# Land at bargain prices

by W. H. Waggoner, ARA

Careful readers of newspapers—especially papers published in county seats because they are more likely to be the official local publisher of record—are accustomed to learning many details of local history from the fine print contained in the paper's regular sections. The "Police Reports" often reveal a great deal about the social habits of one's neighbors, for example, while the "Hospital News" and "Obituary" columns record their comings and goings. Of particular interest to revenue-stamp collectors, however, are some of the actions described in the section containing the "Legal Notices." (Newspapers

dating from periods when stamp-taxes were more commonplace are especially fruitful sources.)

I have never seen the newspaper accounts of the seizure for unpaid taxes of the properties described in the illustrated document, but I am certain that such reports were published in some Wisconsin paper at the time. That is the sort of legal action that requires the periodic publication of public notices. While the details may vary from place to place (note that the pictured form states that the properties were "sold to [the] county"), all governmental units in the taxing business make provisions for dealing with unpaid

property taxes and for restoring the property involved to the active tax rolls. Public resale—often by auction—was (and is) a common method of doing this.

Marathon County is the largest county in land area in the state, located almost deadcenter, on the Wisconsin River. Wausau is the county seat. Five lots, each described in terms of a surveyor's plat, are being redeemed by the Cantwells at a cost of \$5.59 + .17 = \$5.76 per tract, or a total payment of \$28.80 equal to the unpaid 1860 taxes. The document bears a single, blue, 10-cents *Certificate*, First Issue revenue stamp (Scott R33c), manuscript cancelled by Deputy Clerk Babcock, May 21, 1863.

Rafael Pinto from Costa Rica was our guest speaker at the Cal-Rev meeting at the Sacramento Stamp show on November 4, 2001. His topic was about Costa Rica and Costa Rican revenues. His country of 4 million people lies between the Pacific and the Atlantic Oceans with beaches on both coasts. He lives in the Capitol City of San Jose and presented several postcards with scenic views such as the National Theater, Arenal Volcano (its glow can be seen from his home in the evening) and brightly colored oxcarts.

He spoke about "Coffee Pledges" which were a way for farmers to borrow money for their farming operation. The loan was secured by pledging a part of their coffee crop to the owners of the coffee processing plants. Rafael showed one document dated February 18, 1870, a few days prior to the use of adhesive revenues in Costa Rica. Costa Rican revenues were put into use on March 1, 1870. On the reverse side of this document were two time extensions for the Pledge (loan), each having a five cents revenue stamp from the first issue. At the conclusion of his talk Rafael gave everyone attending a gift of several Costa Rican revenue stamps.

Cal-Rev held its December meeting in Redwood City at PENPEX with 16 attendees. A new slate of officers was elected for the next year. They are: President, Joe Ross, Vice-President, Bill Barr and Secretary/ Treasurer Jay Lewis.

Our meeting was interrupted by the President of The Council of Northern California

In the original 1862 federal tax statute, this small document would be classed as a "Certificate of any other description" on which the appropriate duty would be 10 cents, beginning October first of that year. But that tax rate was reduced the following year. As of March 3, 1863, the proper tax was 5 cents. As my document is dated May 21, 1863, the tax was overpaid by half. One can only assume that news of the taxrate change was slow in reaching Wisconsin, a quite believable circumstance. In light of the commonlyaccepted cutoff date of June 30, 1863, however, it would probably qualify as an early matching, if somewhat belated, usage.

## Cal-Rev November and December meetings

Philatelic Societies, Leonard Holmsten. He made a special presentation of the Chaloner Award to one of the Cal-Rev members. The Chaloner Award is the highest award bestowed by the Council and given annually to the outstanding philatelist in Northern California. The recipient of this years award was Don Green. We all know Don's efforts at various shows, his international exhibit of Match and Medicine revenues and his help with the Sunnyvale Western Philatelic Library. Congratulations Don!

The guest speaker was none other than Ken Preuss, long time revenuer, past editor of State Revenue Newsletter etc. Ken's program was on the California Agricultural Proration Stamps. This was an adjustment act in the 1930s that used these stamps as a means to regulate farmers production with growers being limited to specified amounts of product. The rate was initially 1 cent/crate of fresh produce delivered in California. The stamps were pasted or nailed to the crates. Not covered by these proration agreements was produce for the canneries. These were used for sweet potatoes, tomatoes and concord grapes. Ken went on to explain about the Prorate Commission and its two Zones, Northern and Southern. It appears that this was phased out in the 1940s.

The meeting adjourned after a short show and tell.

Information about future meetings may be obtained by contacting Joe Ross by email at: <calrevjoe@aol.com>

# A look at the e-literature

In keeping with our policy of now and then commenting on new publications dealing with non-commercial aspects of revenue stamp collecting it seems appropriate to do likewise with respect to comparable electronic publications whose numbers are appearing on the internet and on CD-ROMs with increasing frequency. Hardbound material will be with us far into the future and knowledge of its message will become commonly known. At present it is not clear about some electronic publications aside from CD-ROMs, and permanence of that part of the record is likely to be more ephemeral and subject to editorial amendment.

Let me comment here about a couple of sites on the internet I have found of interest and invite the reader to send notes on others to the editor.

### Pages for the beginner and then some

<www.ericjackson.com> Scroll down to Site Navigation and click on Ron's Place for eight short essays by Ron Lesher defining what we do. Continue and click on Links for two essays by Bob Hohertz, one on Two Cent revenue Stamped Paper and on Taxpaids-Non-Scott Listed US Revenues: The

Civil War Designs. Both are illustrated in color, some illustrations in links. Also click on Jackson's U.S. Revenue Stamps Hall of Fame for accounts including illustrations of fabulous US items. This was one of the earliest and award winning web sites about revenues and a good place to start. I expect most of you have already been here. I asked Eric sometime ago about permanence of these articles on his site and he said he did not know/have any plans. A word to the wise. You can

print off-copies if you keep reference files of revenue material.

#### Ducks and more ducks

<www.shduck.com> This site is maintained by the Sam Houston Duck Co., i.e. Bob Dumaine and associates. It contains a year's worth of Dumaine's columns which have appeared in *Linn's Weekly* 

Stamp News relative to hunting license tax stamps. (See also <www.linns.com> below.) The site also contains some quarterly issues of The Duck Report, A Journal for Duck Stamp Collectors. The Duck Report, a quarterly house organ, available to his customers for over a decade, is not available from the American Philatelic Research Library, though a run of at least some numbers will be available from the ARA library. Material found at his site is free to visitors who wish to make copies. Informative and slick advertising by both Dumaine and Jackson.

Dumaine's articles in Linn's for April 2000 through October 2001 are also available at <www.filbert.com/stamplistopedia/>. Click on Back of Book, then click on Duck Stamps, then click on Linn's Duck Stamp Articles. If you click on Michael Jaffe, scroll down and click on Indian Reservation Stamp Article; you find an article on same.

### More United States

Exploring <www.linns.com> again we find access in Linn's archives to the serial columns of Michael Morrissey. Enter Morrissey

in the Search Linns Box and you are on your way. Prints of these articles have been collected as they have appeared in Linn's and are deposited in the ARA library. You can print copies for your own reference files if desired

from Linn's site. If you enter Friedberg you get a list of other good stuff which ran in Linn's.

### 19th Century documentary multiples

Daniel Curtis <www.thecurtiscollection. com/stamps.asp> provides an illustrated census in progress of this group of U.S. revenues to update earlier lists by George Turner (e.g.

see: Revenue Unit Columns from the American Philatelist; King, Bacharach and Turner, eds. Quarterman Publications, Laurence, MA, 1981, p. 188-9). The visitor to the site, turned up by Google, is urged to contribute to the Curtis update. You will also find this at <www.revenuer.org> in Links.

### Paraguay revenue catalog

Joseph Hahn and David Thomas have compiled a stunning, though unpriced, catalog for us of 112 illustrated pages covering

the issues from 1883 through 1993. Google will find it at: <www.geocities. com/~joehahn/Revenues/index> and click on Go to Revenue Catalog. A copy I printed off October 2001 will be available in the ARA library in 2002. I find printout of a catalog easier to use than one on screen and print out of this opus provides ample space for annotations of a specialist.

### Worldwide playing card tax stamps

Peter Endebrach has compiled what I would consider a "must have" illustrated bibliography dealing with the subject. It is drawn particularly from the literature of

playing card collectors and includes references to the tax laws related to the subject. The information is sorted by geographic area. Go to <a href="https://www.filbert.com/stamplistopedia/">www.filbert.com/stamplistopedia/</a>. Click on Back of the Book, scroll down to Revenues and click on Tax Stamps on Playing Cards. At the same site you will find Bruce Baryla expounding on the Civil War Sun Picture Tax and Uncle Sam's General Store—Stamped Taxed Products Since 1862.

If you have been searching for information on Indonesian Revenues or Swedish Radio and TV License Stamps, be right at home at the ARA web site <www.revenuer.org> and check Links. The link to the Check Collector site has some pretty pictures which include revenue stamped paper.

I am sure that there is much more on revenue stamps, aside from sales on the internet, so again, send a note on your discoveries to Ken Trettin, Editor The American Revenuer, Box 56, Rockford, IA 5048-0056.

Richard F. Riley, October 2001

[These URLs were checked again on December 23 shortly before this issue went to the printer. From the time that the article was written in October and then there were some changes. KT]

# State Revenue News—4th quarter 2001

A very wide variety of other subjects is also covered in this issue including Pennsylvania inperforate stock transfer stamps, California motor vehicle insect inspection, New York literature lottery, North Carolina gasoline and kerosene, Utah beer essay, Texas cigarette counterfeit, California feed tags and fish and game information from Utah, New York and West Virginia.

Catalog pages are provided for Minnesota Christmas tree tags, Oklahoma vending machine stamps and Wisconsin oleomargarine stamps.

State Revenue News is published quarterly by The State Revenue Society. Membership information is available from SRS Secretary Kent Gray, Box 9726, Dyess AFB, TX 79607 <staterevs@home.com>. Annual dues are \$12 and include a subscription.

The fourth quarter 2001 issue of *State Revenue News* takes an in depth look at vending and inspection seals. Vending machines as well as various types of scales and metering devices are an inescapable part of our life. Local and state governments have long taken the responsibility of insuring that these devices measure accurately. Various types of stamps and seals are used by city, county and state governments to indicate that these devices have been inspected for accuracy or sometimes in the case of vending machines, have paid a tax to allow them to operate.

Ten different articles look at these stamps from across the country and for various uses from scales, to cigarette machines to video games. They are from state, county and municipal governments.

# The Maryland perfins identification mystery: a partial solution

### by Ronald Lesher, ARA

The perfins identification problem on the Maryland wine and liquor stamps of the 1940s and 1950s (beginning with Hubbard L35 and W11) is progressing slowly with the application of knowledge of (1) the state's practice of assigning prefix letters to the license numbers of manufacturers and wholesalers and (2) the early Maryland wine and liquor meter strips.

An August 2001 visit to the License and

Table I		
Denomination	Date	Meter Number
\$.06 7/8 \$.13 3/4 \$.22 \$.27 1/2 \$.55 \$1.10	May 31, 1933 May 31, 1933 June 5, 1934 May 31, 1933 May 31, 1933 May 31, 1933	100 100 770 100 100

Maryland liquor meter showing the identification of the company name and the license number.

Permit Section of the Maryland Alcohol and Tobacco Tax Unit in Annapolis solved the prefix letter problem. D is assigned to the County Dispensaries who operate wine and liquor sales monopolies in their respective counties. The M prefix letter is assigned to manufacturers, a category that includes both distillers and rectifiers and the prefix letter W is assigned to wholesalers. That elucidates the meaning of the three letters that have been reported on perfins used to cancel the Maryland wine and liquor stamps.

The License and Permit Section has lists of current license holders, but none of the numbers seem to be in the range of numbers reported as perfins. Fortunately, we have another source of information closer in time to the contemporary use of the perfins. That source is the early long wine (Hubbard W1 – 4) and liquor (Hubbard L1–22) meter strips that had both the license number and the user's name printed on them.

### County dispensaries

According to the state records D1 was assigned to Montgomery County and D2 was

assigned to Wicomico County. Both have been recorded on Maryland liquor stamps. The identification of D1 was also noted on an early 22¢ (1/5 gallon) meter strip in the author's collection which was canceled on

June 24, 1936. There is an additional anomaly on the license number D1 discovered on the long liquor meter strips. Montgomery County Dispensary is seen on meter strips with meter number 166 and 761. But

Maryland Wine and Liquor excise tax stamps and the D and W perfin designs with a number on the second line.

# TREASURY DEPARTMENT ANNAPOLIS MD.

Table I shows the values, dates, and meter numbers have been reported with the user identified as the Comptroller of the Treasury.

The meter strips from meter number 100 have full gum and appear to have never placed on bottles. It seems likely that they are trial impressions run in the comptroller's office, perhaps to demonstrate their use to the state. The fact that most are meter number 100, probably the lowest number to be assigned to the state, tends to support that conclusion. May 31, 1933, is the earliest date

reported on the meters, well in advance of the end of Prohibition, December 5, 1933, when public liquor sales could begin. The conclusion that these are sample, trial impressions is further supported by the next earliest reported date of use, December 5, 1933.

### Manufacturers

Since the numbers are assigned in seriatim upon application for a state license, it seems quite likely that some of the M numbers will never be found in the perfin reports. Companies may have ceased in existence before the use of stamps and perfins. The Table II identifies some of the early license holders based on the early Maryland long meter strips. The type of meter strip (wine or liquor) is identified and also whether the perfin has been reported and on what types of stamp the perfin has been reported. Eighteen manufacturer's perfins have been reported; of those, only four user identifications

have been reported to date.

### Wholesalers

Twenty-one wholesaler perfins have been reported; of those, only four of the users have been identified (see Table III).

Two of the wholesaler perfins (W39 and W59) are known in both a narrow and wide format. This is an area for some further research. It would seem that one could determine which format came first with a detailed reporting of the stamps on which they occur.

There is much still to be accomplished. On

Maryland meter with Comptroller of the Treasury identification, perhaps a trial use.

A Maryland wine meter, MD W4, with the identification of Wholesaler Number 5. Obviously both the distilled spirits and wine meters have the potential for yielding identifications.

only a small portion of the perfins have we been able to conclusively identify the user. Perhaps of equal interest is the fact that seven identified manufacturers (or rectifiers) have been confirmed, although perfins from these users have not yet been reported. It is possible that these perfin numbers will never be reported if the company no longer was in business after 1940.

One of the collaborators on this project (Art Mongan) has diligently been recording

the information on the bottles on which some of these stamps canceled with perfins were found. One might think that positive identifications of the user would be simple in such cases. One example should suffice to show that the identification is a bit more complicated. W14 has clearly been identified as Peirce & Hebner, Inc. from an early liquor meter strip. Stamps with the W14 perfin have been found on bottles with the following identifications: Kronheim, importer, Wash-

ington, D.C.; Canada Dry, New York; and National Distillers, importer, Baltimore. It would appear that Peirce & Hebner was a Maryland wholesaler who handled a variety of products that were imported by other firms.

The author greatly acknowledges the assistance of Chuck Spaulding and Art Mongan, the two perfin collectors who reported the list of perfins and kept pressing for someone to identify the meaning of the prefix letters.

# ARA Awards Chairman's report

Revenuers did very well at Chicagopex '01. Donald E. Green's well known exhibit *Patent Medicine Companies of the Civil War and Reconstruction Era* was in the Court of Honor where it was awarded an Honorary Gold Medal.

Outstanding was Edward Tricomi's *Playing Card Revenues* taking the show Reserve Grand for U.S., the ARA's Carolyn E. Cunliffe Award (most popular revenue exhibit), the ARA Grand Award, a Chicagopex Gold and an ARA Gold.

Another outstanding exhibit was David Torre's U.S. Fish and Game Stamps, 1960-1979 winning the Chicago Philatelic Society Research Award, the APS Medal of Excellence for Material 1940-1980, a Chicagopex Gold and an ARA Gold.

Kenneth Pruess's *Colorado Revenue Stamps* took the AAPE Gold Award of Honor, a Chicagopex Vermeil and an ARA Gold.

Kenneth Trettin's *The Corner Drug* received a Chicagopex Gold and an ARA Gold.

Ronald Lesher's *The Two Cent Revenue* Stamped Paper of the U.S. 1865-1883 received a Chicagopex Gold and an ARA Gold.

Frank L. Sente's *Usage of the U.S. Battle-ship Revenues, The Documentary Issues* received a Chicagopex Gold and an ARA Gold.

David Sohn's Silver Tax Stamps of the United States received a Chicagopex Gold and an ARA Gold.

Martin Cohen's Revenues of the Palestine Mandate, 1918-1948 received a Chicagopex Vermeil and an ARA Gold.

In the literature competition *The American Revenuer (Volume 54, 2000)* received a Chicagopex Gold. Editor Kenneth Trettin received a Special Award for Literature—for "the range and depth of the articles and the wide variety of authors."

In the Chicago Philatelic Society Member Showcase David Wenzelman exhibited a one frame Revenues—Usage on Documents.

Congratulations to all of our fine revenue exhibitors. I would like to encourage all revenuers to participate in local and national shows. Exhibiting is the showcase of our hobby.

# Multiple stamps paid receipt taxes

by W. H. Waggoner, ARA

Collectors of U.S. revenue stamps are familiar with the stamp tax that this country imposed upon receipts from August 1864 to October 1870, a period of over six years. They may not be aware of the similar stamp tax in Great Britain introduced in 1783 (Act, 1783) and continued in force until early 1971, a period somewhat longer than 188 years.

Figure 1. 1885; Queen Victoria, pair ½ penny.

Figure 2. 1894; Queen Victoria, pair ½ penny plus three 1 penny.

There were other differences, of course, in addition to the disparate lengths of time the two taxes were collected. The British, for example, used embossed stamps, both appropriated and general purpose. Between 1783 and 1853, their tax on receipts depended upon the amount of money involved and the rates changed periodically. I am concerned here, however, only with examples that date from more recent times and generally involve only adhesive stamps. The pertinent acts of Parliament are the following.

The Stamp Act of 1853 (Act, 1853) repealed all previous duties and substituted a flat rate of one penny on all receipts for two pounds and upwards, effective October 10, 1853. The duty "may be denoted either by a Stamp impressed...or by an adhesive Stamp Affixed." The Customs & Inland Revenue Act of 1881 (Act, 1881) provided that "on and after the first day of June, ...any stamp duties of one penny [now legal]...may be denoted by adhesive penny postage stamps." (That legis-

lation also provided for the reverse usage which accounts for the appearance of the legend "Postage and Inland Revenue" in 1881 and "Postage & Revenue" in 1883 and thereafter on British postage stamps.) The duty on receipts was doubled by the Finance Act of 1920 (Act, 1920) effective in September of that year, and abolished, effective February 1, 1971, by the Finance Act of 1970.

Despite its lengthy history, little has appeared in print in recent years con-

cerning the taxing of receipts in Great Britain except discussions of the pre-canceled stamps called "commercial overprints" by one writer (Walker, 1977). Here the author noted that "Examples of the use of a pair of halfpenny or a pair of one-penny stamps to pay the tax (on receipts) are almost unknown." Presumably he was talking about the precancels, the inference being that the costs of overprinting half-penny or three half-penny stamps were not worth it. Whether that was true or not I cannot say, but the following

Figure 6 shows a small printed receipt of undetermined date bearing a block of four of the green, halfpenny, King George V stamp (Scott 159) whose profile design replaced the Downey Heads in 1912. The examples illustrated here range in time from 1885 to 1950 and include stamps in four different denominations issued during the reigns of Queen Victoria and Kings Edward VII, George V and George VI. Receipts are a commonplace type of document, continually being produced in great variety

and immense quantity. Their most surprising property, however, is their durability, without which collectors would be deprived of so many interesting examples of fiscal stamp usage.

## Unrecorded Iraq fiscal label

by John Powell, ARA

All known fiscal stamps of Iraq are listed in *The Revenue Stamps of Iraq* recently published by Joe Ross and John Powell (2000). Thus my surprise to discover an unrecorded War Relief Fund label on the back of a 1940 Iraq cover to Alexandria, Egypt, at a regional show in Calgary this past October.

The blue 4 Fils label is imperforate with three aircraft on the left and "SUBSCRIBE TO YOUR LOCAL WAR RELIEF FUND." This is shown on the reverse of an Ottoman Bank Basrah cover tied by a "BASRAH / REG. / 21 DEC. 40" cancel and an Alexandria mark of "25 DE. 40." The registered airmail, 85 fils rate cover to Ottoman Bank, Alexandria received an Egypt censorshhip number 77 marking.

Does anyone know what organization sponsored this label and in what format (sheets, singles, booklets)? Were other value labels available with the same or similar design? What was the period of use?

I would be pleased to learn anything about

these labels that members have. Please send information to 5828 - 143 St., Edmonton, AB, Canada T6H 4E8, or by email to <mpowel3@attglobal. net>.

# Case of the wrong company: Resinol Soap cancellation

### by Scott Troutman, ARA

Unravelling the companies connected with the printed cancels and handstamps on the black 1914-16 proprietary stamps is an on going project. Given the way these stamps were used, finding actual usages almost 90 years later is nearly impossible. Probably the hardest to prove are those connected with soap. These were mostly used on soap bar wrappers, which got heaved in the trash when the soap got used.

In the work by Joe Einstein and Harold Field, that was published in the April 1987 *The American Revenuer*, the "R C CO" cancel was ascribed to the Ripans Chemical Company of Englewood, New Jersey. Ripans was a large manufacturer which made soap, and this seemed a good bet.

Turns out this is wrong. I recently acquired a most remarkable old soap wrapper with a % cent proprietary still attached with a "R C CO/5-3-16" cancel. The soap however is Resinol Soap, "Medicated for the Skin and Complexion, Bath and Toilet manufactured for the Resinol Chemical Company, Baltimore, MD, U.S.A."

Soap was an interesting commodity under the 1914 tax law. Soap was only taxable if it claimed to "improve or preserve the skin, hair, mouth, teeth, nails or other parts of the

body." Thus if you made soap to wash your laundry, that was not taxable. And if you just said the soap made you clean, it was not taxable. But Resinol boasted it was "medicated" which implied that it improved your skin, and it was taxable as such. The % cent tax shows it sold for between 15 and 25 cents in 1916.

Resinol cancels are known in blue, black and red inks. All are from 1916. This particular example happens to be in black ink.

Interestingly, another similar printed cancel has surfaced since 1987. This is a three line cancel "R.C. CO./FEB 2/1915" in a dark purple ink. This may yet turn out to be Ripans Chemical Company. This three line cancel was found on a double line watermarked 5% cent stamp.

### Literature in review

The Revenue Issues of the Companhia de Mozambique (Mozambique Company) by John K. Cross, 90 pages, perfect bound, black and white plates. Available from the author, John K. Cross 39565 Westview Dr.Oakhurst, CA 93644 for \$20 plus postage (about \$3.50 US and \$7.55 airmail to Europe); email: <ikcross@sierratel.com>.

John and I met at several stamp shows over the years and we had discussed his idea of writing and publishing a catalog on revenue stamps of the Companhia de Mozambique (Mozambique Company). In November I obtained one from his first printing of 25.

This book is a combination handbook/catalog. The author mentions that apparently only two references in the literature provide

listings for the revenues of the Companhia de Mozambique, both general catalogs. This catalog covers the production and use of revenues along with the original legislation, where known. There is a listing for the general revenue issues, mine issues, hut tax and head tax issues with several previously unlisted items. Also included are postage stamps that were overprinted for fiscal use. Examples of postage stamps used fiscally without overprints are also provided. The stamp illustrations throughout are excellent as well as several documents.

Appendix 1 is on Revenue Stamped paper. Very few examples are known from the Companhia de Mozambique. The author provides an excellent outline for these issues

# Danish turnover tax (1948)

### by Paul A. Nelson, ARA

This is an example of the use of the Danish turnover tax stamps from the 1940s. This receipt, dated May 5, 1948, is the record that Willy Rasmussen & Co. in Copenhagen sold some cosmetics to a department store, "Chic", on the square "Torvet", in the west Jutland town of Esbjerg. The 25% tax was 52.95 kroner, and 53 kroner of stamps were affixed.

This is "Faktura Nr. B 6406". There would have been another copy of this same faktura, or receipt, upon which the turnover tax stamps with the figure "1" in the corners would have been affixed. One copy went to the buyer (with the "2"), one copy stayed with the seller and was turned in to the tax authorities (with the "1"). Sheets of the stamps had alternative "1" and "2" stamps.

These are examples from the issues of 1943, with a crown watermark and of 1946, with a wavy line watermark. Some of the crown watermark stamps also contain portions of the letters in the watermark from the margin of the sheets...the paper was prepared for sheets of 5 x 5 stamps, but with the "1" and "2" being required for these turnover tax stamps, sheets of 5 rows of six were printed. The denomination and the other figures are in bright carmine on the kroner denominations; black on the denominations. The perforations are 11 1/2 and the main color of the stamp is violet.

The violet "FAKTURASTEMPEL" stamps were for cosmetics; stamps with similar designs in green were for chocolate, etc; brown were for cigars; red for motor vehicles. Other similar designs but with other text served other purposes. These turnover tax stamps were used from the 1910s through the 1950s, with different periods of use for each commodity. There were many different type faces used over time, and in all there are about 242 brown ones, 222 green ones, 128 purple ones, and 151 red ones to be found.

### Literature/from previous page

and enhances it with examples from Mozambique colony.

John produced this catalog at home on his own computer, scanner and printer. He prints on demand which is very economical for the desk top publisher. This is an excellent catalog and I recommend it for every revenuers library.

Joe Ross

A Catalogue of the Fiscal Stamp of Saudi Arabia 1916-2001, compiled by R. J. Thoden (no ISBN). 56 + 44 pages (appendices), 8.5 x 11 inches, plastic comb binding, clear plastic covers, unpriced, scarcity rating in appendix, illustrated. Published by the au-

thor for the Arabian Philatelic Association International. Available from the author (4125 Windover Way, Melbourne, FL 32934-8514) for \$22 plus shipping and handling (\$2.08 by media rate or \$3.50 priority, inquire for foreign delivery).

In the January and February 1977 issues of *The American Revenuer* the author published "A Preliminary Listing of the Revenue Stamps of Saudi Arabia." This listing was based on Saudi fiscals that he had seen in his course of business in Saudi Arabia and those that could be supplied by friends, both collectors and non-collectors. That listing was limited to the fiscals of Saudi Arabia from 1926 but excluded those of the Hijaz.

Thoden's search for more revenues and any information about them has continued to this day. Although he acknowledges that the listing is not complete the listing has expanded by a magnitude of many times. Much more is now know about what exists and the background behind them.

Although titled a catalog, this is also a handbook. Each type of stamp contains a synopsis of its use, tax rates and legislation creating the stamps. Appendices more complete translations of much of the enabling legislation. Seventeen different categories of stamps are listed while ten different appen-

dices discuss rates, provide table for translation of values and inscriptions, discussion of the use of the stamps and illustrations of many stamps used of various types of documents.

The catalog is computer generated although done in a typewriter style of type. The illustrations are not halftoned and are often not ideal but nonetheless are quite usable. The catalog listings are laid out in an open, easy to use, easy to understand manner. There are no running section heads but the listings make use of prefixes with the catalog number. Illustrations are all numbered and keyed to the listings. Additional notes are inserted throughout the listings.

And yes, there is at least one stamp listed issued in 2001—a passport and visa stamp, with a hologram.

This is an amazing compilation of information about a country that really does not want collectors to know about their revenue stamps. Literature collectors: you know you have to have this one.

### **President's Letter**

We had a wonderful time at our 2001 convention held at Chicagopex last November. It is always a pleasure to see many of our members at these events. Revenue exhibits did extremely well with Ed Tricomi capturing the Reserve Grand with his Playing Card Revenues. Ten revenue stamp or literature exhibits received medals, a list of which appears elsewhere. The American Revenuer received a gold medal and The Range and Depth of the Articles and the Wide Variety of Authors Special Award. Thank you to all the members who attended and a special thanks to those who exhibited.

Our 2002 convention will be held at Napex on May 31, June 1 and 2 in McLean, Virginia, just outside Washington, D.C. Please plan to attend now. It is a wonderful stamp show and a great time of the year to visit the Washington area. If you would like to exhibit, please contact me or Donald Green for a prospectus. Don has volunteered to be the ARA Exhibits Liaison. Our goal is to improve our exhibit turnout at the ARA conventions.

Dues notices were mailed last month. If you have already paid your 2002 dues, thank you. If not, please do so soon and save the ARA the expense of sending a second notice. It makes the work of our secretary much easier.

The ARA is looking for a Publicity Chairman. This person would write publicity releases about ARA activities and submit them to the philatelic press. The goal is to create awareness about the ARA and revenue stamps and obtain new members. Please contact me you are interested.

# The Revenue Journal of Great Britain—September 2001

The September issue of the quarterly *The Revenue Journal of Great Britain* contains several articles of varied subjects. "Great Britain—Medicine Stamp Facsimiles/Fakes/ Forgeries" points out that many of these were produced by firms in the U.S.

Other articles include "Great Britain: KEVII-KGV Key Types 1902–1921; Part 3: the 'Wartime Issue' and Second Transition (1911–1921)," a short item on "Singapore Entertainments Duty," an introduction to "Rev-

enue Stamps of the Union of South Africa" and "Switzerland—Why Postal Cancels on Revenue Stamps?" The usual reviews and "Notes and Queries" also appear.

The Revenue Journal of Great Britain is published by The Revenue Society of Great Britain. For more information write to Tony Hall, Secretary, 57 Brandles Road, Letchworth, Herts SG6 2JA, UK or email <rsgb.hall@talk21.com>.

## Atalaya—winter 2001-02

The winter 2001-2002 issue of *Atalaya* discusses recent realizations for a number of unusual Cinderella stamps at auction. This is a new feature for *Atalaya*.

The Editor relates his impressions of the Belgica 2001 stamp show. Additionally there are book reviews, Cinderella news, odds and ends and a few advertisements from readers.

The magazine has been published for 27 years. A sample copy of this current issue along with three back issues can be obtained for \$5 in dollar bills or a £5 banknote (no checks because of high bank charges) from Christer Brunström, Kungsgatan 23, SE-302 45 Halmstad, Sweden.
