## Mr. Kensett Revisited

by W. H. Waggoner, ARA

It has been six years since the article concerning the private die proprietary stamp of T. Kensett & Co. (Scott RP1) and the related but unissued stamp intended to be used by John Winslow Jones was published in this journal (Waggoner, 1986). Since then, several related items have surfaced. This note is, therefore, intended to supplement the earlier article by calling attention to the later finds.

### Kensett Materials

Excellent photographs of various proofs of the Kensett stamp, the stamp itself, and several items collateral to the Kensett Company may be seen in the catalog (Levitt, 1991) for the Joyce sale. Several of those items are shown in Figure 1.

In the Daugherty Auction number 91, lot 205 was a fine copy of the First Issue 1¢ Proprietary stamp (Scott R3c) bearing the two-line, vertical printed cancellation: "T. Kensett & Co./Baltimore." The auction catalog (Daugherty, 1991) photo is dark, but the cancellation appears to be in 2 mm upper- and 1 mm lower-case serif letters in lines about 19 mm and about 11.5 mm long, respectively. The lot realized \$100, not including the premium.

Figure 2 is an enlargement of a handstamped cancellation, in black, found on an orange 2¢ Bank Check stamp (Scott R6c). The actual cancellation is circular, 22 mm in diameter, with a concentric inner

**Figure 2.** An enlarged drawing of a Kensett & Co. cancellation found on a 2¢ orange Bank Check First Issue stamp.

circle, 14 mm in diameter, that encloses the three-line date.

### Jones Material

The die essay proof of the unissued Winslow's Green Corn stamp is discussed and pictured in the catalog for the Joyce sale (Levitt, 1991) and shown here in Figure 3.

Figure 4 pictures a bank check for \$50 signed by J. W. Jones and drawn on the First National Bank of Portland (Maine). It is undated and does not bear the name of any payee. There is no endorsement on the back side although the check has been punch-can-

**Figure 3** (far left). A die essay proof of the unissued Winslow's Green Corn stamp from the Joyce collection. **Figure 5** (near left). A battleship proprietary with a handstamped "J.W.J.Co." cancel. Could it be J. Winslow Jones?

Figure 5 shows a copy of the brown 1/4¢ Proprietary stamp (Scott RB21p) bearing the two-line, black, handstamp: "J.W.J.Co./1900." It is tempting to believe that this cancellation is that of the John Winslow Jones Company, although the connection between a 1/4¢ tax stamp and any product produced by them is unknown. Jones did live until 1901, however, and other identifications have not been suggested. In the absence of supporting evidence, this must remain speculation, but the author invites any collector having knowledge of this cancellation to get in touch with him.

celed in the style of the time. (A similar check, numbered 7279, is dated August 15, 1872.) The document is quite colorful with most of the printing in black, the check number in red, the RN-E4 tax stamp in orange and the "Winslow's Green Corn" legend and ribbon in green. The generic item is listed but not pictured in the *Field Guide, Part 5* (Castenholz, 1990).

1. Only ARA members in good standing are eligible to participate in the auction.
2. The Auction Manager reserves the right to reject any bids which in his judgement are unrealistic.
3. Bids should be in even dollar amounts only. All lots sold to the highest bidder at a slight advance over the next higher bid. A 10% buyers premium will be added to all successful bids. Bidding increments are as follows:

\$5	to	\$29	by	\$1
\$30	to	\$68	by	\$2
\$70	to	\$195	by	\$5

\$200 and over by 5% over next higher bid
4. If only one bid is received for a lot it shall be sold at the amount bid or the catalog or estimated value, whichever is lower.
5. Buy bids or bids under \$5 will not be accepted.
6. Bids must be submitted on the bid sheet accompanying these rules or a reproduction or facsimile thereof. No bids will be entered after the closing date. In the case of tie bids, the earliest postmark will be considered the winner.
7. In the descriptions a hyphen between two numbers (e.g.: R214-222) indicates that these numbers (inclusive) are included. A slash (e.g.: R214/R222) means that all numbers are not included.
8. Lots not properly described must be returned within 10 days. Lots described as defective or as having faults cannot be returned because of such defects or faults.
9. Lots sold "AS IS" have not been counted or appraised by the Auction Manager and are not returnable. Bid accordingly.
10. If similar lots are listed and you are interested in only one of them enter "OR" between the lot numbers.
11. An invoice will be sent each winning bidder and lots will be forwarded upon receipt of full payment. Payment is due within 10 days of the receipt of the lots. Postage, handling and insurance will be billed to the buyer, \$1.50 minimum.
12. Make all checks payable to "The American Revenue Association."
13. The placing of any bid constitutes acceptance of the foregoing rules. Prices realized will be published as soon as possible after the sale.
14. A 10% commission will be deducted from the final bid price when payment is made to the seller. The

ARA auctions will be held without reserves. Consignors may bid on their own material and if the consignor buys back his own lot he will be charged only a 10% seller's commission and for the postage and insurance costs to return the lot.

15. Mail bids to: ARA Auction, Box 577, Garrett Park,  
MD 20896. 301-493-575

This is the last ARA Auction that will be conducted by our current Auction Manager, Coleman Leifer. However, it will not be the last ARA Auction. *The American Revenuer*, April 1992

In this column, we will begin to track down information on some of the principals of the American Phototype Company, particularly those aspects which can be tied to surviving examples of revenue stamped paper. The subject of the present column is the immediate aftermath of the January, 1866 crisis of the American Phototype Company (Pay to the Order of ... 6).

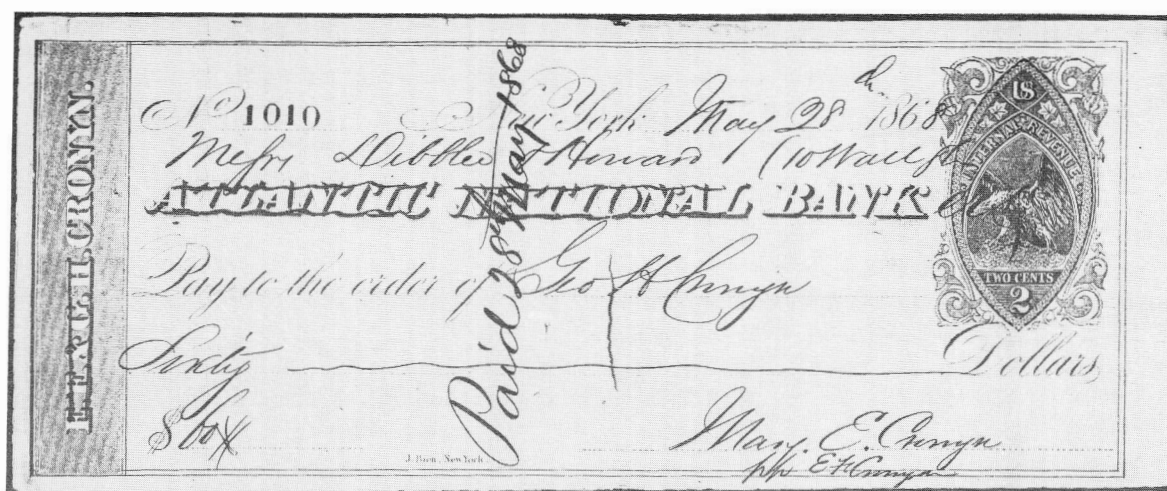

Catalog Number	Printer	Known Dates of Use	
RN-A2	American Phototype	New York	9/27/66
RN-B1	Ed. Mandel	Chicago	12/13/66 12/22/66
RN-B20	Julius Bien	New York	9/20/67
RN-B20	Ed. Mandel	Chicago	9/4/68
RN-B20	Western Bank Note	Chicago	7/22/69 *

The curious fact of the receipt in Figure 1 is that it appears to be to exactly the same as the RN-A2

A search of my own collection yields a number of other "Phototype—J. Bien, N. Y." imprints, all from New York City:

RN-B13a same, changed to Merchants National Bank

In order to suggest a possible answer to this latter question it is necessary to trace the career of another individual, Samuel Booth, who was the first president of the American Phototype Company located at 2 Leroy Place. An examination of city directories leads one to the conclusion that Samuel Booth was no longer associated with the American Phototype Company after 1866. Holcombe (1951) came to a similar conclusion, although it is not certain if he used the

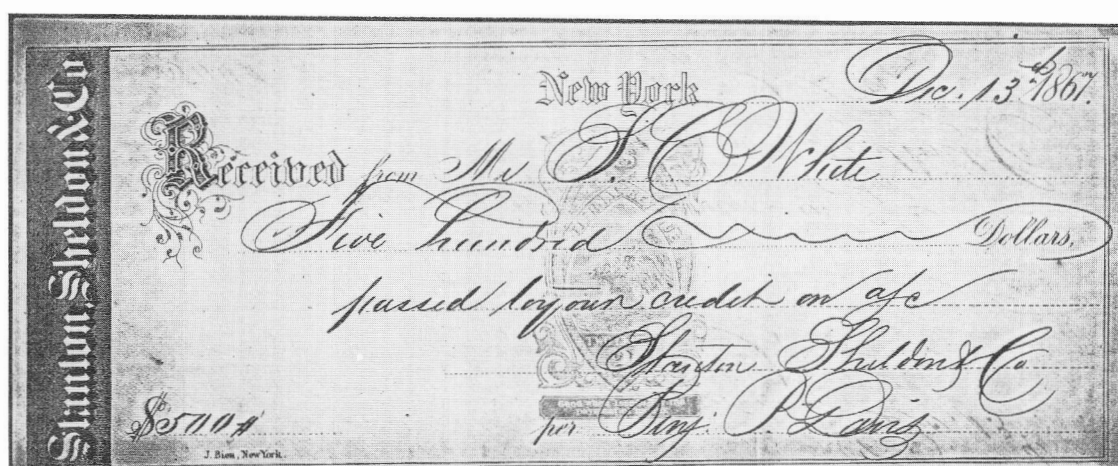

**Figure 2.** Check with RN-B10 printed by J. Bien. No mention of "Phototype" in printer's imprint.

same city directory sources. Holcombe does not appear to follow Samuel Booth's later printing career, initially at 24 Vesey Street (the 1867 city directory lists him as printer and treasurer at that location). In 1867 Julius Bien was also operating his printing business at 24 Vesey Street! While there may have been other businesses at the Vesey Street address, it is equally plausible that Samuel Booth joined Julius Bien after the crisis of January 1866, bringing with him the term "Phototype," some of the check and receipt face plates, and the names of some of the businesses who had had American Phototype print and imprint their checks and receipts. The Gray, Phelps receipts are consistent with such an hypothesis.

There is some further recently unearthed evidence that Julius Bien obtained the plates for the check and

receipt faces (although the Samuel Booth connection in this regard is not mentioned). The Joseph Carpenter files contained a handwritten copy of an April 1866 note that Julius Bien sent out to American Phototype Company's former clients. The note states that American Phototype has discontinued the making and furnishing of check books and receipts and that Bien has obtained the plates for such. Bien further states that the plates were being reserved for the client's use and that anything previously supplied can again be supplied without additional charge (presumably saving the charge to make up a new plate for the check or receipt face).

This note also provides a clue as to how long the A type design was used. The Stanton, Sheldon, and Company receipt, printed by Julius Bien, with the A type stamp imprinted in orange thus may have been

**Figure 3.** Stanton, Sheldon receipt with RN-20. No "Phototype" in J. Bien's imprint.

printed as late as April 1866.

One can imagine a very close connection between Julius Bien and the American Phototype Company, if Samuel Booth retained his financial interest in the American Phototype Company. That would appear to be not the case, since Samuel Booth apparently did not remain very long with Julius Bien. After 1867 the city directories list Samuel Booth's address as variously 199 and 201 Centre Street. Further, my collection contains two items printed by Julius Bien that do not have the word Phototype as part of the imprint. The first is an RN-B10 check drawn on the private banking firm of Diblee and Howard (changed from Atlantic National Bank), Bankers, 10 Wall Street, dated May 28, 1868 (Figure 2). This undoubtedly predates the addition of the word "Phototype" to Julius Bien's imprint. The second item is a Stanton,

Sheldon, and Company receipt with RN-B20, dated December 13, 1867 (Figure 3). This particular item may mark the end point of the use "Phototype" in the imprint.

One final observation about 24 Vesey Street needs to be made. By May 1, 1870, the American Phototype Company had relocated at 24 Vesey Street. Was this a mere coincidence, or were past connections among the principals of Julius Bien and the American Phototype Company still at work?

## Literature in Review

*Magyar Okmánybélyegek Kézikönyve (Handbook of the Hungarian Revenues)*, by Dr. Istvan Floderer. 382 pages, hardbound, illustrated, priced in points. Available from Confide Global S.A., c/o Rigi Consulting, Gottfried Keller-Straße 7, CH-8001 Zürich, Switzerland, for U.S. \$30 postpaid.

Art Linkletter was once quoted as saying, "Old age is not for sissies!" He was no doubt right on that. But, if he were a revenue stamp collector, he probably would have said, "Collecting certain revenues is not for sissies!"

Anyone collecting the revenues of the Ottoman Empire or of Hungary, for example, will agree that these involve languages not normally learned in school nor heard on the street. These language complexities, plus the lack of a modern catalog have made the collecting of the revenues from these countries a difficult task indeed.

Just recently Bill McDonald solved the Ottoman problem for us with his 253 page *Revenues of Ottoman Empire and Republic of Turkey*. Now, a recently published catalog and handbook of the Hungarian revenues fills the other gap: *Magyar Okmánybélyegek Kézikönyve (Handbook of the Hungarian Revenues)* by the late Dr. Istvan Floderer.

The body of this new catalog/handbook is in the Hungarian language. But that need not deter the collector since one finds in this new handbook numerous sections in the English language: a Forward of two pages, an Introduction of three pages, eight pages

of translations of philatelic terms, two pages of translations of colors and one of abbreviations, plus twenty pages of translations describing the watermarks. The English-speaking collector can, therefore, with a little care use the catalog almost as easily as if it were entirely in English. For example, it does not take too long to learn that the column labeled "Ert." means value, or that "Ssz." means catalog number.

The body of the catalog includes eight chapters as follows: (1) Pre-adhesive handstamps—4 pages; (2) Austrian financial administration 1854-1867—11 pages; (3) Independent Hungarian financial administration from 1868—49 pages; (4) The Military Border—3 pages; (5) Judicial and other special purpose stamps—36 pages; (6) Municipal revenues—110 pages; (7) Imprinted revenues—44 pages; (8) Closing-bands and special purpose stamps—41 pages. In total, 382 pages of well organized and thoroughly illustrated information.

In short, this is a beautifully printed and bound volume containing all the information a collector needs to classify and organize all Hungarian arevenues. Pricing is in "points" showing relative scarcity, and will not be affected by future monetary fluctuations.

The eminent U.K. collector Gary Ryan reports that five hundred copies of this book were printed, with two hundred being reserved for collectors outside Hungary.

## Further Words on Current Literature

by R. F. Riley, ARA

Charles E. Gates, Professor of Statistics at Texas A & M has reworked data I presented in the *American Philatelist*, July 1988, page 617, on predicting the number of copies of rare stamps from the auction record and gives best estimates and 95% confidence limits. See his analysis for RO18d, RP1a and R31c in the *American Philatelist*, January 1992, page 48, if interested. Michael Aldrich lines up his "gut feelings" in rebuttal in the winter edition of his house organ, *Reve-News Update*. Anyone else is welcome to join the debate—line up on the right with Ouija board, astral charts or the like.

ARA member Paulo Barata considers the Rajasthan overprints and handstamps on revenue and court fee stamps of British and Independent India in an illustrated article in *International Revenuer* for January 1992. ARA member Lee Crane illustrates (Chilean) postal issues used as revenues, some municipal tax stamps and chronicle of road toll tickets in *The Chile specialist*, No. 4, January 1992.

Volume II, Number 3, December 1991 of *The Revenue Journal of Great Britain* contains several articles of note. Tony Adams continues: Janjira—One and Two Anna Court Fee Stamps, 1927-1945, Peter

Collins illustrates a 17th century Czech tax receipt, Michele Caso lists and illustrates a variety of Italian revenues in current use, Lazlo Suranyi discusses the issue of the first Hungarian revenue and duty stamps, and Lewis C. Viney lists and illustrates the St. George and Dragon Issues of Tasmania, 1863-1908. A classified Thomas De La Rue & Co. "Report on Stamping Documents," 1901, turned up by Robson Lowe, should prove of interest to collectors of embossed stamps and completes the issue.

# United States Revenues

I offer the interested collector his choice from the most important stock of United States Revenue Stamps in the hands of any professional philatelist—a stock that has been building for over twenty years. I have everything from the most common stamps to great rarities, many of them from the Morton Dean Joyce Collection.

**Proofs & Essays:** a comprehensive selection including many rarities and a major portion of the Morton Dean Joyce Collection of Private Die Proprietary Models, Essays and Proofs.

**Stamps:** the most extensive holding available anywhere including many rarities in First Issue Multiples, Playing Cards, Silver Tax, Embossed and Stamped Paper, and the largest selection of Match & Medicine stamps, in addition to many other items. All dated documentaries are currently in stock.

**Taxpays:** the extensive holding including rare Beer stamps, proofs & essays, and many items from the Joyce Collection.

**State Revenues:** the finest selection available anywhere including rare early California issues and Louisiana Lottery stamps complete.

**Possessions Revenues:** an extensive stock including U.S. Occupation of Veracruz, Mexico.

May I have the pleasure of receiving your want list? I have pleased many over the years and know I can please you. Prices based on rarity and condition, but fair throughout.

I also desire to purchase choice pieces and collections.
