards is one that goes beyond the internal functioning of the Association, and that it is therefore most appropriate for a committee to be formed from the membership. At least give them an opportunity. I would, of course, be more than happy to help in any way I can. (End letter)

Concluding Statements and Quiz . . . GMA again.

As can be seen, if we are to get a fair share, it's up to us. Mr. Chabot has offered to help. I urge the formation of such a committee from amongst the ARA membership with, preferably, an APS accredited judge to serve as the Chair. The committee wil be ad hoc in nature through the formulation of the rules and their acceptance by the APS, and then become a permanent one, to accomodate paragraph 2 above. And to the quiz: WILL YOU VOLUNTEER TO SERVE? Letters to the Editor, please.

VAPEX — ARA Convention

a multi-faceted treat

The relaxed and friendly atmosphere of Virginia Beach is the perfect setting for VAPEX '83, to be held on Friday, November 11 through Sunday, November 13.

least as it applies to properly identified fiscal meters.

Not only will the show have a series of treats for philatelists, non-collector spouses and children will also find it a delightful weekend. Virginia Beach itself has many historic sites from colonial times. It is also within easy driving distance of such places as Colonial Williamsburg (and the world famous Pottery Factory), Jamestown, and the Norfolk Naval Base, among other attractions.

VAPEX '83 will be the twelfth major exhibition of the Virginia Philatelic Federation (VPF), now over 20 clubs strong. Drawing on the talents of its members, VAPEX has been accredited as a national American Philatelic Society show and will boast approximately 200 frames of competitive exhibits. There is **no** admission fee.

That, however, is only the beginning. The American Revenue Association and the Society of Philatelic Americans — two major national collector groups will have annual con-

ventions at VAPEX '83.

Also meeting with us this year will be the Mid-Atlantic Region of the British North American Philatelic Society, the Virginia Postal History Society, the Tidewater International Topics Society and the Tidewater Chapter of the Society of Israel Philatelists. This will mean that many prominent philatelists will attend, educational philatelic programs will be available to all who are interested and much fine philatelic material will be on display.

For those inclined to shop, a 25 dealer bourse will operate all three days, as will a U.S. Postal Service booth.

VAPEX '83 will have expanded versions of its successful youth program, its philatelic literature display and a floor auction conducted by Old Dominion Stamp Sales, Inc.

Mark your calendar NOW for this outstanding event. We of the VPF hope to see you at the Cavalier Hotel, 42nd Street and Oceanfront Avenue, from November 11 and 13, 1983!

The VAPEX '83 prospectus will be published in TAR.

Major Double Transfer on R71c

I am pleased to illustrate a very fine example of a double transfer on a one dollar first issue Life Insurance stamp. This is the Scott R71c. The paper is rather soft and quite thick; the color is a orange red; there is a manuscript cancel date of September 2, 1867. All are indications of late usage. The stamp is unusually well centered and is a good impression. The selvage indicates it is from the top row of the plate.

Scott does not list a double transfer for this stamp, nor are there any references to this variety in the index to TAR or in the book *Revenue Unit Columns from the American Philatelist*. In his column "Positions" for April, 1981, in TAR, Richard Sheaff did not indicate seeing this variety on the proof sheet in the Smithsonian. (He did make note that the "double frame line at right" listed in Scott is actually a layout line and is seen in position 46 on the Smithsonian proof sheet.

Quite possibly this double transfer resulted from a re-entering of the subjects by Carpenter in an effort to repair worn plates. This was commonly done and resulted in many varieties.

The double transfer on this specimen is bold and no glass is needed, even for old and tired eyes. It takes in all the area above the label "U.S. INTER. REVENUE" but the boldest part is shown above the top border. The shift is almost 3 mm upward. The outline of the word "DOLLAR" is readily discernable and the two shields are plainly seen.

To me this is a fantastic and probably the strongest example of a double transfer in my plate variety collection. Does anyone else out there in

Revenueland have such an item? If so, possibly we can get it listed in Scott as a double transfer.

Insurance and Revenue Stamps

In the November-December issue of TAR it was called to the members attention (President's Page, page 206) that all insurance companies may not consider revenue and cinderella stamps to be covered by their policies. It was pointed out that one company interpreted their policy as excluding revenues since is stated coverage was for "postage stamps" etc.

Apparently a number of APS policy holders have contacted them about coverage for revenue material. Horace W. Harrison, APS Stamp Insurance Plan Manager, has responded that, "Although philatelic property has always been considered to include revenue material by the American Philatelic Society Program, and we have paid many losses which included it, the following definition has recently been added to the coverage: 6. DEFINITIONS. (d) Philatelic property includes (but is not limited to) stampless covers, postal stationery, revenue stamps, postal history material, reprints, essays, proofs, literature, albums, pages, mountings and other materials relating to the hobby of philately.

Mr. Harrison's statement should made those of you with APS coverage rest easier. It has also been learned that coverage for revenue/cinderella material is available in the United Kingdom. It has been reported in the British media

Forbin Forgot to Father Fiscal Filately

by G. M. Abrams, ARA

From an authorative source who knew Mr. Forbin personally, I have a letter which indicates the following most difficult-to-believe fiscal fact yet forwarded:

While Mr. Forbin prepared all of his catalogs and subsequent updates, while he dealt in the material and published, while he traded and bartered, he NEVER, repeat, NEVER collected them. He held a dealer's stock and never had a personal collection.

This may come as a blow, as it did to me. Many of you have over the years looked upon him in a similar manner as we do George Washington. But, nevertheless, it is true.

The readers are invited to document, with evidence, anything which will refute this statement and make all of these forehead furrows fade away forever. If you can, please write directly to the Editor. \Box

that all risk coverage is available through J. B. Horne, 7 Elm Drive, Bradley, Stafford, England ST18 9DS. Those interested should write directly as we have no further knowledge of this policy. \square

Mt. Clements Telegraph Office Handstamp

by Robert S. Freeman, ARA

On May 28, 1982, The Philatelic Foundation issued a no opinion certificate (No. 109,039) for a 2¢ Pan-American stamp handstamped IR. The stamp was submitted by Sotheby's and described on the application as "Provisional Revenue usage Mt. Clements Telegraph office, I.R., handstamp."

The item does not appear to be in the index to TAR nor listed in some of the common references. Does anyone have any information about this item? Is it genuine or a fake. Possibly someone knows a little history about it. The results of any replies will be reported in TAR. Contact me at 7809 North 37 Ave, Phoenix, AZ 85021.

Photo courtesy of The Philatelic Foundation

State Revenue Catalogs

Four specialized catalogs of the revenue stamps of five different states are available from the State Revenue Society. The four catalogs are: 1 — Washington State/City Revenue Catalog, 27 pages (\$4 to non SRS members, \$2.25 to members). 2 — Kansas State Revenue Catalog, 18 pages. (\$4/\$2.25). 3 — Nebraska Revenue Stamps, 19 pages (\$3/\$1.75). 4 — Revenue Stamps of New Hampshire and Vermont, 11 pages (\$2/\$1).

Orders should be sent to State Revenue Society President Terence Hines, Psychology Department, Pace University, Pleasantville, NY 10570. First class postage is 50¢ extra on items 1, 2, and 3. Checks should be payable to the State Revenue Society.

CINDERELLA STAMP CLUB PUBLICATIONS

HANDBOOKS

No. 4: United Kingdom Savings Stamps, Labels and Coupons by Lionel D. Jones (1979). 125 pp. A comprehensive illustrated work detailing the history of the savings movement and listing the labels, coupons and stamps nationally issued. The work results from over eleven year's research. An Appendix provides a guide to relative scarcity and includes prices.

Price: £4.95 (post, add 30p.)

No. 5: Collecting Seals and Labels by Charles D. Rabinovitz (1982). 60 pp. An intoduction to an immense subject on a world-wide scale. Lavishly illustrated with every pictured seal and label placed in a value code. Price: £4.00 (post, add 50p)

JOURNALS

The Cinderella Philatelist. Quarterly. Volume 1 was published in 1961; publication has been continuous and is continuing. Each issue contains at least one free gift of a Cinderella item.

Price: free to members of the Cinderella Stamp Club. *The Private Post 1978*, 40 pp. Price: £1.00 post free by

surface mail.

The Private Post 1979. 40 pp. Price: £2.00 post free by surface mail.

The Private Post 1980-1983. 40 pp. Price: £3.00 post free by surface mail.

The Private Post 1982. 40 pp. Price: £3.00 post free by surface mail.

The Private Post 1983, 40 pp. Price: £3.00 post free by surface mail.

These are annual publications, finely printed and illustrated, published for the Club's British Private Post Study Group and covering all private posts of the British Isles, including William Kockwra's post, Peter Williamson's post, Circular Delivery Companies, Oxford and Cambridge College stamps, Court Bureau, parcel delivery companies, omnibus parcel stamp, carrier stamps, railway and tramway letter and parcels stamps, airway letter stamps, private telegraph, off-shore island issues, and the 1962, 1964 and 1971 postal disputes.

REPRINT

Bulletin of the Fiscal Philatelic Society, Vols. 1 and 2. 340 pp., hardback. 217x140 mm. Invaluable, authoritative reference. Source material for world-wide fiscals. Price: £9.95 plus 50p. towards postage by surface mail.

Cumulative Index to the Bulletin of the Fiscal Philatelic Society, Vols. 1 and 2, by Brian Birch. A key to the contents of both volumes. 16 pp. Price: 50p. (U.S.\$1.00).

All inquiries and orders for the above publications should be addressed to:

G. M. Dorman, 35 Smith Street, LONDON SW3 4 EP, England

(Please make checks payable to "Cinderella Stamp Club")

Current Usage Revenues — Bahrain

by Dr. Steven Carol, ARA

One denomination of the stamps currently in use in Bahrain is pictured here. There may be and probably are

Literature in Review

(continued from page 23)

tion of 7 Miyako provisional revenue stamps to the Ryukyu section.

As always, price comparisons are a major part of a catalog review such as this. Looking back at some favorites in last year's review of the 81 catalog we will see what they did this year. The \$1.60 Foreign Exchange has gone from \$450 (a) and \$65 (c) to \$500 and \$70; the \$50 USIR goes from \$125 and \$75 to \$150 and \$85; and the \$200 USIR from \$850 and \$475 to \$950 and \$550. R103 advanced \$2 to \$20; the 1¢ Third issue (R134) went up \$3 to \$18 (that's a 20% increase). Many of the high priced inverted centers in the second and third issues held ground. The two boating stamps priced mint last year at \$85 and \$110 now list at \$65 and \$85 (non-revenuers getting out?). Ducks remain high flyers but the gains seem to be a little more modest.

The M&Ms have gone through yet another round of price increases. Still they seem to be below the going rates. The catalogue currently states that the prices apply to "specimens to reasonably attractive condition, which many have a minor defect." In the future look for this to change to some sort of statement that describes the normal M&M as damaged in some respect and that this is the stamp that is priced in the catalogue. This is one way to bring the listings into line with market prices and yet not attract undue attention from the non-revenue collecting investor who is out to make a quick buck from anyone he can. Yet as a M&M collector myself, I feel that this approach would be a justified one. One seldom encounters M&M stamps that are perfect (if ever) and normally does not find them in "reasonably attractive condition." The majority of the specimens one encounters are a little doggy — and it is the normal specimen that should be priced.

In general our catalogue is being improved — thanks in large part (or rather totally) to the ARA members listed in the front of the catalogue along with co-operative editorial staff (which also includes some ARA members.) As always, this catalgoue is important if you collect U.S.

Kenneth Trettin

other values. Additional data has been requested and will be published in TAR when received.

The date of issue is unknown. The stamps are perforated 14½ on paper bearing a faint arms watermark. The design is 24 x 41 mm with the imprint "ORIENTAL PRESS BAHRAIN" at the bottom. Inscriptions are in English and Arabic, and are in black. The value, the arms, the border and the background behind the arms are the first color listed, the balance of the stamp is in the second color. So far I have seen the following:

The Catalogs Are Coming

by Don Duston, ARA Sales Manager

World revenue collectors have for years had to make-do with the 1915 Forbin as almost the sole source of revenue listings. Now it seems we are within only a few years of reaching completion in more or less to date catalogs. Here are some that will be offered in the near future.

First, it came as a complete surprise that a catalog of Italian revenues was published in 1976 by Paolo De Magistris, son of Leone De Magistris. I was only aware of the 1947 issue and the 1961 supplement put out by Leone. Domenico Facci was kind enough to send me the publisher's address, and as a result, the newer catalog will be available to our members. Since the 1976 edition does not include the Colonies, a photocopy of the Colonies section of the original catalog and the Supplement will be offered separately.

For the British Areas, Roger Booth has completed Volume I of a five part set of the revenues of the U.K. and Eire. Volume II is due out in a few months. In addition Barefoot Ltd. is preparing a 2nd edition of the British Colonies catalog, and will soon be out with the Romania revenue catalog.

Martin Erler is still hard at work and will soon complete Germany Part VIII covering the Occupied Country issues. He is also planning a new German Railroad stamp catalog. Further out is a catalog of Brazil, being prepared by Paulo Barata of Portugal. His preliminary listing has been sent to get US members input, and includes the National issues including the extensive Consumos plus the State and possibly some of the Municipal issues.

Check the Sales Department catalog offering lists for the new ones, so you won't miss any. Review of the new catalogs will be left to others, but I will add a description of the ones now available or on order.

A Catalogue of the Revenue Stamps of the U. K., Isle of Man, Channel Islands, and Eire 2nd Edition, Volume I, 1982, R. G. Booth, 68 pages plus 24 pages of introductory material, 8½" x 11¾", card covers. Price \$17.00 pp

Catalogo Generale Delle Marche da Bollo Italiani with Stati Antichi Italiani 1976, Paolo De Magistris, 339 pages, 5½ x 8", card covers. Price \$14.75 pp Photocopies, Colonies Section 1947 Edition of Italian Revenue catalog, 66 pages, plus 1961 Supplement, 17 pages. Price \$8.50 pp.

IIIa.

- 1) The little line rises just at the border.
- 2) The part lying on the border is very narrow. The triangle above the little line is not to be seen.
- 3) The little line rises from the main line much more within the border.
- 4) The two quadrangles do not lie on the border. Much more third-quadrangle is seen than in Ib or II.
 - 5) As Ic.
 - 6) As Ic.
 - 7) As Ic.
 - 8) As Ic.
 - 9) The two lines meet much further from the border. Found in the issue of 1868 only.

- 1) As IIIa.
- 2) As IIIa.
- 3) As IIIa.
- 4) As IIIa. 5) As Ia.
- 6) As Ia.
- 7) As Ia.
- 8) As Ia.
- 9) The two lines meet just slightly within the border.

Found in the issues of 1887 and 1891.

IIIc.
This type is the same as IIIb except:

7) As Ic. On the Type IIIb the upper part of the background is higher on the left side than on the right side. The plate was now corrected.

Found in the issues of 1887 and 1891.

IIId.

The correction of Type IIIb mentioned in IIIc above was not always carried out exactly right, creating another type. However, this is not uniform and cannot be catalogued.

The American Revenuer, February, 1983

AUCTION NO. 25

Part I

Closing Date: April 16, 1983

007 RE1-8,10,11,32-37**HH,NH.

AUCTION RULES

1) Only ARA members in good standing may participate in this auction.

The Auction Manager reserves the right to reject any bid that in his

judgement is unrealistic.
3) All lots will be sold to the highest bidder at a small advance over the next highest bid.

4) Bids for under \$5 on any lot will not be accepted.

5) Bids must be in increments of 50¢. If only one bid is received for any lot, the bid shall be reduced to the estimate, minimum bid, or catalog value if higher, or shall stand without reduction if lower than the estimated bid or catalog value. For an OPEN lot, the bid shall stand without reduction unless rejected

7) Buy bids, bids below the minimum bid specified, bids below 50% of estimate will not be accepted. Merely

submit your maximum bid.

under rule 2.

8) Use any paper to submit bids. Specify clearly the lot number and your maximum bid. The ARA is not responsible for any of YOUR ERRORS in responsible for any of tout ERRORS in bidding. If you bid on the wrong lot and win it, its yours. PRINT your name, address, and ARA membership number and sign your bid sheet. It will not be accepted otherwise.

9) In case of tie bids, the earliest postmark will be considered the winner. 10) An invoice will be sent to winning bidders and lots will be forwarded on receipt of full payment, which must be made in USA dollars, payable to ARA.
Two party checks will not be accepted.
11) All bids, correspondence, and
payments shall be forwarded to the

Auction Manager. Payments are due 10 days from receipt of notification of award, except under mitigating circumstances.

12) Postage, packaging, and insurance or registration will be billed to the buyer. Uninsured lots shipped at bidder's risk only. All shipments overseas will be shipped by registered airmail except for literature, and it will be shipped book-rate.

13) There is no buyer commission to be

paid. 14) The Auction Manager reserves the right to withdraw any lot.
15) Scott catalog values are used

unless noted.

16) Lots described as having faults or

flaws may not be returned.

17) Returns for misdescription ONLY must be made within five days receipt. Notice of expertising must be made within seven days.

18) The placing of a bid constitutes acceptance of the foregoing rules.

19) Prices realized will be published in The American Revenuer as soon after the sale as possible.

> mail bids to: GUY A. ROSSI, AUCTION MANAGER P.O. BOX 625 MESILLA, NEW MEXICO 88046 UNITED STATES OF AMERICA

British Solomon Islands:

A Follow-on

by P. Boyington

Please refer to the stamp shown on page 155 of the September, 1982 issue of TAR. Through the courtesy of Mr. Stanley C. Jersey of Carlsbad, CA, the following document has been received with additional information on the stamp, and if what is added by way of commentary in the margined note is true, there are two examples known of the stamp, one on this document . . . which makes it far more scarce than any inverted US airmail. (And this writer had the gall to offer the owner of ther information, if any, solicited, from any other other copy shown in TAR a full \$20 source. To the Editor, please.

for the stamp. No wonder he declined.)

The thought occurs that these would 352 have been printed in sheets (they are 353 adhesives) and that more than two stamps 354 were fabricated. If only two are known . . . what happened to the rest of 358 them . . . ? Suffice it to say we have been 359 lucky to obtain this much information, since correspondence to the British government elicited a "we don't know" reply.

Note the date of usage as July, 1939. Which does not equal date of issue. Fur-

1) (1	1007 1000

This achesive is an example of the general issue British embossed revenue sto of the "Key & Duty Plate Type" overprinted "British Solomon Islands". It is used on this document to pay stamp duty, to cover the cost of a l shilling Revenue Fee on a labor contract. The stamp is cancelled with a large double oval handstamp inscribed "Post & Telecommunications", a merk used at Tulagi.

This is the only recorded used example of this revenue stamp and is one of two known.

THIS WILL BE THE FINAL COLUMN UNDER THIS BYLINE

Due to ill health, this writer has resigned as President of the ARA as well as Membership Director. In the future, please direct all correspondence to new President Louis Alfano, and your cooperation with him as you have with me will be most appreciated. Applications may be obtained directly from Secretary Bruce Miller.

THE SCOTT 1983 US SPECIALIZED REVIEWED

In its issue of 20 December, 1982, Linn's Editor (Michael Lawrence) had some good words and some useful criticisms while reviewing the subject catalog. He told of the upward trend of revenues "lustily, befitting their recent and long overdue growth in popularity." Amen. When questioned regarding the new listing of "Private Carriers" (such as the airletter labels issued by Western Airlines) the following remarks were made in response by Scott President Frank Trumbower: "It is Scott's policy to provide as much information as we can" and (if people feel the certain items should be listed) "they should get in touch with Scott." While I am not overly concerned with the emission of these locals, per se, I do have some questions, and what follows may be construed as an open letter to Scott (and Mr. Trumbower) . . . who may feel they have "been gotten in touch with" . . . in order to "provide as much information as we can."

CANADIAN BUFFS TO MEET

As reported in the Dec. issue of the Newsletter of the Canadian Revenue Society, there will be a Mini-Convention (read Gab Fest . . . no exhibits) of the CRS to be held on the first Saturday in June (the 4th) forthcoming. Interested ARA members are invited to the CRS Editor, Wilmer C. Rockett, 2030 Overlook Ave., Willow Grove, PA, 19050, for further details. Return (US) postage appreciated.

WE GET LETTERS: HELP?

From our Rep in New Zealand, Mr. Dennis Huggard (address in masthead) comes a plea for approvals on his pet subject (prize-winning display at Palmpex '82, May, in Palmerstown, North Island, NZ, which took a Silver) . . . the legitimate (early?) US local posts. Anyone who can help is invited to write first and determine what Dennis may need. Financial arrangements should be no problem.

CONSISTENCY: A QUERY TO SCOTT

Just in hand the 1983 edition of the US Specialized (this writing in December). We note the appearance (was it last year?) of the revenues for the Ryukyus issued under US administration. An excellent approach. However, the following countries/entities are ALSO carried in the US Specialized, for which revenues were issued under US administration. They are not listed: The (Panama) Canal Zone; Cuba (we were there from 1 Jan, 1899 through 20 May, 1902); Danish West Indias (now US Virgin Islands, where we arrived in 1917); Guam (recent hunting stamps?); The Philippines (US from 1 May, 1898, through 4 July,

1946) less Japanese occupation; Puerto (or Porto) Rico (still US admin, and the listings, less the Rectified Spirits, stop in 1901). Not included entities, but for whom revenues were issued under US administration: Mexico (Vera Cruz material); W. Germany & W. Berlin; Korea; Japan; und so weiter. Which leads to the query: May we respectfully ask Scott when (or if) all of the material mentioned (or unmentioned) above, issued under US administration over the years, will be included in the US Specialized (and, as an aside, why the UN issues, from across the world, are included, since the UN is not under US administration)? If there is a response from Scott, it will be published.

KUDOS

First off, I will mention some exhibits which took recent awards . . . place by non-ARAers who shall remain nameless. It **IS** the exhibit which is being kudoed.

- . . . to the Silver-winning (no, it wasn't Mr. Needham) exhibit "Kurhessen/Hessen-Cassel (Germany) Revenues, 1853-1860", captured at CALPEX (San Francisco) in October. (John . . . do you know this fellow?)
- . . . to the Bronze-winning exhibit yclept "Revenue Stamps from a Collection from the World that Ended Aug. 4, 1914" at WILSHOW (Silver Springs, MD) in October. (ANYONE WHO MAY KNOW THESE PEOPLE . . . SIGN 'EM UP?)
- . . . to **The American Revenuer**, Editor Ken Trettin and all those who helped us to receive a Silver (top award for periodicals was a Vermeil) at MILANO '82, in November. (Wonder what they'll think of the Italian Municipal effort, if we enter it??)
- . . . AND, with utter delight, another Silver by **TAR** (same KUDOS) at ESPAMER '82 (San Juan, P.R.) in October. The list groweth. Deservedly.
- . . . to **Stamp Collector** newspaper, for the column ostensibly for precancel collectors (PRECANCEL RAMBLINGS) authored by James Kingman, edition of 6 December, 1982, which was a fine intro to precancels on the US PLaying Cards (RF).
- . . . AND to **SC** once again for the column (ALPINE ALBUM) authored by Richard T. Hall, edition of 20 December, 1982, which provided a detailed intro to the Swiss Soldier stamps.
- . . . TO **Linn's** and to **Jim Czyl**, for the new weekly column authored by Jim (first appearance in the edition of 20 December, 1982) called CINDERELLA SCENE.

NOTE: Copies of all of these articles reside in the Library (and will continue to do so). And now, back to the awards . . .

- . . . to **Jim Simon**, whose exhibit of "The Pre-Adhesive Revenues of Austria" took a Gold, also at WILSHOW.
- . . . to **Bill Waggoner**, whose display of "The Consular Service Fee Stamps" (US) was awarded a Gold at ATHPEX (Athens, Georgia) in November.
- . . . to Dr. Harold Don Allen whose exhibit Adhesive

The President's Page

and Imprinted Stamps on Bank Cheques and Similar Documents with Particular Reference to the United States and Canada won the Royal Philatelic Society of Canada silver chapter award medal at the 25th Anniversary exhibition of the Truro Philatelic Society.

. . . to a non-ARAer who's exhibit Nepal: Revenues and Documents captured a gold (in January) at OR-COEXPO '83 in Anaheim, CA.

- . . . to **Millicent Hansen**, for the prizes awarded to her exhibit The Patent Medicine Era in November at SUNPEX (Sunnyvale, CA) sponsored by the Sunnyvale Philatelic Society. These included: The Grand Award, a Gold and the APS Award for the best exhibit by an APS member. Her exhibit is now eligible for the APS World Series of Philately to be held at STaMpsHOW 1983 later this year. Would not 3 Attagirls be suitable as well?
- . . . to **Ed Cutler** whose Private Die Match Stamps received the Reserve Grand at CINPEX 82 and whose Private Die Medicine Stamps received the Grand Award at the Rubber City Stamp Club 1982 show.
- . . . to **Bill Hornadge** and the Australian magazine STAMP NEWS, for the June 1982 edition, which was a Cinderella Special, featuring a number of interesting and informative articles on the various aspects of the hobby.
- . . . to Goerge Wolters, whose showing of The Embossed Revenues of Great Britain earned the Grand Award, an APS Medal and the Robert J. Trial Award (locally sponsored by the Quad-City Stamp Club for the best exhibit of foreign material) at their show in October in Iowa.
- . . . (and again) to **Ken Trettin**, whose The Corner Drug showing received a First Award at the same show.
- ... to **Dennis Rosser** (UK Rep), whose exhibit of USIR Private Die Medicines captured the Post-1890 Competition at the October (JOINT) meeting of the ARA / Cinderella Stamp Club in London, held at the convention of The American Stamp Club of Great Britain. (with thanks to Dr. Conrad Graham for the JOINT arrangement).
- . . . to Ramiro Casanas for the exhibit Cuba-Sellos Fiscales, which received a Bronze at ESPAMER '82. Last October ANPEX '82 was held in Australia. Our kudos are extended to the following:
- . . . to **B.E.R. Alexander** for the exhibit of New Zealand and Depenuencies Postal Fiscals which took a Silver and also for the exhibit of China Locals which captured another Silver.
- . . . to **S. J. Bishop** for the exhibit of T. B. Seals which garnered a Certificate of Merit.
- ... to Revenue & Railstamp Publications, for the literature exhibit "The Railway Parcel Stamps of Mainland Australia" which was awarded a Silver Bronze.
- . . . to **W. Hornadge** whose book "Local Posts of Australia" obtained a Silver Bronze.
- . . . to **Brian Bleckwenn** for his (scheduled) speech at the Collector's Club in New York for the U.S. Philatelic Classics Society, covering USIR issues 1, 2 and 3.

COMMENTARY: I THOUGHT I'D SEEN IT ALL

but, again, I'm wrong. There is a company which has broken into the duck stamp (federal and state) trade in a big way; stamps, signed prints, und so weiter, previously mentioned in this column under the name THE DEPOT. Along with their beautifully colored brochures, a joy in themselves to behold (copies should be in the library) . . . and I suspect the reason the material costs so much is the price they pay for these full color brochures . . . came a recent flyer, in glorious color, which advertised two additional items which duck stamp buffs may wish to obtain as ancillary material to their collections. The first of these was a telephone . . . a workable, usable telephone . . . in the shape of a decoy, with removable hand-piece, of course, which was offered at about \$250 a copy . . . and in full duck colors. The second item was a set of coffee (or whatever) cups, see-through, running under \$10 a cup (sorry, empty, no java) on each of which were mounted externally (and protected) at least 4 used RWs. Duck buffs pay heed. And these are not stamps either, thus not cinderellas

COMMENTARY . . . AND THE BEAT GOES ON

We are not done with, and likely will not be, the issuance by promoters of non-official (non-governmental . . . not national/state/county/local) "stamps" . . . labels if you prefer . . . aimed at the wallets of the sports enthuiasts. What now . . ? A California (not South Carolina) outfit has issued the "first of a series" for 1982, called MARSHLAND FUND CONSERVATIONS STAMPS, showing (in living color) ducks in flight. You guessed it . . . \$5 face (the selling price), with plate blocks of 4 offered pro-rata as well as full sheets of 10. This was noted in the media . . . the one I saw in a full-color advert. And I quote: "The Marshland Fund is a non-profit corporation dedicated to preserving wetlands in the US." Perhaps. I have written to them (President's Page — continued on page 40)

Collector's Duck Stamp Display

Now you can get a reproduction of a complete collection of forty-two uncancelled colorful duck stamps from 1934-35 through 1975-76. This beautiful reproduction is printed in full-color and framed in a handsome dark wood frame ready to hang. Measures 15" x 21½". Now a truly unique piece of waterfowl heritage can be yours to treasure.

asking for proof of their non-profit status. Should they reply . . . you will be advised. For the buffs who MUST have these, write Marshland Funds, Inc., 21 West Alisal St., Suite 101 (a pseudo PO Box?) Salinas, CA 93901. Your option . . . for whatever the advice/CAVEAT is worth . .

And that's not all. Through the courtesy of member Gus Wolf (address in Directory) came the following, for your viewing pleasure . . . from a firm named Cabela's. No, I don't have the address, but if you wish, please send a usable mint US postcard along to Gus and I'm sure he'll furnish it. Remember, these are mint and imperf, not available at your local US government supplier.
