# Cancellations on Scott-listed U.S. wine stamps

#### By D. A. Woodworth, Jr., ARA

#### **Background**

I have collected U.S. revenue stamps for over thirty years. I have branched out to acquire different varieties of cancellations on cheaper stamps as it becomes increasingly difficult to find elusive items needed for my primary collection. I drifted rather by accident into accumulating different cancellations on the Scott-listed (Kloetzel, 2001) wine stamps (RE1-RE204). I have gone from collecting stamps with neat, interesting cancels to buying even ugly copies with cancels or perfins that contribute new names to my growing list of companies that used wine stamps. I began by trying to acquire stamps with a representative cancellations of the companies that used them but have since expanded to seeking examples of each different stamp denomination that a company used.

I track acquisitions using a Microsoft Word table, a print-out of which always accompanies me to bourses. This enables me to easily track the various wine company cancellations that I find. I keep a separate, detailed inventory (type, condition, vendor, cost, date of purchase, and details of cancellation), but it is the tracking list that forms the basis of this article.

The tracking list also helps in developing a picture of the numbers of stamps by denomination and by cancellation used by wine companies. Frequency of use provides an interesting picture of the popularity of container types and volumes of wine sold over time. A cursory study of available cancels indicates that the centers of wine production during the period of use of these stamps (1914–54) were in California and New York. No surprises here.

### Purpose of this article

It occurred to me as my collection of wine cancellations grew that it might be worthwhile to publish an article in *The American Revenuer* to present this interesting area of collecting to other revenue collectors with a

two-fold goal of:

- Highlighting the many interesting cancellations that exist,
- Soliciting additional information about yet undiscovered varieties of wine cancels for ultimate use in a catalog about the subject.

While preparing this article, I shared it with one of the doyen's of American revenue collecting, Mr. Ron Lesher (ARA Past President), who kindly helped with constructive suggestions. Ron's most important contribution, however, was to put another student of wine stamps (Mr. Dave Nussmann of Texas) in contact with me. Dave was working on a catalog of wine stamp cancellations and had already completed an exceptionally thorough compilation of his material—an effort that semi-complemented the article I was preparing—so we agreed to do two things:

- Complete my in-progress article for *The American Revenuer*, with the goal of generating more data on cancellations to use in our developing wine cancellation catalog,
- Pool information in our extensive collections, plus new information we might derive from feedback from *The American Revenuer* article, to develop a more in-depth catalog.

Research will permit provision of information in as many instances as possible on the full name, location, and dates of operation of the each wine company for which we include a cancellation. Summary historical information plus data on types of wine and volumes produced will also be provided when available.

This is difficult to do in the case of many of the earlier wine stamps bearing manuscript cancellations that were individually used on a per-bottle basis or in situations where the only known initials may possibly represent the names of several firms each bearing the same initials. In such cases, information on the using firm may be lost forever. We hope that responses to this article will help to fill in some of the gaps in our information.

#### Sources of information

The Internet is useful for initial exploration about wine companies. An excellent site done by the University of California (Berkeley) lists bonded wineries of the state of California <a href="http://sunsite.berkeley.edu/Wine/">http://sunsite.berkeley.edu/Wine/</a> bondedwineries.html>. Similar lists may exist for other states. The list starts to provide a window into the location and history of the companies behind the cancellations. Information often tends to be sketchy, but it does serve as a starting point for further research. City business directories and trade publications, such as Wine Industry Yearbooks, constitute other valuable sources of information on the companies that used federal wine stamps.

#### A brief detour

This leads to an interesting aside, occasioned by an outstanding little book entitled *Series of 1941 Wine Revenue Stamps of the United States of America* written by Ray W. Bidwell in 1965. It outlines the history of the Series 1941 wine stamps. With the information in this book, one can plot the volumes of wine sold by various companies via inferences made from accumulation of cancellations. Using the common Scott RE147 (\$1.44 value) in the Series of 1941 as an example, Table C of the Bidwell book shows, under Tax Rates for April 1, 1944-October 31, 1951, that this stamp covered the 60¢ tax rate per gallon for:

- Cases of 48 bottles of <sup>2</sup>/<sub>5</sub> pint (6.4 ounces), or
- Cases of 24 bottles of <sup>4</sup>/<sub>5</sub> pint (12.8 ounces), or
- Cases of 12 bottles of ½ quart (25.6 ounces), or
- Cases of 6 1\(^3\)/5 quart (51.2 ounces).

Doing the math for these combinations results every time in an exact tax rate of \$1.44, suggesting a combination of great popularity for these beverage volumes over a long period of time and hence the high frequency with which copies of this stamp are found.

Rate information in the Bidwell book is taken from Title 26 U.S. Code of Federal Regulations. His analytical approach is tougher to apply to the earlier series of wine stamps because an equivalent reference does not exist. Relevant tax code information for the pre-1941 series of wines stamps exists

with at least one serious wine collector, so hopefully a similar study for these issues will someday find its way into print.

#### The cancellations

In researching this article, I developed a supplemental interest in my pursuit of wine cancellations. I had long shunned perforated initial ("perfin") "cancellations" on revenue stamps. Due to an article that appeared some years ago in *The American Revenuer*, I have combed my collection for perfins on revenue stamps to help the Perfin Collectors Club build a catalog for revenue stamps. This has turned into a six-year plus project to find new, or confirming, material to help in this endeavor and (of course) introduced me to an additional series of wine "cancellations" that broadened my initial quest.

[This article has] a two-fold goal of: highlighting the many interesting cancellations [and] ... soliciting additional information ... for ultimate use in a catalog.

The term "cancellation" is in quotes because, strictly speaking, the holes created by a perfin design in a stamp are not always a cancellation. With postage stamps, they are normally a means for a business firm to minimize pilferage of their stamps for resale at a discount by introducing the fear factor of a specific identifying marking making the stamps bought from the federal government unique to their own company.

An interesting exception exists to this general rule in the case of wine stamps. Current research suggests that wine perfins could either represent traditional security perfins or could also serve as cancellations. Used without a date, it is likely that the perfin served as a security measure. Used with a date, it was likely that perfins were used by a number of wine companies to make their returns to the IRS in the form of tax stamps affixed to their paperwork, thereby ensuring their stamps were indeed used to pay the tax owed by the firm and not otherwise misapplied to something else.

Returning to the theme of interesting cancellations and gaining more information about them, the ultimate goal of this article is to generate additional input on the cancellations and the wineries and other companies that used them. Some of the companies have been in business a long time, predating Prohibition and the Great Depression and continuing in business to the present. Others, of course, succumbed to the pressures of these major events in U. S. history and went out of business. Information about as many of these companies as possible will ultimately appear in the wine cancellation catalog.

The larger sized wine stamps make it relatively easy to get complete examples of strikes, though there are a few exceptions where multiples are required to get a complete strike. Somewhat more problematic are the earlier wine stamps, Scott RE1–14, RE16–29 and RE31, that were issued in the size of standard definitive postage stamps. Their smaller size often makes it hard to find complete identifying cancellations—as opposed to the larger format stamps of the series. Figure 1 highlights this point.

Figure 1 shows a larger-format 50 ¢ RE45 with complete "COLLECTOR INTERNAL REVENUE /  $1^{\text{st}}$  DIST., ILL." cancellation and a definitive sized 24 ¢ RE28 with partial section of the same cancellation. The 50 ¢ stamp has been inverted to allow readers to easily see the complete cancellation that appears only as a fragment on the 24 ¢ stamp.

Happily, in many other cases, cancellations were made proportional to the size of the stamp, so there are also many nice examples of complete cancellations on the standard definitive size stamps.

Figure 2 shows what is perhaps the nicest example of proportionality I have found. The wonderful contrast between a definitive sized

Figure 2. Two cancellations from the same company proportioned to fit the size of the stamp.

10¢ RE26 and a large format 10¢ RE65, both with cancellations of the L.N. Renault & Sons Company of Egg Harbor, New Jersey.

Dealing just with definitive sized stamps having cancellations proportionate to their size, those in Figure 3 show some of the interesting cancellations to be found.

Figure 3 shows a 1¢ RE3 with "R.H.M & Co. Dec. 1914" (Robert H. Macey) printed cancel; 1½¢ RE19 with "M.D.C." (Mission Dry Corp.) printed cancel; 8¢ RE10 red handstamp "I.S.C." (Italian Swiss Colony) cancel; 10¢ RE11 with purple handstamp "C.D.S.D. Co."; 20¢ RE27 with "RCR&H" cancel; and 20¢ RE27 with magenta handstamp "The Hammond Hotels." At the time these stamps were in use, the law required that each individual container (bottle) bear an individual revenue stamp, so some of these stamps saw hard use indeed

Figure 3. A variety of cancels on the small sized stamps (see text for identification).

Figure 4. The high value 1914 stamp with a Internal Revenue cancel and a private cancel.

Illustration 4 shows high value \$2.00 stamps that were issued contemporaneously with the 1914 definitive size wine stamps. The single line watermarked \$2.00 RE15 stamps have an "COLL. INT. REV. / 2ND DIST, N.Y." cancel in red (rather than the more common magenta or purple) and a "H.W. Co. N.Y." (possibly the Hammondsport Wine Co.) cancel within a shield. The IRS cancellation is very likely a precancellation applied by the IRS and used on cases of imported wine (not placed on individual bottles).

It was a real bother for companies to affix the small wine stamps to each individual container, so pressure mounted on the government to find a simpler way of paying the tax. This eventually led to approval to affix wine stamps to the outside of the containers holding the individual bottles. Much simpler! As a result, larger format wine stamps were produced to comply with this new method.

Figure 5 shows examples of larger format Series of 1916 stamps with an interesting variety of cancellations: The 1¢ RE32 with "MDC" printed cancel; 4¢ RE34 with handstamped "Pacific Wines, Incorporated" cancel; 15¢ RE39 with "California Medicinal Wine Co." cancel; and 60¢ RE46 with "Mission Dry Corp." cancel. In addition to being attractive, some of these cancels also represent interesting examples of American social history. During the period of Prohibition, limited amounts of wine could still be produced for sacramental purposes, reflecting the tenacious struggle of some wineries to stay legitimately in business.

At the end of Prohibition, a new series of larger format wine stamps were produced to pay the tax on the flood of newly re-legalized wine. The larger format Series of 1932 stamps still bear the printed legend "Series of 1916," but are generally easy to distinguish from the preceding series as they are rouletted 7 rather than  $3\frac{1}{2}$ .

Figure 6 shows a selection of Series of 1932 large format wine stamps. A 10¢ RE65 with "East-Side Winery" cancel; 20¢ RE69 with beautiful serrated oval handstamp "Hammondsport Vintage Corporation" cancel; 60¢ RE74 with perfin (perforated initials) "G&Co" (Gallo) cancel; and a 72¢ RE75 with "Mont LaSalle V'yds" handstamp.

As tax rates changed over time, new stamps were required to make it as easy as possible for users to meet the most common rates.

Figure 7 shows the smaller format Series

of 1932 wine stamps issued to help cover new taxation rates. Photos show the 51/2¢ RE84 "Roma Wines" printed cancel; 5¢ RE92 red printed "Meier's Wine Cellars" cancel; 141/5¢ RE96A with "Urbana Wine" cancel; and 15¢ RE97 "Council Bluffs Winery" purple handstamp cancel.

A small series of new larger format wine stamps were issued in 1934. Figure 8 shows the 40¢ RE102 with "San Gabriel Winery"

handstamp and \$1.00 RE104 with "U.S. Fruit" handstamp. This time, the government changed the "Series of 1916" legend near the bottom of the stamps to "Series of 1934," making these stamps very easy to spot.

The last new group of wine stamps produced by the government was the very extensive Series of 1941, which was used until the end of the requirement for wine stamps in 1954. Both small and larger format stamps were produced.

Figure 9 shows a selection of Series of 1941 small format wine stamps: 5¢ RE117 with "CANCELLED Lombardo Wine Co." handstamp; 24¢ RE131 "Vinyardists, Inc."

handstamp; 40 4/5¢ RE190 purple "W.A. Taylor & Co." handstamp; and 51¢ RE191 black handstamp "The Welch Grape Juice Co." cancel.

Figure 10 shows the larger format Series of 1941 wine stamps: two very common \$1.44 RE147 stamps, one with typed "Mr. Boston" and one with handstamped "American Wine Company" cancels; a \$2.40 RE153 with black "C.W.A." (California Wine Association) handstamp; and a \$1.60% RE196 with pink "S.B. Co." handstamp.

Table I, Wine cancel frequency, shows the number of different cancels thus far found, broken out by individual Scott number—a total of about 1593 cancellations from approximately 756 companies. I believe the sample is statistically large enough to provide a relevant picture of what was happening in with wine taxation in the United States. With the number twenty as a threshold, note the clusters of high usage for Scott numbers RE60, RE65, RE69, RE70, RE71, RE73, RE74, RE75, RE76, RE85, RE91, RE95, RE96, RE98, RE99, RE100, RE101, RE102, RE102A, RE135, RE145, RE146, RE147, RE151, RE160 and RE196. These stamps usually account for the most frequent new cancel finds in dealer stocks.

Table II, "Expected cancellations," (page 98) lists wine stamps with low catalog values for which cancellations should be readily expected. For whatever reason, I have found none. It is possible that the stamps exist mainly unused (circumstances described in the Bidwell book), thus making canceled varieties generally scarce. Meanwhile, the search goes on.

Table III, "Wine cancellation listing," is the heart of this article. It is an alphabetical listing, by company name, of cancellations thus far discovered. Where examples of different denominations used by the same firm exist, they are listed in Scott number order under the using company heading.

Many cancellations were obviously applied in haste, sometimes making them quite hard to decipher. In cases where the deciphering was difficult to the point of uncertainty, italics have been used to indicate a best guess for the appropriate word in the table.

I use frequently updated copies of Table III in hunting for cancellations—always looking for new companies and/or better copies of italicized items to try and confirm a best ini-

tion (shown with denomination of stamp and Scott number). Company names/initials shown from my collection reflect, as closely as possible, the exact appearance of each company's cancellation.

It also incorporates cancels from Dave Nussmann's collection (shown without stamp denominations and Scott numbers). Supplementary information regarding names of companies possibly associated with a set of initials or with the location of a firm is shown in smaller font. This information will be developed in greater detail in the final catalog.

Table III, prior to publication of our planned Wine Cancellation Catalog, serves two purposes:

- · A preliminary checklist for collectors interested in building a wine cancel col-
- · A way to enable collectors owning cancellations not shown on the list to (hopefully) share them with the author to help create the most complete catalog possible.

Note: The federal government maintained a master list of Bonded Winery (BW) num-

bers that attributed a specific control number to each winery. The list was destroyed at the time of Prohibition and no known copy exists. We are trying to reconstruct a new BW list for the catalog. If readers can provide BW numbers, where they are not shown, for the firms listed in Table III, it would be helpful. If some reader has a BW list and is willing to share it to aid in completing the catalog, that would be wonderful.

Analysis of this list is an interesting exercise. The names of about seventeen companies (and the friendly Internal Revenue Service) jump out from all the others based

on frequency of cancellation appearance. Some of these companies still remain in operation and are household words throughout the United States. Listed alphabetically, the companies with the greatest numbers of cancellations include: K. Arakelian & Sons, B.B.W.C. (Beringer Brothers Wine Co.), California Wine Company, Eastern Wine Corp., Ellena Bros, F.I.L. (Fruit Industries Ltd.), G & Co. (Gallo & Co.), Italian Swiss Colony, Meier's Wine Cellars, New England Wine Co., Padre Vinyard Co., L.N. Renault & Sons, Roma Wine, SII Fresno, Sunny Hill Wineries, Taylor Wine and Urbana Wine.

A thoroughly unscientific survey of local wine merchants showed several of these firms still market their product (Beringer Brothers and Gallo) or use the name of a familiar but no longer extant firm to market their product (Taylor Wine).

Mute cancellations are those that serve the purpose of canceling a stamp but often do not provide definitive information about the firm performing the cancellation. Table IV lists known generic and mute cancels. We would welcome additional information that would change the mute to a definitively known entity and, also, additional information about other mute cancellations not shown here.

Manuscript cancellations are particularly difficult as they normally provide only a set of initials and a date. Since they usually appear only on the wine stamp issues of 1914 and 1916-18, there is also the added barrier of time that makes it difficult to link initials with the name of a specific firm. The authors would particularly welcome definitive information that links the cancels shown in Table V to a specific firm, as well new information about other manuscript cancels that exist. This table somewhat repeats data shown in Table III, but is presented here to facilitate addition of new manuscrpt cancels, decipherment of existing cancels, or association of company names with a set of initials.

With any project of this scope, there occurs the frustrating problem of partial or fragmentary cancels that do not comfortably fit into the body of information that has been developed. This calls for additional detective work. Table VI lists the fragmentary cancels for which we seek information that will allow us to make definitive listings. We would welcome information that will help turn the

consulted before beginning this article. As best can be determined, no previous compendium of wine cancellations has appeared in The American Revenuer. Therefore, Tables III through VI plus Table VII become useful preliminary lists in establishing what exists in this area.

The listing in Table III is large but certainly not comprehensive, as new cancels continue to appear, as do additional examples of existing cancels on new values, at nearly every bourse and major stamp show. The list is now large enough, however, to be considered as representing critical mass in starting to show the wide variety of available material.

I hope fellow revenuers can add to this list and hope to hear from them. Please contact the author via e-mail at <ddd.apci.net> or send correspondence c/o Editor, *The American Revenueer*. We would sincerely welcome input from ARA members to

help expand the scope of the planned catalog.

It would be best to be able to examine actual stamps but, realizing many collectors are reluctant to place their material in unfamiliar hands, photocopies (color preferred; black & white OK with information on color of cancel) are satisfactory. This will permit the necessary measurements to be made for catalog inclusion.

### Acknowlegements

Many thanks to the following people for their help in preparing this article: Mr. Ron Lesher, past president ARA, for his always insightful comments; Mr. Dave Nussmann for the input from his collection and the impetus to finally get this effort off the drawing board; and Mr. Kenneth Trettin for his fine work in turning my submission into the article you are now reading.

### Cigarette stamps of Slovakia

The January-February 2006 issue of *The American Revenuer* just arrived on Saturday here. Probably others have already noticed that the cigarette excise stamp shown on page34 is from Slovakia, not Slovenia. It features the arms of Slovakia, and also is denominated in Slovak Koronas, not in Slovenian Tolars.

I attach two further (newer) similar stamps from Slovakia, picked up in Bratislava last year.

# State Revenue News—second quarter 2006

The theme for the *State Revenue News* for the second quarter of 2006 is "eggs." These stamps are to indicat payment of inspection fees by various states and are often rather large. Articles in this issue look at stamps from Alabama, Pennsylvania, Kansas, Indiana and Oklahoma.

A variety of other articles in this issue look at scale and gas pump seals, habitat stamps, a bogus feed stamp cancel, documentary stamps, billiards, documentary and cigarette stamps. There are also book reviews, a list of State Revenue Society publications, letters and an auction of state revenue stamps which is limited to members (a good reason to belong to the SRS).

The State Revenue News is published quarterly by the State Revenue Sciety for its members. A subscription is included with membership. For information about the society and membership contact the SRS secretary Kent Gray at Box 66743, Albuquerque, NM 87193 or Scott Troutman at Box 421, Duncansville, PA 16635-0421. Information is also available at the society's web site <a href="http://www.mckellips.net/SRS">http://www.mckellips.net/SRS</a>.

# **The American Revenue Association**

# **President's Letter**

Our convention at the ASDA Mega-Event in New York City last March was successful. Attendance by ARA members was down a bit from previous conventions, but I think this was due to Washington 2006 which was just two short months away.

The ARA Grand Award, and the show Grand Award, was won by Richard Malmgren with his *Hawaiian Revenues*. Richard's exhibit now qualifies and will be shown in the World Series of Philately competition at the APS Stampshow in Chicago this August. For those of you who have not seen this exhibit, I urge you to do so as it is spectacular.

There were also many other wonderful revenue stamp exhibits at the Mega-Event. I would like to thank all of you who entered exhibits, attended the show and assisted at the ARA booth.

The next big event was the Washington 2006 World Philatelic Exhibition in Washington, D.C. It was a spectacular success and we all owe the show committee and all the volunteers a huge thank you for a job well done. Attendance was reported as being in excess of 226,000 with 85,000 unique registrations.

It was a pleasure to meet many of our members (and some new ones) from all around the world. Paul Nelson managed the ARA table for the first half of the show. I know we handed out several hundred ARA applications and some joined on the spot.

There was a large number of revenue stamp exhibits on display, including some spectacular foreign revenues that I had not seen before. We also had a couple ARA meetings that were well attended and went well.

International stamp exhibitions are truly a celebration of philately. The spectacular success of Washington 2006 tells us that philately is alive and prospering. This was readily apparent to anyone who attended the show. The next U.S. International will be in New York City in 2016. A committee is already formed and work has begun to may it an even bigger success. Mark you calendar now to attend.

Our 2007 ARA Convention will be held in conjunction with Westpex at the San Francisco Airport Marriott Hotel on April 27–29. Please make your plans to exhibit and attend now.

There are three key components that make the ARA a successful philatelic organization. Obviously, the first is the membership. Second is our journal, The American Revenuer. It is the glue that holds us together. The third component is volunteers that run the ARA, and that is where we need some help. Most important is we need a person or persons who can publicize the ARA, both in the stamp press such as *Linn's Stamp* News, and on the Internet. The goal is to increase our membership by publicizing the collecting and study of revenue stamps and the American Revenue Association. If you can give a little something back to the hobby you enjoy so much and help us out a bit, please get in touch with me.

Eric Jackson, ARA President

# India to use stamped paper vending machines

[Member Paul Nelson submitted this item that appeared in the June 22, 2006, issue of the Stamps of India Collectors Companion.]

Non-judicial stamp papers, so very vital for legal documents, will soon be made available round the clock in Jaipur. The Rajasthan state government's registration and printing department will install stamp vending machines, resembling ATMs, at key places in the city. Initially the vending machines will be installed at the Jaipur Devel-

opment Authority, high court, Municipal Corporation, lower court and the Collectorate. In the beginning, the most widely used stamp papers, of Rs.10 denomination, will be made available. It is estimated that 3,000 such stamp papers are used every day in Jaipur. After inserting two Rs. 5 coins into the stamp vending machine, the buyer will have to punch in his name, address and other details.

# The Check Collector—April-June 2006

The Check Collector never fails to have articles of interest to the revenue stamp collector. In the April-June issue there is "Revenue Stamped Paper of the Spanish American War Tax Era" by editor Bob Hohertz. This is part four of a series which presents nine pages of the author's Gold medal exhibit of this material.

"Negotiable Paper" by Steve Whitfield presents a tutorial on this varied subject. He defines terms such as "at sight" and "without recourse" and discusses (and illustrates) various documents such as promissory notes, due bills, drafts, bills of exchange, various types of checks and certificates of deposit.

The Check Collector is published quarterly by the American Society of Check Collectors, Inc. For information about the society and membership, contact the Secretary, Lyman Hensley, 473 East Elm, Sycamore IL 60178-1934 or by email at ≤ilrno2@netzero.com>. Information can also be obtained from the society's web page <a href="mailto:http://asccinfo.com">http://asccinfo.com</a>.

# The Editor notes . . .

... that no, you haven't been having trouble with your mail. *The American Revenuer* is late—in fact I am one whole issue behind. There are all sorts of reasons, none of which it totally responsible: late start after the last issue, new grandchild, weather, work and a computer that did not want to cooperate. It is beginning to look like I have this one almost complete, and the July-August is

partially done. I plan on getting most of it finished before StampShow.

... that I hope to see many of you at StampShow. Chicago is a great place for a stamp show, so if you happen to see me, say hello. The following week I will be on the jury in Omaha and three weeks after that at the Southeastern show in Atlanta. Again, if you are there, say hello.
