President's Letter

Ronald E. Lesher, ARA President

There is much to report from our annual convention at TEXPEX, more than I can possibly cover in this letter. It was a pleasure to see that our founder, Bert Hubbard, member number one, was able to be with us. I was personally pleased to see a number of members who I did not previously know and to talk with Ed Kettenbrink. I first met Ed over twenty years ago at a State Revenue Society meeting in Lincoln, Nebraska. We've enriched each other's collections through many trades of state revenue material which each of us had found. In recent years we have drifted away from trading, but our correspondence has continued over the phone wires. It is great to welcome Ed back into the ARA.

The various presentations were attended by small numbers of people, although the ensuing questions and discussion were lively in all the sessions. My own presentation on "What are revenues?" was attended by nearly 20. One aspect of the evolving definition of revenues, "they show payment of a fee for a government service," leads to the conclusion that postage stamps are really a subset of revenue stamps. Try selling that idea to our friends in the postage side of the hobby! However, the reason for raising the issue of the definition of revenues again is a decision made (I believe by the jury) at the the show

to consider the exhibit of British Empire War Tax Stamps and Covers as a postage exhibit and, therefore, ineligible for one of the ARA show medals. I'd love to hear what others think of excluding the war tax stamps (and I would assume the various postal fiscals of the Latin countries, too) from the field of rev-

by Gregg Greenwald, ARA

About four years ago, I decided to expand my revenue stamp collecting interests into the area of the Firearms Transfer Tax stamps (prefex "RY" in the Scott catalogs). After purchasing my first RY1 several years ago, I continued to look for the other stamps of the section in various stamp auctions. In the Morton Dean Joyce auction of revenues, I saw that there was a block of 15 of RY1 (Figure 1) (Kelleher, 1991). After studying the photo of the lot, I noticed that there was something different about the stamps with regard to the overprint as one compares an overprint on a stamp in the far left or far right column of the block to an overprint on a stamp in the middle column of the block.

Out of curiosity, I checked the overprint on the RY1 in my possession (Figure 2) against the overprint found in the Scott catalog. They appeared to match. Yet, not all of the overprints on the stamps from the block in the Joyce auction matched the overprint shown in the Scott catalog. After a few minutes of study, I determined that the word "FIRE-ARMS" in the overprint was shifted upward from column to column of the block while the words "NATIONAL" and "ACT" stayed fixed in relation to each other. I then began a search for a stamp with "FIREARMS" shifted like the stamps from the center column of the Joyce block.

Figure 3 shows the most dramatic shift that I have come across. By comparing the placement of the vertical bar of the "F" in "FIREARMS" with the "N" of "NATIONAL" in Figures 2 and 3, you can see that the "F" is outside the left leg of the "N" in Figure 2 while the "F" has been shifted inside the left leg of the "N" in Figure 3.

How and why did this happen? Also, why is the line with "FIREARMS" the only part of the overprint which shifts, while "NATIONAL" and "ACT" stay in the same position relative to each other? As can be seen in the stamps from the Joyce block, the words of the overprint were shifted on stamps in dif-

1995 ARA Membership Directory

The ARA Board of Directors decided to publish a new membership directory this fall. If you requested your address not be published before the 1990 directory was printed or on your membership application if you joined the ARA since 1990, it will not be published in the new directory. The purpose of the directory is to allow other members to contact you. If you do not wish your home address published, please furnish us with an alternative mailing address such as a post office box number or a work address where mail can reach you.

In the 1990 directory we made publication of a telephone number an option. In the 1995 directory we will also be adding facsimile telephone numbers and e-mail (Internet) addresses as an option. If you have a fax number or an Internet address we would encourage you to have this included in the 1995 directory—even if your mailing is not

included—dealers especially.

Another important part of the directory is your revenue stamp collecting interests. Again we will be using the interests you gave for either a previous directory or when you joined. Since your collecting interests often change, you might wish to review your interests in the last directory or in the Secretary's Report when you joined. If your interests have changed or if we have no collecting interests on file, you can update your listing by writing to: Editor, The American Revenuer, 1995 Directory, Rockford, Iowa 50468-0056. All collecting interests will be made to conform to the list that appears on the ARA application (so that the Editor's computer can sort them). This list is also on this issue's mailing wrapper which contains a form for updating your membership directory listing. Your prompt reply will insure a timely and accurate 1995 ARA Membership Directory.

U.S. sales circuit news

A recent search of the archives of the previous manager of the ARA U.S. Sales Circuit has unveiled some old salesbooks containing hunting and fishing revenues from the states of Virginia and West Virginia. The books were submitted by an unknown member in 1990. If these belong to you, contact me with instructions on their disposition.

I have regrettably been forced to drop a

small handful of participants from the program lately for failure to comply with the rules. Principally, these few have used certified mail to forward circuits, despite the statements in every salesbook routing sheet and individual report sheet that the circuits must be mailed via insured parcel post, insured for \$100. Holograms come to revenues

by Terence Hines, ARA

The use of holograms on postage stamps has become rather popular over the past sev-

eral years. To my knowledge, however, no instance of the use of hologram on a revenue stamp has been reported until now. The form illustrated here is from Indonesia and bears a Rp. 5000.- revenue stamp with a hologram as the central feature of the design. The holographic design features the crest of some government entity. Unfortunately, it is impossible to tell whether the form and the stamp are issued by some local authority or a national authority. Only a very few of the words on the stamp and form appear in the standard Indonesian/English dictionaries; a sad comment on the low quality of these works. In any event, I would guess that this is some sort of regional issue and my informant in Indonesia tells me that this is some sort of form having to do with car or motorcycle licensing. In addition to the illustrated Rp. 5000 value, which is in pink with black lettering, there is a Rp. 2500 value in green. Perhaps other values exist as well. The stamps make reference to a 1985 and 1991 perda or civil law so perhaps these stamps were first issued as long ago as 1991.

New discoveries in Zanzibar revenues

by Regis Hoffman, ARA

Introduction

Among both postage stamp collectors and revenue stamp collectors, Zanzibar is somewhat of a backwater. Few references exist to aid the collector of these stamps; the primary sources of information being the Barefoot and Hall *British Commonwealth Revenues* catalog (1990) and two more recent articles that describe several uncataloged Zanzibar revenue stamps (Hoffman, 1993a and Kalp, 1994). Since then, additional discoveries

The duties of the consular agents included issuing passports and performing marriages. The fee paid to the consular agent is usually indicated by affixing stamps to the legal document (Peetoom, 1994).

In addition to its importance as a revenue document, the certificate also has historical significance. Although the coastal city of

have been made in both Zanzibar revenue stamps and fiscal cancels. this article illustrates a variety of Zanzibar revenue stamps that are either previously unlisted or seen so rarely as to warrant a picture, and provides a brief introduction to fiscal cancels on Zanzibar postage stamps.

Great Britain used in Zanzibar

The first recorded use of a revenue stamp in Zanzibar is a 2/6 Great Britain Consular Service adhesive attached to a marriage certificate bearing a cancel reading "BRITISH AGENCY & CONSULATE GENERAL / ZANZIBAR." The certificate records the marriage of Edmund Alexander Fitch (a missionary) to Alice Mary Clowes on December 6, 1892. It is signed by Basil S. Care, His

Mombasa is geographically part of the country of Kenya in East Africa, politically it was under the governance of Zanzibar. At the time, the Sultan of Zanzibar retained control of a ten mile-wide strip of land on the East African coast including Mombasa. Hence the use of a Zanzibar Consular agency cancel illustrates that Mombasa was under the dominion of the Sultan of Zanzibar for legal matters.

"On India" specimens

The first postage stamps of Zanzibar were Indian stamps overprinted "ZANZIBAR" (and are referred to as the "On India" series). Similarly, Indian Special Adhesive revenue stamps were overprinted "ZANZIBAR." these early revenue stamps exist in specimen form. Figure 3 shows an example additionally overprinted "Cancelled,"—ex-De La Rue archives. Values known with the "CANCELLED" overprint include the 1, 4, 8 and 12 anna, and the 1, 2, 3, 4, 5, 10, 30 and 40 rupee.

"On India" provisional surcharges

The Barefoot and Hall British Commonwealth Revenue catalog lists several pen pro-

visional surcharges of the "On India" series of revenue stamps, but does not illustrate any examples. Figure 4 indicates how they were created. In this case, the four rupee denomination was changed to a four anna value with the stroke of a pen changing each letter "R" to the letter "a," converting a rupee value into an anna value.

Figure 5. Monogram postage stamp with inverted overprint.

Monogram revenue overprints

The 1 anna value of the 1904 Monogram issue of Zanzibar is known with the overprint inverted (see Figure 5). Curiously, I have not seen this value with a normal overprint. Presumably it exists.

Government Savings Bank

A Zanzibar postage stamp (Stanley Gibbons 302) has been reported with an overprint reading "GOVT SAVINGS BANK."

Modern revenues

In June 1966 a set of 14 postage stamps was released for use in Zanzibar. This set is known locally handstamped for revenue use. For the low catalog value of these stamps,

they are incredibly difficult to find. Due to their scarcity, the 10 cent value is illustrated in Figure 6; in addition the 20 cent value is shown. this denomination was previously not known to have the revenue handstamp.

A new series of Zanzibar revenue stamps has recently been recorded. A set of ten values (ranging from 10c to

10.-) bearing the inscription "PATO" and featuring five different scenes is known in the British Library philatelic collection. the first example recorded outside this collection is shown in Figure 7. the purpose of these stamps is presently unknown.

Fiscal cancels

Several new types of fiscal cancels are now recorded. The first appears on a dramatic full document dated August 1, 1914, bearing a two rupee and a six cent postage stamp (Figure 8). they are fiscally canceled with a cogwheel marking reading "REGISTRATION OFFICE / WETI / PEMBA."

paying taxes on commercial transactions would be common from Pemba, while letters would more likely emanate from Zanzibar.

Fiscal cancellations on British Commonwealth stamps are noted for their variety (Hoffman, 1993b). An unusual example of clerical expediency is shown in Figure 10 where a handstamp reading "AIR-MAIL" was used to fiscally

Figure 7. "PATO" revenue stamp.

Weti is a town on the island of Pemba. Pemba plus the island of Zanzibar comprise the two main islands of the nation of Zanzibar. Curiously, Zanzibar fiscal cancels from the island of Pemba are more common than those from the island of Zanzibar. This is a direct opposite to postal cancels where Pemba island cancels are highly prized due to their scarcity. I suspect that this is because Pemba was more important as an agricultural center while Zanzibar was the political and social center. Thus, documents

Fiscal cancels were often employed by banks and other financial institutions to indicate payment of taxes on checks and legal documents. Figure 11 illustrates an example of an oval "BANK OF INDIA, LTD. / ZANZIBAR" fiscal cancel.

Another exhibit, Ryuku Currency Conversion Issues of 1958, by another ARA member who was masquerading under the name of Gary Bruce, bears mention for the inclusion of a comprehensive showing of Ryuku revenues from this same period.

Also present at the show was the largest physical gathering of ARA board members

that I can recall. Six of us, Eric Jackson, Ken Trettin, Scott Troutman, Richard Riley and I met on Friday night following the barbecue. A seventh board member, Brian Bleckwenn, while unable to able to attend the meeting on Friday night, was also present during the show. The results of the discussions by the board on Friday night will be the subject of my upcoming letters.

A big thank you to all the exhibitors, the speakers and presenters, the ARA member dealers, and to all the folks at TEXPEX, who made the show a big success.

Next year's ARA convention will be held at NAPEX in June. Plan now to attend. It is not too early to plan to exhibit.

New plate varieties of the 1¢ Proprietary, 2¢ USIR and \$2 Conveyance stamps of the first issue

by Edwin J. Andrews, ARA

Over the years myriads of first issue varieties have been reported by various authors. Most notable was Anthony Giacomelli in his "Plate Varieties" series and George Black in his compilation of C.W. Bedford's "Shift Hunter Letters" (Black 1983). Dick Sheaff also documented many first issue varieties in his inspection of The Smithsonian proof sheets (Sheaff 1981a). Riley and Clague (1988) provided an analysis of double transfers on first issue stamps and reasoned that their frequency was largely due to the haste with which early dies were produced. I report here four varieties which to my knowledge have not been previously documented.

1¢ Proprietary plate crack

Two examples of an identical plate crack in the right side of the medallion frame and extending to the "cent" tablet are shown in Figures 1 and 2. Figure 1 is an early version of the crack as evidenced by its narrow width. As can be seen the stamp is manuscript canceled "D & S / Sept / 1864". The stamp with the crack in Figure 2 is uncanceled but the crack is much wider suggesting it is older. The paper in both examples is medium and the stamp colors are both dark reds. Unfortunately there are no telling plate marks in either example to suggest the exact plate position of the crack.

Figure 1. Early version of 1¢ Proprietary crack on the upper right stamp; close-up in inset above.

1¢ Proprietary double transfer

Figure 3 shows a block of four with a 1864 manuscript cancel. The bottom right stamp is enlarged in Figure 4. It has a double transfer in the lower scroll. The shift is to the right and down leaving impressions most notably in the letters E, T and A of "PROPRIETARY." The lower right numeral has an ink flaw which does not appear related to the shift. The lower right perforations of the stamp bear the top of the Butler & Carpenter margin imprint thus locating the stamp at plate position 203.

Figure 3. (Upper left) Block of four 1¢ Proprietary with a double transfer in the bottom right stamp.

Figure 4. (Left) A portion of the lower right stamp in Figure 3 showing the double transfer in the ETA of PROPRIETARY.

Figure 5. (Below left) The 1¢ Proprietary 11 variety described by Scheaff.

Figure 6. (Below) A 22 variety on a 2¢ USIR caused by a fingerprint.

2¢ USIR "22" fingerprint offset

Figure 5 illustrates the well documented 1¢ Proprietary "11" variety (Sheaff 1980, 1981b). This variety has been reported in a number of places on the 1¢ Proprietary. Following detailed analysis and review of a similar variety on the 1¢ Express stamp, Sheaff concluded that this was a "kiss" impression created by fingerprint offset. Figure 6 illustrates the same offset of the upper left numeral of a 2¢ USIR stamp. While this offset is somewhat smudged, the numeral "2" and portions of its oval are clearly seen in the left stamp margin. The stamp has a faint rose hand stamped cancel which gives no legible information. There are no plate marks to suggest the plate position of the stamp.

\$2 Conveyance double transfer

Figure 7 illustrates an imperforate \$2 Conveyance stamp manuscript canceled "June 24/64" and a reverse "PAID AT / WEBSTER BANK" embossed cancel. The "D" of "PAID" cut through the stamp resulting in the hole. The "TWO" of the upper oval arc has a clear double transfer shifted to the right and slightly down. No other portion of the stamp is doubled although there are a number of minor cuts suggesting a reentered position. In particular the flourishes of the upper right numeral seem to have been strengthened and the lower margin of the "UNITED STATES" tablet has several cuts. There are no distinguishing marks to suggest the plate position of the stamp.

demnity in the event of a loss. The required insurance costs only \$1.60; certified mail \$1.10. So, these members have risked the loss of several thousand dollars worth of material, and their circuit privileges, to save four bits.

Another reason for dropping members from the program is overdue circuits. Some of the delays have been pronounced. Again, members should retain a circuit no longer than seven days, or pay a 50¢ per day late fine. Many participants are managing a turnaround time of just one or two days, which is certainly encouraged, as it provides them with the next circuit selection that much sooner. So do yourself and your fellow members a favor; forward circuits promptly.

I find that it is time to institute a vacation notification policy. Numerous circuits have been delayed (one for almost three months) because they arrived while a member was on vacation or leave. Therefore, to help preclude this, henceforth I must be notified at least two weeks in advance of scheduled vacations or other absences from home that will exceed fourteen days. This notification will allow me to send a bypass notice to the member preceding you on the circuit. Thus, you will retain your place on the circuit, be assured of receiving the next one and keep the circuit on

schedule.

From time to time, I will publish lists of those categories of U.S. revenue circuits which are needed, as well as those which are overstocked. We need the following categories: Scott Listed:RA-1, 2, 3 issues documentary only; RB-1, 2, 3 issues proprietary only; 98-1898 issues; 98 CANC-cancels of 1898 issues; RC-future delivery and stock transfer; RE—wines, distilled spirits excise, rectification; B-beer; RF-playing cards and silver tax; RJA—cigarette tubes, potato tax, tobacco sale, narcotics; RK-consular service, customs fee, motor vehicle use, boating, firearms; RW—hunting permit (duck); MISC—telegraph, local post, post office seals, misc. Scott listed. Non-Scott Listed: L—liquor strips; ST—special tax stamps; T tobacco, cigarette, cigar, snuff; TP-taxpaids; MX—miscellany: lock seals, hygrometer labels, college stamps, express franks, fermented fruit juice, etc.

Please withhold material in the following categories until further notice: SR—state revenues; SRF—state revenues:fish and game.

Thanks for your letter regarding my ARA membership status. I have decided not to renew my membership for the following reasons:

I would like to resign from the ARA. Since I am now past 86 years of age, somewhat old and decrepit, I somehow lost interest in stamp collecting among other interests.

The January-March issue of *The Check Collector* leads with "A Listing of Checks and Drafts Bearing the 2¢ Bank Check Orange First Printing" by Michael Mahler. While this stamp is very common, even on documents, it was first printed for a period of 24 days. This was followed by a period of about 22 months of blue stamps followed by orange again for about 37 months. This means that orange 2¢ Bank Check stamps of the U.S. first issue used during that initial period are quite rare. Mahler does his usual superb job of describing and analyzing these stamps.

Other areas covered in this issue are

have been written long ago in book form.

Blake Nelson, ARA 4986

2. While I enjoy reading about U.S. topics, the foreign coverage suffers by comparison. Also, the foreign sales circuit seems moribund.

That is my personal critique. However, I believe that *The American Revenuer* does provide superb coverage of U.S. items, it is professionally edited and produced and I also applaud your efforts as typified by your letter to provide "outreach" services.

Timothy Ryan, ARA 1462

Believe me, you have not failed to meet my interests; in fact, you and the ARA have done an excellent job in keeping my interests alive.

Thank you again for everything. Eli Crupain, ARA 1034

The Check Collector—January-March 1995

"Uncashed Checks," "Undated Checks,"
"Some Before and Some After" (Downer,
Bemis & Co. "Brewers & Maltsters") and a
variety of interesting checks in various short
articles.

The Check Collector is published by The American Society of Check Collectors, Inc. It is issued four times per year and is available only by membership in the society. Dues are \$10 per year and information about membership may be obtained from the Secretary, Coleman Leifer, Box 577, Garrett Park, MD 20896.

State Revenue Newsletter—July-October and November-December 1994

Due in large part to demands of his job and a job necessitated move half way across the country, *State Revenue Newsletter* editor Peter Martin is forced to play the tough game of catch-up. One issue quickly followed the other; the *SRS Catalog of Turkey Stamps*, which was to be distributed with the July-October issue was not ready. *But*, both issues do contain a wide variety of interesting articles and short items.

Terence Hines illustrates a Massachusetts deet tax stamp error, Edward Miles shows early vehicle tax tags and chauffer's badges, and Ivan Pfalser shows usage of an Oklahoma motor vehicle tax stamp on a certificate of title in the July-October issue. The November-December issue features an SRS Mail Auction. Although this sale is closed, being able to participate in these sales makes membership in the State Revenue Society well worth the annual \$10 membership. Additionally, both issues contain a significant amount of society related news items.

Coming in the SRS Newsletter will be the SRS Turkey Catalog which was held up due (C&E Forum—continued on page 173)

Duck Tracks—1st quarter 1995

The first quarter 1995 issue of Duck Tracks features articles about Argentina's first "Ecostamp," a conservation stamp with uses other than hunting; a look at Iowa's 1986-1989 collector type waterfowl stamps; a biography of NDSCS board member William Webster; a review of the 1995 catalog listing of state duck stamps in the Scott 1995 Specialized Catalogue of the United States; an assessment of the impact on the federal duck stamp program as result of budget reductions; the first waterfowl stamp issued by Venezuela; and, a 1994 duck stamp poll modeled after the annual Linn's and Stamp Collector polls. All of the 1994 state waterfowl stamps are illustrated.

Duck Tracks is published quarterly by the National Duck Stamp Collectors Society and is edited by Peter Martin. Annual dues in the society are \$20; more information can be obtained from NDSCS Secretary Anthony Monico, Box 43, Harleysville, PA 19438.

Announcing a new book

That New Metallic Currency Civil War Encased Stamps The Issuers and Their Times

Comprising a History, Merchant Chronicle, Catalog, Auction Summary and Counterfeit Guide to John Gault's Patent Mineral and Metal Store Card Emergency Money of 1862

By Fred L. Reed III, NLG

Hardbound, 551 pages, over 800 illustrations, comparative value guide based on over 8,750 appearances at auction, 50 page bibliography, index, an in-depth study of Encased Postage Stamps and the companies that made use of them during the Civil War and an entertaining commentary on the time.

This book is of interest to all numismatists, philatelists (especially collectors of private die stamps), and students of the Civil War and American economic history.

Price, \$60

plus \$2 shipping in the United States, PA residents add 6% sales tax, \$5 to foreign addresses (by sea). We expect to start shipping about July 15.
